See How Help+Alert™ Stacks Up

Want to showcase to your clients just how unique and cost-efficient the Help+Alert™ is? Our website now features a company comparison chart, pitting the Help+Alert™ up against the other "big players" in the medical alert game. With a lower monthly fee and far more capabilities, the Help+Alert™ blows the competition out of the water. See for yourself at the link below and use it to promote the device to your clients!

Highlight: Call-in-and-chat

One of the many features unique to the Help+Alert™ is its call-in-and-chat

feature. Unable to reach a client or need to do a well-being check? Does a family member want to make sure mom is on track with her medication?

With the call-in-and-chat feature, simply call the phone number associated with the device and the Help+Alert™ will automatically answer. Even if a client is rendered unconscious or unable to move, the device will answer hands-free and automatically initiate two-way talk.

We Want To Feature You!

Do you or your clients have a success story or testimonial with the Help+Alert™ that you'd like to share? Let us know and you will be featured on our social media and our next affiliate newsletter! Send an email to SeanH@safeguardian.com and include:

- First and Last Name
- Location (City, State)
- Are you a caregiver, client, nurse, etc.?
- What details or story are you interested in sharing with us?

From all of us at SafeGuardian, thanks for reading!
