

FOUR-CHANNEL CHARGER

Lithium ion battery charger for professional camera
The charger with four-way simultaneous output
DC adaptor output port is equipped

RL-4KS

RL-4KA

Instruction

1. Charging instructions

- 1) Connect the charger and AC from 100v to 240v using the fitted power line.
- 2) Hang the battery that needs charging on the hanging panel of the charger.
- 3) Turn on the charging switch on the charger and the indicator lamp will be red. At this moment, the charger begins charging for battery.
- 4) When the indicator turns orange, the charging is almost finished.
- 5) When the indicator turns green, the charging is totally finished.
- 6) Turn off the charging switch of the charger and remove the battery.

2. The instructions for adaptor

- 1) Connect to adaptor socket of charger using fitted adaptor cable.
- 2) Connect the charger with AC from 100v to 240v through the fitted power line and then turn on the adaptor switch. When the indicator lamp turns red, the charger starts charging for camera.

Technical parameters

Model	Input	Output	Adapter Output	Weight	Size	Applicable Battery
RL-4KS	AC 100V-240V 50/60HZ	DC 16.8V 3A	DC 15V 4.5A	2750g	256*118*188mm	V-Lock battery
RL-4KA	AC 100V-240V 50/60HZ	DC 16.8V 3A	DC 15V 4.5A	2750g	256*118*188mm	Gold-Lock battery

TWO-CHANNEL CHARGER

Lithium ion battery charger for professional camera
Portable charger

RL-2KS

RL-2KA

Technical parameters

Model	Input	Output	Adapter Output	Weight	Size	Applicable Battery
RL-2KS	AC 100V-240V 50/60Hz	16.8V/3A	DC 15V 4.5A	1060g	245*150*100mm	V-Lock battery
RL-2KA	AC 100V-240V 50/60Hz	16.8V/3A	DC 15V 4.5A	1000g	245*150*85mm	Gold-Lock battery
