Model No:	AR08
Casing Material:	ABS+PC
Product Weight:	73g
Power Supply:	Solar
Battery:	Buit-in Rechargeable Battery
Solar Panel:	2V, 36mAh
Frequency :	400±50Hz
Working Mode :	Sonic pulses emitted 2 seconds in every 30 seconds
Waterproof IP Rating:	IP44
Coverage Area:	Up to 5,000sq.ft.
Dimensions:	5.5*5.5*26CM (L*W*H)

How to Install:

How to Install:

1. Carefully remove your Solar Mole Repeller stake from the packaging. (Picture 1)
2. Use a wooden or steel rod (a stake) to make a similar hole in the ground before placing your mole reppeller stake. **DO NOT hammer your Solar Mole Repeller into the ground to avoid damaging the solar panel on top.**
3. Insert the spike of your Solar Mole Repeller all the way into the ground to avoid getting tripped on or damaged by a lawnmower. (Picture 2)
4. Press the ON/OFF button to activate/deactivate the device. (Picture 3)

Installation and Operating Instructions:

The Solar Mole Repeller chases away pests like voles and moles from your backyard or garden by emitting ultrasonic waves into the ground for 2 seconds in every 30 seconds.

The solar cell on the top part of your Solar Mole Repeller charges the built-in rechargeable battery to ensure safe operations day and night.

For the solar panel to efficiently convert sunlight into energy, please place your Solar Mole Repeller where it can get direct sunlight and away from obstructions like trees or buildings that could cast a shadow on the solar panel. Unfavorable weather conditions such as clouds, rain, or snow can also decrease efficiency.

For outdoor use in the backyard, garden, farm, etc.

Safety Warning:

1. Please ensure that your Solar Mole Repeller is free of any damages before using. DO NOT operate damaged solar mole repellents.
2. DO NOT press the top cover of the solar panel to avoid damaging it.
3. Packaging contains small parts. Keep packaging materials away from children and/or pets to avoid choking.
4. Please DO NOT alter, change, or convert any parts of the product as this will void warranty.
