

CAMPEY™

Core Collector

The Campey 'Core Collector' is an accessory that can save you time and labour costs, when core removal is necessary after aeration. As your aerator is operating, the Core Collector picks up, contains & moves the cores to the collar, and when lifted to make the next pass the cores are deposited on the collar. The Core Collector can be mounted in a matter of minutes on walk behind & tractor drawn aerators. Removal is just as simple and can be stored easily with virtually no maintenance required.

Specification

| | |
|-----------------|---|
