# **ZapPro** Instructions

#### on your new ZapPro UV

You have made a wise choice in choosing the ZapPRO UV. Your UV was carefully Engineered and designed to give you many years of faithful, worry free service. Some of the care and planning of your ZapPRO is self evident in even the small things, such as the <u>2 year Warranty</u> on the vessel itself and 18 months on the lamp.

Rest assured that quality was the main consideration when your ZapPRO UV was designed and assembled.

## ZapPRO General Info

The ZapPRO System is designed to provide the benefits of UV treated water in a safe and effective manner.

The high Quality, specially engineered components ensure efficient water sanitization output and reliable performance.

If you have any questions on your ZapPRO feel free to give us a call and we'll be glad to help.

#### ZapPRO Plumbing hook up assembly

Make plumbing hook ups as shown in the picture. Use 2" pipe to connect to unions to secure plumbing to valve.

#### **ZapPRO Features**

#### Winterizing the ZapPRO

- 1. This is simple. Just open the Water Drain and make sure all water has been purged. Put the Drain Cap in a location where it can easily be found in the Spring.
- 2. That's it, just wait for Spring.
