BE PROTECTED WITH MASKS & HAND SANITISER

50ML HAND SANITIZER

HAND SANITISER/50ML

Experts say washing with soap and water is first choice, especially if you have visible dirt on your hands. Hand sanitizer is great for when you can’t get to soap and water, and it’s actually more effective at eliminating germs because it kills them rather than just removing them.

SAFETY FACE MASKS

FFP2-N95

FFP1-3PLY

3 Ply - Disposable Civil Use

FFP1-Q

3 Ply - Medical Use

If you are likely to be in close contact with someone infected with the Coronavirus, a mask cuts the chance of the disease being passed on. If you’re showing symptoms, or have been diagnosed, wearing a mask can also protect others. A flexible pad held over the nose and mouth by elastic straps to protect against germs encountered during daily activities.

5L HAND SANITIZER

HAND SANITISER

Hand sanitizer is great for when you can’t get to soap and water, and it’s actually more effective at eliminating germs because it kills them rather than just removing them.

HAND GLOVES

Ensure to stop spreading germs and protect yourself by wearing gloves while doing daily work and activities. Perfect for light to medium duty jobs that require precision handling.
