## HEMP BLEND

For over 10,000 years, people have used hemp fiber because of its strength and ability to grow rapidly with less water than cotton. The fibers from the hemp stalk are among the earth's longest, soft natural fibers, producing uniquely beautiful finished fabrics. And that's not all; one acre of hemp can produce as much fiber as two acres of cotton with less need for pesticides. And since the first American flag was made from hemp, we think it's only right to fly our hemp flag high today!
