

WHAT IS ALLERBLING™?

Allerbling™ is a unique wristband that displays your child's allergic food groups with colorful and cute iconic symbols. You can customize the band as your child's food allergies change. We have included the eight most common food allergy groups in the full Allerbling™ kit: peanut, shellfish, wheat, dairy, fish, soy, tree nut and egg. Individual food and other allergy charms and wristbands are available on our website: www.allerbling.com

Allerbling™ can accommodate up to 4 food allergy charms and the medical cross charm. We recommend using the medical cross charm to let people know that, while Allerbling™ is designed with children in mind with colorful and cute iconic symbols, it is still a medical awareness tool that can potentially prevent a life threatening situation.

Full Allerbling™ Kit (2 bands, 1 medical cross and 8 most common food allergy charms)

Please order online at:
www.allerbling.com

Individual food allergy charms and wristbands can be ordered separately.

We are developing new charms for additional food and other allergies. Please check our website for all new releases.

Please contact us at hello@allerbling.com if you have questions, feedback or ideas for new charms.

Instructions for installing allergy charms

Step 1: Open the package; select the correct size band and allergy charms that apply to your child and his or her allergies.

Step 2: Hold the wristband and stretch the band with both hands to elongate a hole, do not over stretch.

Step 3: Using your thumbs and forefingers to insert the charm's backing partially into the hole, and pull the backing through the other side – a bit like threading a needle.

Important notes: DO NOT use a sharp object to elongate the hole.

Thank you for joining us in raising the awareness of children's allergies. Together we can make a difference!

Recommended for children ages 3 and up

As parents, we want our children to be safe and while your children are in school or not in your immediate care, Allerbling™ can be your silent partner that informs and reminds a care giver about your child's food allergic condition.

Choking Hazard

Small Parts. Not for children under 3 years.

This product was created for the love of our children. Allerbling™ supports organizations dedicated to raising awareness and finding a cure for food allergies. Please visit our ABOUT page at:

food allergy awareness bracelet

Allerbling™ is a unique wristband that you customize, at any time, based on your child's changing food allergic condition. The best way to avoid food allergy emergencies is through awareness, and Allerbling™ helps to alert others about your child's allergies.

Allerbling™, raising awareness of children's allergies, one wrist at a time.
