

Spray Marker Dye

Dy-Mark's Spray Marker Dye is a premium, highly visible marking dye designed to stain target crops and plants allowing for easy identification of sprayed areas. The product is designed to be mixed with other chemical spray solutions (herbicides and pesticides) to prevent over spraying and the wastage of costly chemicals. Spray Marker Dye can be used in hand or knapsack sprayers, high volume sprayers or boom sprays and colour will fade in 3 to 5 days in sunlight.

DIRECTIONS FOR USE

Mixing

Premix Spray Marker Dye thoroughly with water before adding to the herbicide/pesticide. Add the premixed solution to the spray tank and agitate prior to adding any other product. Slowly add the herbicide/pesticide while agitating the spray tank. Thoroughly clean out equipment after each use. Equipment that is not completely clean may cause discolouration of subsequent sprays.

Rate of Application

Rate of Application	Volume
25 – 50ml	Per 10 litres of spray solution
250 – 500ml	Per 100 litres of spray solution

*Use a higher rate if a more intense colour is required.

TECHNICAL DATA

Size:	500ml, 1 Litre, 5 Litre, 20 Litre
Colour:	Red
Consistency:	Liquid

STORAGE

Store in the original closed container away from direct sunlight and in a cool, well-ventilated area. Keep out of reach of children.

DISPOSAL

Rinse containers thoroughly prior to disposal. Do not dispose of undiluted chemicals on site. If recycling facilities are available, return the clean containers to the recycler or collection point. If containers are not to be recycled, puncture the container and dispose of in a landfill. Do not contaminate waterways with the chemical or the container. Empty containers and product should not be burnt.

FIRST AID

KEEP OUT OF REACH OF CHILDREN

Wash hands thoroughly after use.

Do not swallow and avoid contact with eyes and skin.

If swallowed: Do not induce vomiting.

Eye contact: In case of contact with eyes, rinse immediately with plenty of water. Seek medical advice from your doctor or Poisons Information Centre (**Australia: 13 11 26; New Zealand: 0800 764 766**).

Note: the information provided within this Technical Data Sheet is intended as a guide only. The performance of this product will depend on many factors outside the control of Dy-Mark; including surface type and environmental conditions.

Refer to Material Safety Data Sheet for more information.
