Since 1973, Masterbuilt has worked tirelessly to innovate products that make food, and the smoking experience, better.

We think smoking food should be fun. That you should feel free to experiment with different wood flavors and seasonings, recipes, and techniques.

That's why our products are built to help you easily perfect slow-cooked ribs and succulent chicken, intensely flavorful brisket and juicy pork shoulder. We hope you'll find our tools don't just help you create signature dishes that boast better, smokier flavor—but family traditions that will be passed down for generations to come.
