

**! Please Note:**

- Before printing, make sure that page scaling is set to “None” in your print options.
- Make sure you are printing to standard 8-1/2 x 11 size paper (A4). When properly scaled, a dime should fit just inside the borders of Size 8.

## Measure a Current Ring

1. Select a ring you have that fits the finger where you intend to wear your new ring.
2. Place the ring over the circles below until the inside of your ring fits just around the border of a specific circle.
3. If your ring falls between two sizes, you can order a quarter size (ex. 5.25 or 5.75).
4. Please note that bands 1/4” or wider generally fit a half size larger than your usual size.  
Bands that are tapered should fit your normal ring size.

**? Need Assistance?**

- Give us a call at 806.576.7303 or send us a message at [sales@chrisritchiecreations.com](mailto:sales@chrisritchiecreations.com)
- If you are still unsure of your ring size, contact us and we will send you a free set of ring sizers.
