TERMINOLOGY

WARNINGS AND NOTES

Warnings and notes are used throughout this manual to emphasize important and critical instructions as follows:

WARNING!

An operating procedure, practice, etc., which, if not correctly followed, could result in damage to equipment or loss of manufacturer warranty.

for example:

Failure to operate according to those warning directives can result in loss of manufacturer and extended warranty!

NOTE!

An operating procedure, condition, hint, etc., which has been acquired from extensive use of the controls and essential for perfect flight response or maximum accuracy during training sessions, or just a good hint worth to be highlighted.
