WINE REFRIGERATORS FROM DOMETIC

PERFECT STORAGE CONDITIONS FOR WINES AND CHILLED BEVERAGES

Wine connoisseurs, gourmets and restaurateurs all agree: For a wine to unfold its full bouquet and flavour, both the storage conditions and the serving temperature must be right. It has been our job for decades to make sure they are. As specialists in mobile refrigeration and climate control, we have created a comprehensive product range for keeping wines at their optimum temperature.

Dometic wine refrigerators have proven their worth in bars, restaurants and hotels as well as in offices and private households. They meet the highest demands on quality and design and are available in numerous sizes and versions. All wine refrigerators are supplied fully equipped, including the shelves and all essential accessories.

DOMETIC ON THE WEB

Here's where you can find the complete Dometic range, with detailed information about all products. Plus, interesting facts about our company and download links for all our catalogues.

dometic.com

TIP

Designed for professional wine storage, Dometic wine refrigerators are also great for chilled beverages, such as mineral water, beer and soft drinks.

STORAGE AND SERVING TIPS

SERVING TEMPERATURE RECOMMENDATIONS

What is the perfect serving temperature for your wine? Here are some basic recommendations. Red wine is best served at a temperature between 12 °C and 18 °C, depending on the origin, grape, and year. White wine likes it cooler, between 8 °C and 12 °C. Champagne and fruity dessert wine should be served ice-cold, between 5 °C and 7 °C.

GOOD TO KNOW:

Dometic wine refrigerators can be set as required – for wine storage as well as for chilled drinks. The selected temperature is always reliably maintained.

	White wine	Red wine
Bordeaux	12°	18°
Bourgogne	10°	16°
Loire	10°	15°
Languedoc	12°	18°
Alsace grands crus	12°	16°
Piedmont, Tuscany	10°	18°
Rioja	12°	18°
Napa Valley	12°	16°
Australia	10°	16°
Chile	10°	18°
Liqueur wine	8°	
Champagne	6°	

FRAMELESS DESIGN FOR WINES AND CHILLED BEVERAGES

Dometic wine refrigerators easily adjust to the wine list and drink menu. They feature two separate temperature zones, which can be set to any temperature between 5 °C and 22 °C – e.g. one for red wine and the other one for white wine.

In each case the pre-set temperature is accurately maintained. Advanced compressor technology guarantees an optimal temperature distribution throughout the cabinet. The blue LEDs on the control panel indicate the current values.

PRODUCT BENEFITS

- Attractive design in black with frameless glass door
- Two temperature zones with separate controls
- Temperature range: 5 °C – 22 °C (standard mode)
- Advanced compressor technology for consistent cooling and excellent energy efficiency
- Digital control panel with blue LED display
- White LED interior light

DOMETIC KEEPS UV LIGHT AWAY

Dometic wine refrigerators are fitted with high-insulation special doors that offer maximum protection from UV light. The built-in LED lighting allows for even illumination of the interior – with the lowest level of heat build-up and without any UV exposure.

THE DOMETIC DESIGN RANGE

The Dometic Design Range is the perfect choice for those looking for a wine refrigerator to compliment a more modern kitchen decor. The elegant wine cabinets come with frameless glass doors – and dual temperature zones which are perfect to store and age wine for a long time in one zone while having the right serving temperature at any time in the other zone.

Various model versions are available, with capacities ranging from 7 to 115 Bordeaux bottles. Extra-slim for confined spaces, with side-by-side double door, or with a built-in column for easy integration. There's a perfectly matching wine refrigerator for every restaurant, bar, or kitchen layout – or your private home.

PRODUCT BENEFITS

- Two temperature zones for storing different wines at the perfect temperature (except E7FG and E18FGD)
- Heat and Cool function quickly achieves and reliably maintains set temperature
- Frameless 3-layer glass door with UV light filter
- Full-height LED lights on both sides add eye appeal to the wine collection (except E7FG)
- Integrated air circulation system for homogenous temperature distribution and high air quality
- Water tank and carbon filter create a perfect climate for storing and ageing wine
- Top energy efficiency rating – complies with new ErP requirements (as from March 2021)
- Supplied with lock and key to keep your precious wine safe (except E7FG, E18FGB, E49FGB)
- Serving drawer for storing open bottles upright (fits E91FG, E115FG)

More upgrading options: replacement carbon filter, label set, optional serving drawer (see p. 22–23).

E18FGB, E49FGB: Supplied with built-in column for easy integration into the surrounding furniture and integrated ventilation system

E40FGD: Dual glass door (side by side) provides direct access to one temperature zone without opening the other

E7FG: Super-slim design – just 148 mm wide – neatly blends in with the surrounding furniture

THE DOMETIC CLASSIC RANGE

Keeping your wine collection ready to enjoy is easy with the Dometic Classic Range of wine refrigerators. The temperature can be set to any value between +5 °C to +22 °C, so red and white wines can be stored at the perfect serving temperature. Conveniently serve your wine according to its type, vintage or personal preference!

Featuring advanced Heat and Cool technology and a smart front ventilation system, Classic Range wine refrigerators help to quickly achieve and reliably keep the set temperature throughout the cabinet. Capacities range from 20 to 125 Bordeaux bottles. All models come with a white LED side light, the larger ones with an energy-saving 3-layer glass door.

PRODUCT BENEFITS

- Mono-zone cabinet with wooden sliding shelves – perfect for serving
- Suitable for storing wines at the ideal drinking temperature (between +5 °C and +22 °C)
- Heat and Cool function quickly achieves and reliably maintains set temperature
- 2-layer glass door with UV light filter or stainless steel frame (larger models with 3-layer glass door)
- White side-light across the complete compartment height
- Integrated air circulation system for homogenous temperature distribution and high air quality

- Water tank and carbon filter (depending on the model) create a perfect climate for storing and ageing wine
- Low energy consumption – complies with new ErP requirements (as from March 2021)

Upgrading options: presentation shelf, sliding shelf, serving drawer, label set (see p. 22–23).

THE DOMETIC ESSENTIAL RANGE

Our Essential Range offers great value for those ready to make space for a better and more social beverage experience at home. Choose between space-efficient versions with stylish glass doors and full-height wine cabinets with solid doors in a premium black finish. All Essential Range models come with a white LED top-light. Well-engineered technology allows wine storage at the ideal drinking

temperature – perfect for passionate wine lovers and, of course, also for bars, restaurants, and hotels. Available in many different sizes, with capacities ranging from 29 to 195 Bordeaux bottles, this range is the perfect choice for restaurants or bars looking for a high capacity storing wine refrigerator.

PRODUCT BENEFITS

- Mono-zone cabinet with fixed wooden reinforced shelves – perfect for serving
- Suitable for storing wines at the ideal drinking temperature (between +5 °C and +22 °C)
- Heat and Cool function quickly achieves and reliably maintains set temperature
- Elegant 2-layer glass door with UV light filter and stainless steel frame (B29G, B68G)
- Solid door saves energy and protect the wine from sunlight (B162S, B195S)
- White LED top light nicely illuminates the interior
- Integrated air circulation system for homogenous temperature distribution and high air quality

- Water tank and carbon filter create a perfect climate for storing and ageing wine (B162S, B195S)
- Low energy consumption – complies with new ErP requirements (as from March 2021)
- Optional serving drawer for storing open bottles upright (fits B162S and B195S)

More upgrading options: presentation shelf, sliding shelf, serving drawer, label set (see p. 22–23).

DOMETIC WINE REFRIGERATOR ACCESSORIES

Dometic wine refrigerators are supplied fully equipped with shelves and all essential accessories. Even so, you may want to add an extra shelf or service rack, replace a filter, or buy a fresh set of labels to identify your wines.

For the full range, request our catalogue or visit dometic.com

WOODEN PRESENTATION SHELF

This tilted wooden shelf is a great way to present your precious wines in an enticing way.

595mm Ref. no. 9600028377

WOODEN SLIDING SHELF

This sturdy sliding shelf is an optional accessory for your Essential Range or Classic Range wine refrigerator.

295mm Ref. no. 9600028380

595mm Ref. no. 9600028381

FIXED STORAGE SHELF

Thanks to its sturdy wooden construction, this shelf allows you to store a high quantity of wine bottles.

295mm Ref. no. 9600028378

595mm Ref. no. 9600028379

METAL SLIDING SHELF

Do you want to use your Dometic wine cabinet as a beverage cooler? Then this optional metal rack is just what you need.

595mm Ref. no. 9600028382

ADDITIONAL SERVING DRAWER

A serving drawer shelf to store your selected wine bottles in an upright position. (Fits E45FG, E91FG, E115FG.)

Ref. no. 9103540068

REPLACEMENT CARBON FILTER

This activated carbon filter ensures optimal climatic conditions for wine storage and ageing.

Ref. no. 9103500156

RE-WRITABLE LABEL SET

Quality labels for organizing your wine collection – find the right bottle quickly and easily.

Ref. no. 9103540116

WATER TANK

Maintains a stable and well-balanced humidity level inside your wine refrigerator.

Ref. no. 9600028376

KITCHEN INSTALLATION

For most of us, the kitchen is the heart of the home. It is the meeting point for family and friends, a place where people cook, work, talk, play, laugh – and, of course, eat and drink. Our two built-in wine refrigerators, E18FGB and E49FGB, add fresh glamour to the kitchen ambience with their frameless glass door and the brightly illuminated interior. Specially designed for integration into a furniture

assembly, the two built-in models feature an internal ventilation system as well as a customized built-in column for easy and safe installation. Simply set the two refrigerator zones to the recommended serving temperatures – e. g. 16 °C for your favourite reds and 8 °C for the white ones. Then serve directly from the wine cabinet and savour the flavour!

Dometic E49FGB

Dometic E18FGB

Storing red and white wines at the optimal serving temperature in one and the same cabinet? It's possible with our dual-zone built-in wine cabinets! The elegant glass door refrigerators nicely blend in with the surrounding furniture. A must-have for passionate wine lovers and ambitious hosts – and a nice way to create a holiday atmosphere at home.

Two different size model versions are available: E49FGB for up to 49 bottles, E18FGB for up to 18 bottles. The beautiful frameless glass door and full-height LED lights on both sides nicely accent the wine collection.

PRODUCT BENEFITS

- Two temperature zones (E49FGB) for storing different wines at their perfect temperature
- Frameless 3-layer glass door with UV light filter
- Supplied with built-in column for easy integration into the surrounding furniture
- Full-height LED lights on both sides
- Heat and Cool function quickly achieves and reliably maintains set temperature
- Digital control panel with blue LED display
- Water tank creates a perfect climate for wine storage
- Integrated air circulation system for homogenous temperature distribution and high air quality

THE FAMILY REFRIGERATOR

Tall and roomy, with two separate temperature zones, the E115FG makes a perfect family refrigerator. It stores up to 115 wine bottles and can easily be rearranged to hold the favourite drinks for everybody in the family: e. g. white wine in the upper zone and well-chilled mineral water, soft drinks, and beer in the lower part. In our configura-

tion (see p. 27), wine bottles are placed on wooden sliding shelves for convenient access. For mineral water and soft drinks, the serving shelf allows upright storage and can therefore also be used for open bottles. It is easy to convert the bottom part into a beer chiller when removing the shelves.

DOMETIC E115FG

This elegant glass door refrigerator easily adjusts to your beverage stocks. The Dometic E115FG has two separate temperature zones which can be set as required – for full-bodied red wines, fruity whites, champagne, or chilled beverages. High-quality sliding shelves allow convenient access. You can also add an additional serving drawer for open bottles.

In the standard configuration the spacious wine cabinet stores up to 115 bottles of wine – all nicely presented behind a frameless glass door, with LED lights on both sides. Well-engineered Heat and Cool technology, combined with an integrated air circulation system, makes sure that the preset temperatures are reliably maintained.

PRODUCT BENEFITS

- 2 temperature zones for storing different beverages at the perfect serving temperature
- Frameless 3-layer glass door with UV light filter
- Heat and Cool function quickly achieves the set temperature and keeps it stable
- Full-height LED lights on both sides nicely accent the beverage collection
- Integrated air circulation system for homogenous temperature distribution
- Carbon filter and water tank create a perfect climate for wine storage and ageing
- Digital control panel with blue LED display
- Supplied with lock and key to keep your precious wine safe
