

# **INDOOR/OUTDOOR 2000V BUG ZAPPER**

Please read the following instructions carefully.

## **GENERAL:**

This lamp uses a high-powered lighting tube to lure insects with UV waves. When an insect flies toward the UV light, it receives an electrical shock when making contact with the electrified grid.

The device is environmentally-friendly, space-efficient and chemical-free (no pesticides, smoke or other toxic byproducts). The built-in light is harmless to people, pets and plants. The device is designed to be durable for multiple years of use, and energy efficient for long-term activation.

## **SAFETY WARNINGS:**

Please check the condition of the device before use. DO NOT USE if there is any noticeable damage to the device. DO NOT submerge the device in water. DO NOT bend the metal grid.

The coils carry a high voltage, please DO NOT touch them.

This is an electric device. Please keep it away from water and other liquids.

This is not a toy. Please keep it far away from children.

## **WHERE AND HOW TO USE THIS DEVICE:**

The device may be used in the living room, in bedrooms, offices, clinics, hotels, restaurants, shops, warehouses, garages, etc. Do not use outdoors in barns, stables and or similar conditions. It may also be used as a night light/hallway light. The range of the device is most effective when it is dark and is especially effective when placed at a door entrance or near bright light sources.

Please use a mini brush to clean dead insects from the unit every week. (Please ensure the unit is unplugged when cleaning.)

## **SETUP:**

Hang, fix or stand the device out of children's reach. The device should be plugged into an alternating current power supply (110-120V AC 60Hz).

## **SERVICE AND MAINTENANCE:**

Clean the device ONLY when unplugged from any electrical source. The device will be most effective when it is cleaned of insect residue on a regular basis. Use the included brush to clean the device.

When device is not in use (for example, during the colder months), store it in the packaging in a dry place out of the reach of children.

Disposal: Do not place this device in the garbage. Bring it to an official collection site.

## **TECHNICAL INFORMATION:**

Power: 110V-220V AC cable / Light source: 20W 'U' type UV tube /  
High voltage metal grid: 2000V

## **RETURN POLICY:**

QUALITY ASSURED: We're happy to provide a full refund if you are disappointed with the device and decide to return it within 12 months of receiving the order.

PLEASE BE PATIENT WHEN USING THE DEVICE: NOT ALL BUGS ARE ZAPPED IMMEDIATELY; THE UV LIGHT WILL WORK TO ATTRACT BUGS AWAY FROM YOU AND YOUR FAMILY.

# OVERVIEW

---

## **HANGING RING**

Hang the lamp out of reach of children and pets.

## **CLEANING BRUSH**

Clean the grid regularly after use (power off before cleaning).

## **WEATHER SHIELD**

Your device is protected with the water-resistant shield.

## **ELECTRIFIED GRID**

Protect your space with 2,000 volts of zapping power.

## **SAFETY CAGE**

Designed to keep hands and fingers safe from the zapping grid.

## **6-FT. CABLE**

A longer cable gives you more access to outlets.

## **ATTRACTANT TRAY**

Use any attractant to lure insects to the Zap Lamp.
