

Night Safari Tour

The World's First Night Safari, set in 40 hectares of secondary jungle will unfold the mystery and drama of the tropical jungle after dusk with stunning effects. With over 1000 nocturnal animals of over 135 exotic species, see a myriad of nocturnal animals in vast naturalistic habitats.

Roam the jungle in the complete safety and comfort of a tram. Your tram ride takes you through the East and West Loop passing by a large reservoir and weaving through selected habitats designed specifically to replicate the natural environment from the Himalayan Foothills to the Southeast Asian Rainforest and Indian Subcontinent.

After the tram ride, embark on the Fishing Cat Trail where you might catch the cats in action as they eye their prey in the water and lunge forward in attack. Other inhabitants along this trail include the small but ferocious leopard cats, the playful and noisy small-clawed otters, a pair of Indian Gharials and the largest bat in the world - the Malayan flying fox. A truly unique experience!
