

## **O Christmas Bush**

*Traditional. Colin Buchanan & Greg Champion © 1997 Rondor Music (Aust.) / Orient Pacific Music. Lyrics printed with permission.*

She remembers how that Christmas bush  
Planted from a cutting took  
A sunny little corner of the yard  
It was a touch and go for a year or two  
But with love and care that bush pulled through  
And every December her blossoms come to life...

### CHORUS

O Christmas Bush  
O Christmas Bush  
Your beauty lights the summer  
And ushers in this special time of year  
O Christmas Bush  
O Christmas Bush  
Every little flower  
Is there to tell us  
Christmas time is here

That little bush became a tree  
And they became a family  
The children played beneath her in the shade  
The years slipped by, they grew to learn  
The children grow, seasons turn  
They'd cut a little blossom  
And wait for Christmas morn...

### CHORUS

Cicadas and a hot north breeze  
New buds on the Christmas trees  
Pink and orange set to burst  
Across a sunburnt land...

### CHORUS
