Agency introduction

Short version

Diff is a full-service e-commerce agency that provides retailers with end-to-end solutions to help drive their business growth.

Long version

Diff is a full-service e-commerce agency that provides retailers with end-to-end solutions to help drive their business growth. As one of the world's top Shopify Plus Partners, diff creates best-in-class Shopify stores with custom themes, integrations, apps and operational tools. Ranked 15th by Great Place to Work Canada, diff is known for its inclusive values and a corporate culture that helps people reach their full potential.

Long Love Retail™

Diff has a bit of a love story with retail, and our corporate tagline celebrates that.

The agency was founded by a retailer with an intimate knowledge of the brick and mortar world who saw the potential of e-commerce to drive growth for merchants everywhere.

"Long love retail" is our way of embracing our roots in commerce and our desire to shape it for the better.

Visual identity

The image shows the word 'diff' in a very bold, black, lowercase sans-serif typeface. The letters are thick and closely spaced. The 'd' has a rounded bottom, while the 'i' has a square dot. The 'f's have a distinctive shape with a thick stem and a curved top.

The diff logo has evolved. This is the version to use from here on in.

The minimum size requirement is as follows:

Print

X = 0.2 inches

Screen

X = 20 pixels

Logo with trademark for corporate use.
To be used with this exact spacing.

A graphic treatment of the corporate signature can be used to inject a fun design element.

This version should always be aligned with the horizontal axis as illustrated.

Logo & signature

Design use

A large, bold, black lowercase logo consisting of the letters 'd', 'l', 'f', and 'f'. The 'd' is a rounded, bowl-like shape. The 'l' is a simple vertical bar with a small square dot above it. The two 'f's are thick, blocky letters with a curved top and a horizontal base.

A circular logo with the text 'LONG LOVE RETAIL' arranged in a circle. The text is in a bold, uppercase, sans-serif font. The words are stacked: 'LONG' at the top, 'LOVE' on the right, and 'RETAIL' at the bottom.

The graphic treatment of the corporate signature can also be used with the logo.

Always place it to the upper righthand side of the logo.

The official diff symbol
for everyday use.

Never rotate the symbol.

The 3D symbol can be used in a more playful context.

It can be used with or without the diff logo.

It should always appear rotated 65° to the right.

Logo animation

For video closure. The grey is transparent, the blue wave should be covering the last scene of the video.

Refer to page 27 for color use.

Logo and official symbol on different backgrounds

The main logo can only appear in red, white or black. If it appears over an image, always use the white logo.

The official symbol can be used in any of the diff colours. If it appears over an image, always use the white symbol.

diff

diff

Symbol on a solid background

You can use two colours in the diff symbols or add a pattern. Never change the rotation of the 3D symbol from what you see here.

Warm colors

Reds and yellows create a warm color harmony.

Cool colors

Blues and greys create a cool harmony.

Colors relationships

Never use more than four colors in any execution and follow these guidelines:

- Use two colors from within the same family;
- Use one warm color with one cool color;
- Use three colors from within the same family;
- Use two cool colors with one warm color or vice versa;
- Never use the light colours in the centre of the wheel together.

Color schemes

2 colors

Where possible, opt to use only two colors. Above are the recommended pairings. The upper bars display possible background colors and the squares below display complementary colors. Never use red as the dominant color.

Color schemes

3 colors

Here are the recommended mixes when using three colors. You can opt to use three colors from within the same family, two cool colors with one warm color and vice versa.

Color schemes

Maximum 4 colors

Here are the recommended mixes when using four colors. You can opt to use three cool colors with one warm color or a mix of two warm and two cool colors. Never use more than four colors in any execution.

Don't use too much red. It is an accent color only.
Don't use more than one light colour at a time.
Don't use a color scheme that looks too childish.
Don't use more than four colors in any execution.
Exceptions can be made for illustrations but they must be validated in advance.

The logo can only appear in red, white or black. Never change the rotation of the logo or symbols from their accepted use as outlined in this document. (See pages 19 and 26).
