You will need:
Drill bit: $23 / 64^{\prime \prime}$ or 8 mm

## Diagram A - Parts and Assembly

Diagram B - Turning the Handle

## Turning \& Assembly

1. Recommended blank size $5^{\prime \prime} \times 1.5^{\prime \prime}$
2. Drill center of blank to $1-3 / 16^{\prime \prime}$ deep
3. Turn between centers, finish and polish
4. Use epoxy to affix scoop to blank.
