

COLOURGUARD

Instructions

BENEFITS OF USING COLOURGUARD

- Instantly restores the natural green colour of your lawn – instantly!
- Drastically reduces the need to water your lawn in periods of drought
- Stays green for up to 3 months per application
- Won't wash off, run or stain
- Completely safe for the environment, pets and people

100% eco-friendly and non-toxic ColourGuard has been developed to give you the best lawn in the street on drought, frost affected or dormant grass. It instantly restores the natural colour of your grass while at the same time increases your grass health. What is ColourGuard 'lawn paint'?

ColourGuard is a natural organic grass treatment product that strengthens and protects grass under extreme conditions and instantly restores the colour.

ColourGuard is the best option to re-introduce a green pigment back into the natural grass blades. This has been achieved through years of research, being proactive is key to healthy long living green lawn.

How long before we can walk on the lawn?

Once ColourGuard has dried on the grass leaf in most cases within 2 hours provided there is full sunlight that day.

What happens if it rains? Once the application has set into your lawn it will not wash ColourGuard away or cause any unwanted affect.

Can I mow my lawn after ColourGuard application?

Yes. Providing you don't set the mower too low and scalp your lawn. ColourGuard is permanent but will grow out as the grass leaf grows. Mowing through winter is only to remove and clean up leaves and debris from your lawn.
