Title: Full Stack Developer

Company: B2BToolbox

Location: Kingston, Ontario

Status: Full Time, Permanent (37.5 hrs per week)

Job Description:

Attention future Full Stack Developers: Would you like to add to your skill set within an environment that encourages developers to practice through hands-on learning and coding? Join the dynamic team at B2BToolbox as a Full Stack Developer, where you'll have the opportunity to apply your creativity and expertise in crafting pioneering e-commerce solutions. As a vital member of our development team, you'll work closely with the Director of Product Development to execute forward-thinking e-commerce functionalities.

Your proficiency in PHP, JavaScript, and HTML will be required to integrate these features with Shopify stores, ensuring a smooth and tailored experience for clients. This role offers you the freedom to explore your ideas and take ownership of projects, contributing significantly to the evolution of our cutting-edge e-commerce solutions.

If you're ready to embark on an exciting journey where your skills and ingenuity make a tangible impact, apply now and become a key player in revolutionizing B2B e-commerce.

Experience/Qualifications:

Experience with the following will be required for this role:

- PHP (experience with Zend framework is a plus)
- Object-oriented programming and MVC architecture
- JavaScript and jQuery, with expertise in Ajax
- Utilizing and managing APIs
- MySQL database management
- Cloud computing frameworks such as AWS
- Strong communication skills with collaborators, fluency in English
- Knowledge of unit testing methodologies

Additional experience with the following will be beneficial:

- Bootstrap CSS framework
- Building UX designs in HTML
- Knowledge of Shopify e-commerce stores
- Best development practices to improve SEO
- Server architecture, management and configuration
- Version control systems
- Customer communications

Work Hours:

Monday - Friday 8:30 am to 5:00 pm with a 1-hour lunch break.

Company Profile:

Based in Kingston, Ontario, B2BToolbox is a business to business software development and marketing company with a specialty in e-commerce and digital marketing for office technology resellers in North America. The company has a significant presence in North America with a higher concentration in the United States.

The vision of the company is to bring successful brick and mortar sales operations throughout the industry into the current age of digital sales and communication. B2BToolbox customers tend to be businesses anywhere from a couple million dollars in annual revenue to large multi-location operations that drive $100+ million in annual revenue.

Why B2BToolbox?

We are a fully remote company, allowing you to work productively where you're most comfortable. Through communication channels, such as "Google Meet" and "Hangouts", we are able to harness a productive, collaborative and fun work culture.

The team is composed of the founders along with marketing, development, and sales/account management teams. While executing the work and providing value to our customers is paramount, this can only be achieved through collaboration and fostering continuous education.

Our company is continuing to expand and new opportunities continue to arise—meaning if you're up for a challenge and enjoy a fast-past work environment with a great team, this could be an exciting next step in your career development. We believe in getting the right people on board and treating them well so that we can retain strong, talented professionals who are passionate about what they do.
