**Dimplex**<sup>®</sup>

## Imagine the difference

Transform your home with a Dimplex electric fire.

Treat the whole family to the beauty of a real fire, but with the simplicity of electric.

Not only are our fires 100% efficient at point of use, they have a flame only setting, so can be used year round for creating a cosy room even when you don't require heating. Plus, they're independently approved to Europe's highest electrical product safety standard.

So snuggle into your favourite armchair, relax and unwind.

## Discover the difference

Whether your home is in the city or the country, compact or spacious, old or new, there is a Dimplex fire that will be just right for you.

We offer a range of different styles, from stoves to full fireplace suites, and flame effects ranging from a convincing illusion to flame all but indistinguishable from the real thing. So explore our range and we're sure you'll find the perfect fire to make your house a home.

# Reassuringly Dimplex

We appreciate that choosing a new fire for your home can be an important decision, which is why you want to be able to see a variety of fires and actually touch, try and see the realism of the flame effect for yourself.

To give you every confidence that you're buying the right fire, we've created a network of Dimplex retailers around the country, each with a range of fires on display. They'll be happy to guide you through all the different options available as well as demonstrating a selection of fires in operation in their showrooms.

Our retailers are your guarantee of the expert advice and individual customer service you can expect from Dimplex.

**Dimplex**  
Centre

Dimplex Centres have a minimum of **four** fires on display including at least **one** from our Optimyst range.

**Dimplex**  
CentrePlus

Dimplex CentrePlus retailers have a minimum of **seven** fires on display including at least **three** from our Optimyst range.

**3**  
YEAR  
GUARANTEE

When registered within  
28 days of purchase

[dimplex.co.uk/register](http://dimplex.co.uk/register)

### 3-Year Guarantee

Wherever you see this logo in this brochure, it means that when you buy the fire featured from a Dimplex Centre or CentrePlus retailer, you are entitled to a free upgrade from our standard 1-year guarantee to a 3-year guarantee. To take advantage of this, simply complete the online registration within 28 days of purchase at [www.dimplex.co.uk/register](http://www.dimplex.co.uk/register), or call us on **0344 879 3588** if you do not have access to the internet. Products must be installed in accordance with the manufacturer's instructions and maintained in line with the Terms & Conditions, which are available at [www.dimplex.co.uk/terms](http://www.dimplex.co.uk/terms).

### Safety First

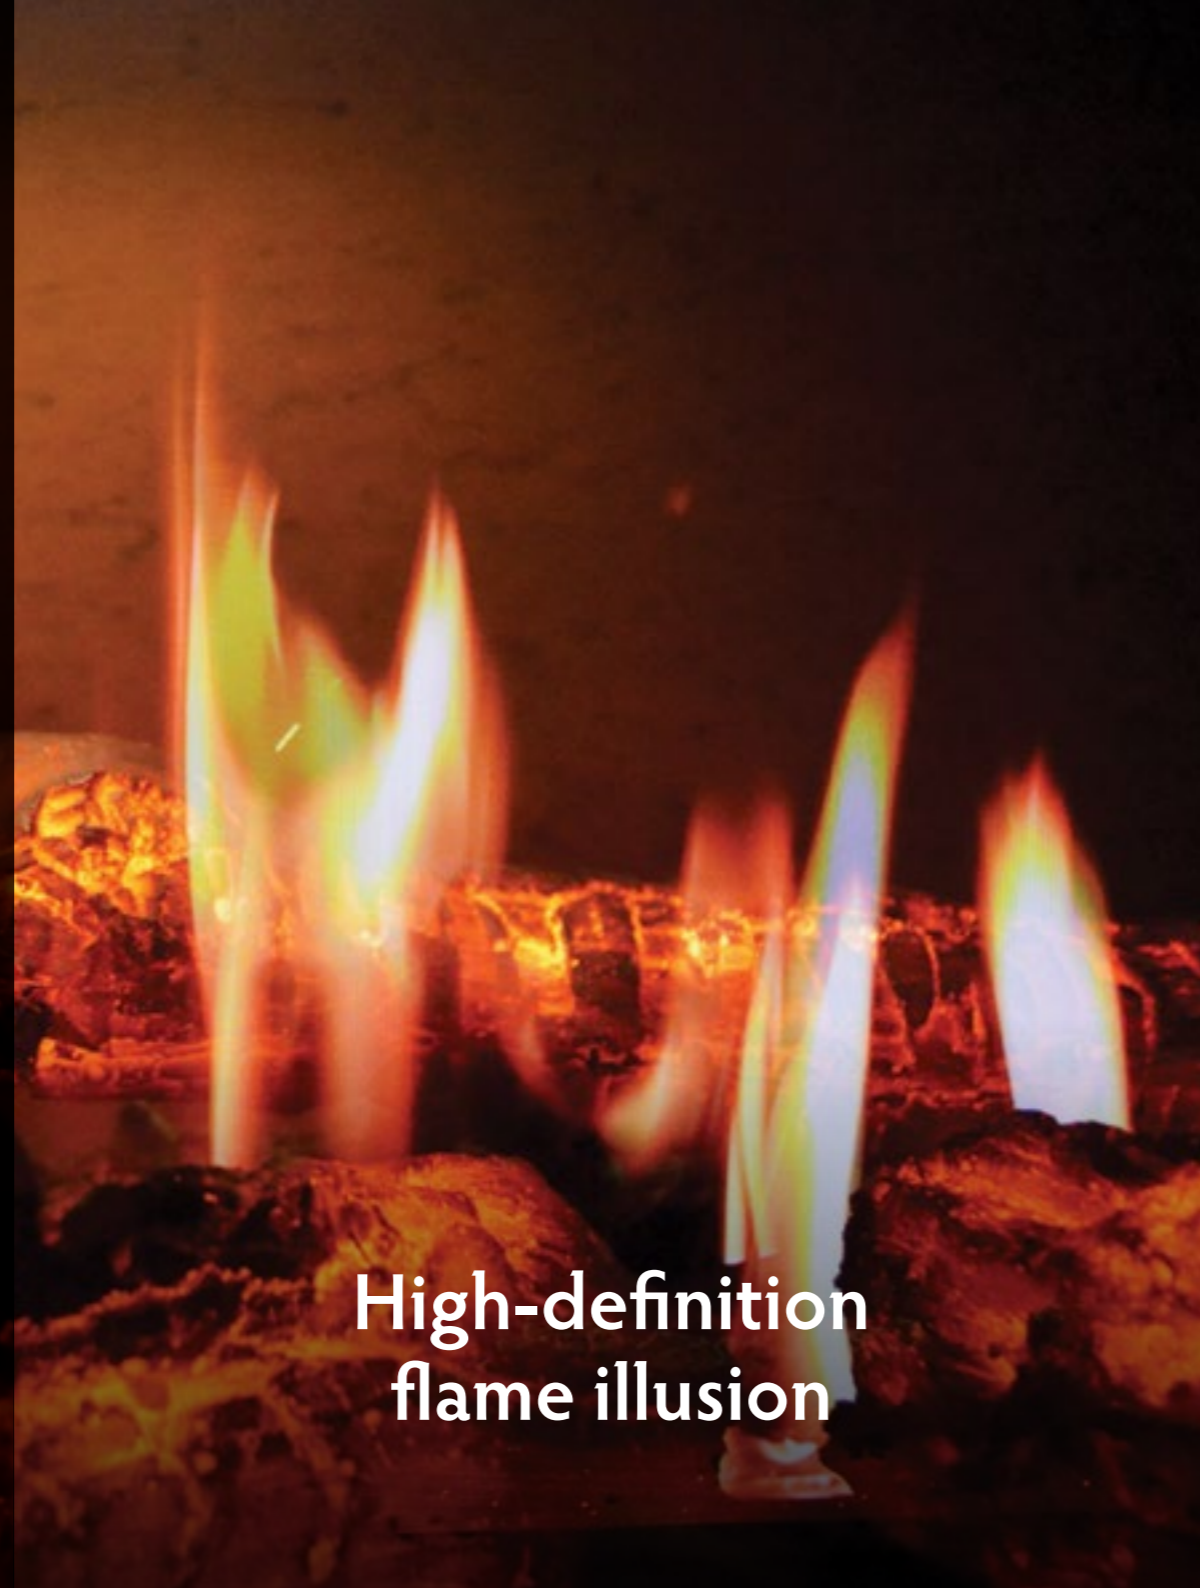

All Dimplex fires are BEAB approved\* - this means they are independently approved to Europe's highest electrical product safety standard.

\*Approved or awaiting approval at time of printing

## Opti-V

Opti-V is unlike any other electric flame effect fire. Its flickering flames are created via an HD TV screen with discreet LED lighting glimmering deep in each log. Crackling logs sound effects (with adjustable volume) add to Opti-V's extraordinarily realistic appearance, so if you are looking for something that's going to wow your friends, this is the effect for you.

Opti-V is available in a selection of freestanding stoves and wall mounted fires. Please see technical pages (pages 74-75) for a summary of models.

**High-definition  
flame illusion**

**The world's most realistic  
3D electric flame effect**

## Optimyst

Beauty of a real fire, the simplicity of electric. An Optimyst fire will captivate you from the moment you see it. Its authentic three-dimensional flame and smoke effect is created by lights reflecting against ultra-fine filtered water mist and the illusion is so realistic that you will find it difficult to distinguish from the real thing. Optimyst electric fires are the ultimate in 'plug in and enjoy' as most of the fires in this range don't require any installation. Many also come with a 2kW thermostatically controlled heater just in case you need a quick burst of heat. People buy Optimyst simply for the amazing flame effect, which is why the flame effect works independently of the heater\*. The flame effect can also be adjusted from gentle 'embers' to 'roaring flame' to give you the flame picture of your choice.

\*Specifications for each model do vary, so please check technical details on individual fires on page 74.

Optimyst is available in a wide selection of fires across freestanding stoves, inset or wall mounted fires and complete suites, to enhance the ambiance of any home. Please see technical pages (pages 74-75) for a summary of models.

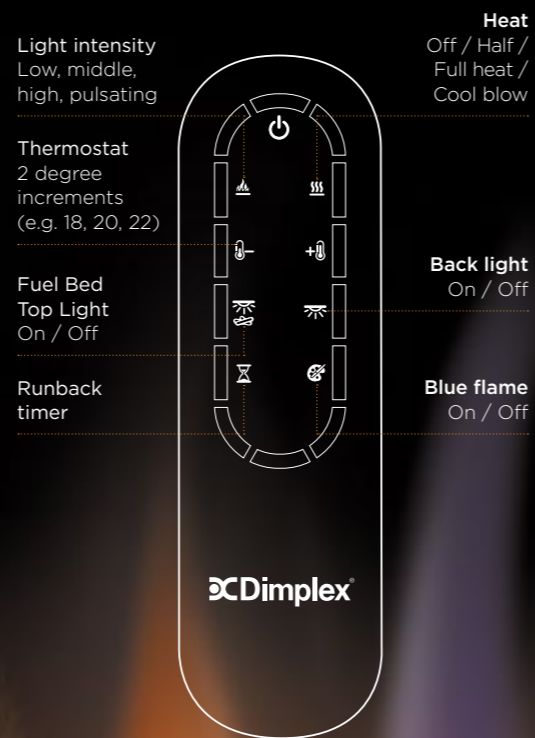

# Optiflame<sup>3D</sup>

Optiflame 3D offers a new kind of realistic flame effect. For the first time, a 2D effect is given 3D depth, as Optiflame 3D creates the illusion of seeing through the flames to the back of the fire. Optiflame 3D also gives the power of choice over the colour of the flame effect, the flame intensity and the fuel bed. You can add a blue flame to mimic a gas fire or choose a deep orange for a glorious glow. Depending on the time of day, or how you feel, the flame can be adjusted from low to high, or pulsating, plus you can adjust the down lighting to enhance the drama. You can even pick beautiful crystals, realistic logs, coal and pebbles to enrich the luminosity of your own unique fuel bed\*. All Optiflame 3D fires come with a 2kW thermostatically controlled heater just in case you need a quick burst of heat, yet the flame effect also works independently of the heater†, so you can still enjoy that cosy feeling on milder days.

\*Pebbles available on selected models only. Please see individual product specifications for details.

†Specifications for each model do vary, so please check technical details on individual fires on pages 74-75.

Optiflame 3D is available in a wide selection of inset fires in different designs and finishes, to complement your home. Please see individual product pages for details.

## 3D illusion and the power of choice

## The original electric flame

# Optiflame

Optiflame is the original Dimplex electric flame effect that revolutionised the market when first launched in 1988. Endlessly refined over the years it remains the UK's most popular electric flame effect, as it's our most cost-effective flame technology. Most Optiflame fires come with a 2kW thermostatically controlled heater just in case you need a quick burst of heat, yet the flame effect also works independently of the heater\*, so you can still enjoy that cosy feeling on milder days.

\*Specifications for each model do vary, so please check technical details on individual fires on pages 74-75.

Optiflame is available in a wide selection of fires across freestanding fires or stoves, inset or wall mounted fires and complete suites, to enhance the ambiance of any home. Please see technical pages (pages 74-75) for a summary of models.

## Stoves and Basket

Our range of stoves are freestanding, stylish electric fires that will bring character to any setting, whether you are looking to create a unique design feature or reinvigorate an existing fireplace. A stove offers versatility and flexibility in arranging your room; the only requirement is access to a power supply. The range includes different sizes from compact to large and both traditional and modern designs in different colours and finishes.

Our range of stoves also come with different flame technologies from our premium Opti-V, through to the amazingly realistic 3D Optimyst flame and smoke effect and the original and lower cost Optiflame. So whether you're looking for a convincing illusion or a stunningly realistic electric flame, we have a stove to suit your design needs, your lifestyle and your budget.

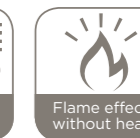

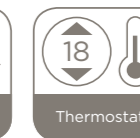

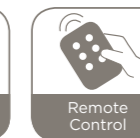

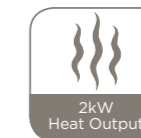

In this section you will also find the Silverton, our Optimyst decorative basket fire, which can reignite an old fireplace at the touch of a button.

SNG20

This large cast-iron style stove has a single glass window for optimum viewing of the incredible flame effect and comes complete with the optional sound of gently crackling logs.

- Opening door with chrome handle
- Log effect fuel bed

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

**Volterra** 

VLT-OV Volterra

**Cellini** 

CLL-OV Cellini

**Burgate** 

BRG20

These stylish freestanding stoves look great in any setting, providing a stylish focal point with their intricate lattice frame and striking Opti-V flame effect.

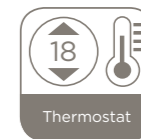

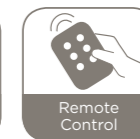

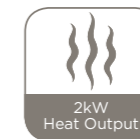

- Cellini shown with legs, but may be displayed without
- Log effect fuel bed

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

The Burgate is a large cast-iron style Optimyst stove with stylish black gloss finish. Able to sit subtly against a wall or within an existing fireplace, this fire is ideal for a larger living or dining room.

- Two opening doors for added realism
- Log effect fuel bed

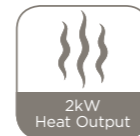

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

MRB20

This large and luxurious cast-iron style Optimyst stove combines a modern creamy-white gloss enamel style finish with a classic design. It looks good sat in an existing fireplace or freestanding against a wall.

- Two opening doors for added realism
- Log effect fuel bed

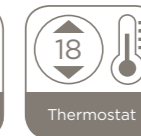

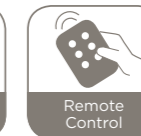

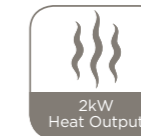

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

WLL20

This medium-sized stove brings a modern twist to a classic stove design. The contemporary styling of the single opening door and chrome effect handle are offset by the traditional black cast-iron effect casing.

- Electronic display with touch screen sensitive control
- Log effect fuel bed
- Compatible with hearth pad HPD001

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

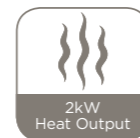

OKT20

This medium-sized stove offers the classic look and feel of a traditional solid fuel fire, with the simplicity and controllability of electric technology. Its size makes it popular with homeowners who wish to create the look and feel of an open fire, but don't have a chimney or time to maintain one.

- Two opening doors for added realism
- Log effect fuel bed
- Compatible with hearth pad HPD001

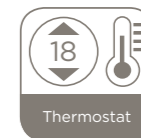

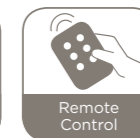

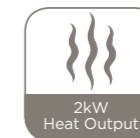

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

AUB20

The medium-sized Auberry is a twist on a traditional classic. The stylish off-white matt finish is ideal to suit changing interior colour schemes, or for those looking for a more contemporary feel to their room.

- Two opening doors for added realism
- Log effect fuel bed
- Compatible with hearth pad HPD001

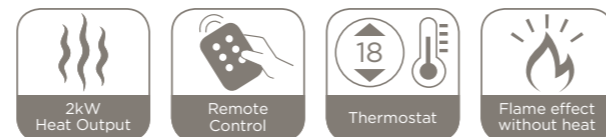

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

SKG20BLN Log bed

The Stockbridge full-sized, cast iron style stove gives a truly authentic look and feel to your fire. With our Optiflame effect, the Stockbridge is an ideal solution for those seeking a striking large stove style fire.

- Two opening doors for added realism
- Choice of real coal or log effect fuel bed (both options included)
- Compatible with stove pipe accessory STP001

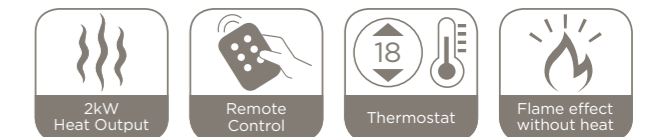

See page 73-75 for product dimensions.

CHV20N

This full-sized cast-iron style stove has been designed to work in traditional or modern styled homes. With a gentle cream finish, this elegant fire subtly provides comfort and ambience in your home.

- Two opening doors for added realism
- Choice of real coal or log effect fuel bed (both options included)

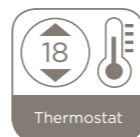

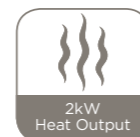

See page 73-75 for product dimensions.

LUC20

This charming medium-sized black cast iron effect stove is perfect if you want the authenticity of a real fire but have limited space or budget. It has a single opening door to ensure you get maximum view of the lovely flame effect.

- Features the latest Optiflame effect with LED lighting and downlight for improved flame picture
- Log effect fuel bed
- Compatible with stove pipe accessory STP001 and hearth pad HPD001

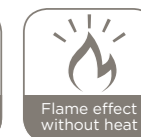

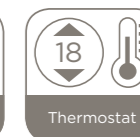

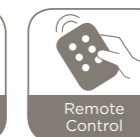

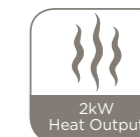

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

CVL20E

This medium-sized electric stove has a chic matt white finish for a modern twist on a classic stove design, making it ideal for living rooms, dining rooms and even bedrooms.

- Single opening door for large viewing of flame picture
- Choice of real coal or log effect fuel bed (both options included)
- Compatible with hearth pad HPD001

See page 73-75 for product dimensions.

BFD20E

This small stove in matt black has the classic feel of a traditional stove. Its compact size makes it ideal for anyone looking for a cost effective solution or wishing to recreate the look of a real fire in a smaller living room.

- Fits in or on standard fireplace and hearth or can be freestanding
- Log effect fuel bed
- Compatible with stove pipe accessory STP001 and hearth pad HPD001

See page 73-75 for product dimensions.

SBN20E

Small and stylish, the compact Springborne features a coal effect fuel bed and has been designed to fit in or on a standard fireplace and hearth, or can be freestanding against a wall, making it ideal for living rooms and bedrooms alike.

- Two opening doors for added authenticity
- Coal fuel bed
- Compatible with stove pipe accessory STP001 and hearth pad HPD001

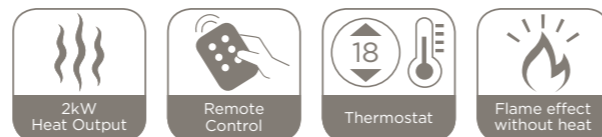

See page 73-75 for product dimensions.

TNG20E

Similar in size to the Springborne, the Tango can also be freestanding or fitted into or on a standard fireplace or hearth. This features a real coal fuel bed.

- Two opening doors for added authenticity
- Real coal fuel bed
- Compatible with stove pipe accessory STP001 and hearth pad HPD001

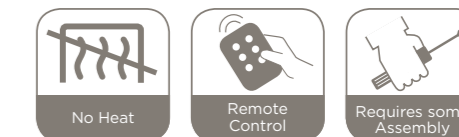

See page 73-75 for product dimensions.

SVT20

The Silverton basket fire is ideal for bringing unused fireplaces back to life. The realistic log fuel bed is enhanced by LED under bed lighting for a warming glow.

- Removable glowing ash bed
- Log effect fuel bed

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

## Inset Fires

Our inset range offers stylish, versatile electric fires that are all suitable for 16 and 18 inch fireplaces. Some insets can even be provided with an optional spacer kit which allows them to fit flat to the wall.

Inset fires are available in a range of both traditional and modern designs, many of which also offer different colours and finishes. Models from our inset range are available with Optimyst, Optiflame 3D or standard Optiflame flame technology, ensuring that whether you're looking for a convincing illusion or a stunningly realistic, 3D electric flame, we have the perfect inset fire to suit your design needs, your lifestyle and your budget.

CRS20

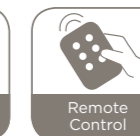

Touch screen control

Recreate the look of a traditional fireplace, with the classic looking Crestmore brass effect inset fire. Designed for 16" and 18" fireplaces, it has the familiarity of tradition, but with the latest electronic control.

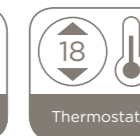

- Electronic display with touch screen sensitive control
- Coal effect fuel bed

Flame effect without heat

When registered within 28 days of purchase  
dimplex.co.uk/register

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

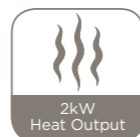

Touch screen control

PNN20

For a contemporary twist to the traditional fireplace, look no further than the Penngrove chrome effect inset fire with clean lines and modern chrome effect fret. Designed for 16" and 18" fireplaces, it combines contemporary design with the latest electronic controls.

- Electronic display with touch screen sensitive control
- Coal effect fuel bed

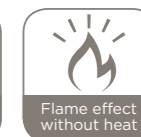

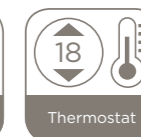

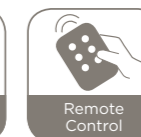

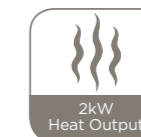

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

SCR20

The Sacramento is a bold, modern inset fire with a contemporary chrome effect fret. Designed for 16" and 18" fireplaces, it has an inset depth of just 65mm.

- Electronic display with touch screen sensitive control
- Coal effect fuel bed
- Optional spacer (OSP002) available (at extra cost) allows use flat-to-wall

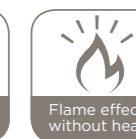

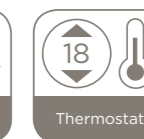

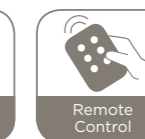

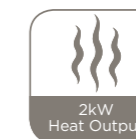

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

DNV20AB Antique brass

A classic styled inset fire that comes in a choice of brass effect, antique brass effect, chrome effect or black to blend beautifully with your interior scheme. Designed for 16" and 18" fireplaces.

- Inset depth of just 65mm
- Coal effect fuel bed
- Optional spacer (OSP002) available (at extra cost) allows use flat-to-wall

DNV20BR Brass

DNV20CH Chrome

DNV20BL Black

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

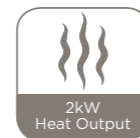

TRR20CH

Unquestionably stylish, the Torridon has a contemporary chrome effect finish with a cast iron fret. Optiflame 3D technology allows the user to enhance the orange flame effect with a subtle blue, and adjust flame intensity and downlighting to suit the mood.

- 2D effect giving 3D depth. Optiflame 3D creates the illusion of seeing through the flames to the back of the fire
- Fuel bed consists of coal, logs, crystals and pebbles to design the look you want
- Inset depth of 90mm, or just 65mm using spacer supplied

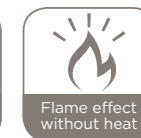

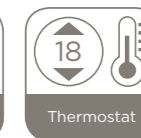

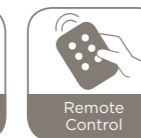

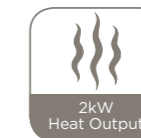

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

POR20CH

A beautiful chrome effect inset fire with brass effect detailing to the front, making it ideal for those seeking a contemporary twist on a classic design. Optiflame 3D technology means the user can enhance the orange flame effect with a subtle blue, and adjust flame intensity and downlighting for greater effect.

- Can be used free-standing using 75mm spacer kit available as optional extra.
- One piece coal fuel bed

See page 73-75 for product dimensions.

## Suites

Our broad range of stylish suites allow you to transform your living space in minutes. The suite is comprised of a fire, trim and surround in a single unit. Installation is simple; unbox the suite, plug it in and place it flat to the wall for an instant fireplace.\*

Suites are available in multiple design and colour options. Our suites are available across our Optimyst and Optiflame technologies to ensure that whether you're looking for a convincing illusion or a stunningly realistic 3D electric flame, we have the perfect fire to suit your design needs, your lifestyle and your budget.

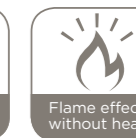

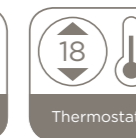

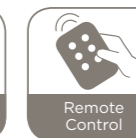

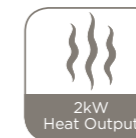

\*Selected models will require minimum installation

CVA20

Finished in modern traffic white, the freestanding Cavalli has a mirrored back panel to create a truly stunning electric flame effect. As it fits flat to the wall, it's an ideal premium, all-in-one fireplace solution for your home.

- Mirrored back panel
- Fully concealed fan heater
- Log effect fuel bed

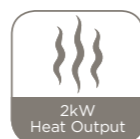

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

BRN20

Create a stunning focal point in your home with the freestanding Burnham suite. Requiring no assembly, it is ideal for homes without a fireplace. The dove white satin finish and Optimyst flame effect gives you the homely warmth and beauty of a real fire with the simplicity of electric.

- Fully concealed fan heater
- Log effect fuel bed

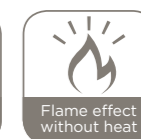

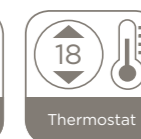

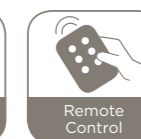

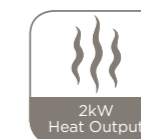

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

TAL20

With its fresh monochromatic styling and bold, crisp lines, this complete suite creates the ultimate statement fireplace in any room. It's an all-in-one solution, making it the ideal choice for homes with no existing fireplace.

- Fully concealed fan heater
- Log effect fuel bed

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

ESM20

This stunningly contemporary wall fire features strikingly minimalistic design and a modern monochromatic colour scheme. It's the ideal all-in-one fireplace for anyone looking for a wall mounted solution.

- No heater
- Log effect fuel bed

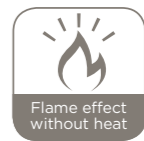

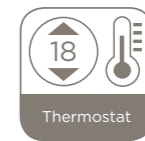

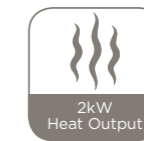

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

ALM20CHE

Create a dramatic focal point in any room with this beautiful stone effect brick effect back should you prefer a matt black finish. As it's an all-in-one fire solution, it's perfect for homes without an existing fireplace.

- Fully concealed fan heater
- Log effect fuel bed

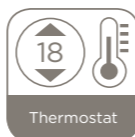

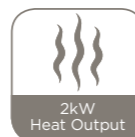

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

MFD20

The Moorefield is a complete suite which requires no assembly. Once out of the box it can be placed against the wall to create an instant fireplace.

- Fully concealed fan heater
- Log effect fuel bed

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

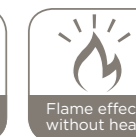

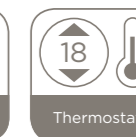

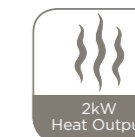

MZT20BLE Black

MZT20E Cream

This freestanding suite comes in a choice of gloss black or cream to suit a variety of decors. The Mozart is an all-in-one solution to create a cost effective, stylish focal point in your room.

- Choice of black or cream surround
- Log effect fuel bed

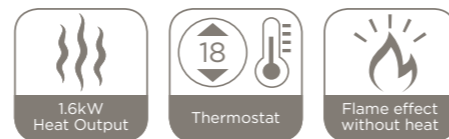

See page 73-75 for product dimensions.

CDW16E

The Chadwick is an elegant freestanding suite, ideal for bringing a touch of class to your room. With detailing on the stone effect surround, this fire will create an instant fireplace in your home.

- Fully concealed fan heater
- Log effect fuel bed
- 1.6kW heater

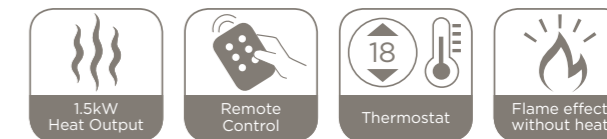

See page 73-75 for product dimensions.

MMZ15 Mini-Mozart

These compact, ready assembled freestanding suites are ideal for smaller spaces and provide all the ambience of a roaring fire without imposing on the room. The Mini-Mozart surround has a stone effect finish and dark marble effect back panel while the Figaro has a light oak effect finish and black back panel.

- Fully concealed fan heater
- Log effect fuel bed
- 1.5kW heater

See page 73-75 for product dimensions.

FGA15E Figaro

## Wall Mounted Fires

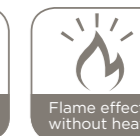

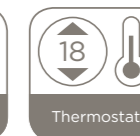

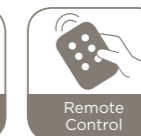

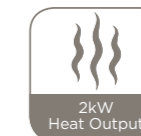

Wall mounted fires provide a stylish, modern feel to refresh any space, and are a particularly useful alternative when floor space is limited. Our wall mounted fires are available in a number of sizes, designs and finishes, allowing you to create an iconic modern focal point to your room.

Our wall mounted range features our Opti-V, Optimyst and Optiflame flame technologies, so whether you're looking for a convincing illusion or a stunningly realistic, 3D electric flame, we have the perfect fire to suit your design needs, your lifestyle and your budget.

ART20 Orange

A fire, but not as we know it! Offering a fantastic array of coloured visuals in a slick, curved black glass frame, the Artesia wall fire can also play your favourite music through its Bluetooth speaker.

- Bluetooth speaker with crackling fire sound effect. Can also play your own music
- LED backlights, with colour changing display and fuel bed
- Light intensity control

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

PGF10

PGF20

A fully built-in electric wall fire available in two widths, with slick contemporary design and our stunning Opti-V flame effect. With the option of the sound of gently crackling logs, this fire is the ultimate statement in your living room, or even your bedroom.

- Viewing aperture: PGF10 - H240 x W690mm; PGF20 - H240 x W1310mm
- PGF10 is available with optional graphite effect frame
- No heater

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

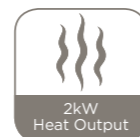

Pebble bed

TAH20E

The Tahoe is a large landscape minimalistic wall mounted fire. With a black gloss finish surround, the open-fronted design allows the realistic Optimyst effect to be appreciated in full. The fire can be mounted flush on the wall or partially inset.

- Chassis can also be partially inset so that the frame protrudes with just a 20mm gap to the wall - please see product instructions on Dimplex website.
- White pebble bed available as optional extra (part OMWFPB)

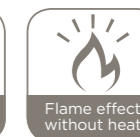

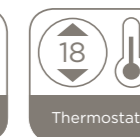

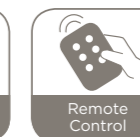

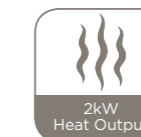

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

RDY20E

The wall mounted Redway is a medium-sized fire, with black finish and grey inset panel. The fire is open fronted so that you can fully view the realistic Optimyst effect and the fire can be mounted flush on the wall or partially inset.

- Chassis can also be partially inset so that the frame protrudes with just a 20mm gap to the wall - please see product instructions on Dimplex website.
- White pebble bed available as optional extra (part OMWFPB)

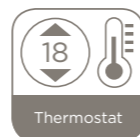

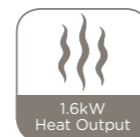

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

XLF50

The edge-to-edge glass in this wall mounted landscape fire offers a panoramic view of the dazzling flames. The modern, stylish Ignite features the Optiflame multi-coloured flame effect over crystal-effect fuel, and could also be fitted into a suitable surround for a complete fireplace.

- Available in 50" (model no: XLF50) and 74" (model no: XLF74)
- Suitable for inseting into a wall as slim depth of only 147mm

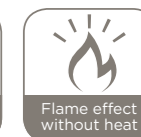

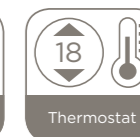

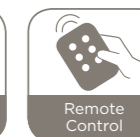

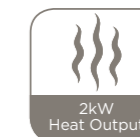

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

SP16E

The stunning black SP16 features a wide flame picture, providing an impressive centrepiece for your room. The sleek frame enhances the warming glow of the LED fuel bed.

- Concealed fan heater
- Chassis can also be inset so that only the frame protrudes
- Log effect fuel bed

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers. See page 73-75 for product dimensions.

BZT20CH

This modern wall fire is finished in silver grey but has a reversible frame finished in gloss black and gloss white so you can select the frame that suits your décor. You can also update the fire simply by turning around the frame if you decide you wish to change from black to white – or vice versa.

- Reversible frames
- Log effect fuel bed

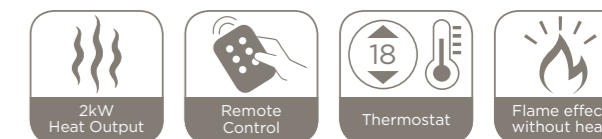

See page 73-75 for product dimensions.

BCH20E

With its modern clean lines and bold monochromatic frame, the Bach is the ideal choice for anyone looking for a slim, cost-effective wall mounted fire.

- Dark grey frame with black front
- Log effect fuel bed

See page 73-75 for product dimensions.

## Freestanding Fires

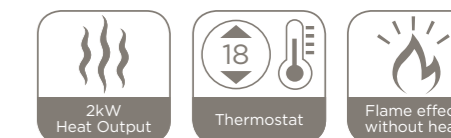

If you're looking for a lower-cost, out of the box freestanding fire, then look no further. We offer a range of contemporary and traditional freestanding fires which can help you transform your living space in moments.

All of the fires in this range feature Optiflame – the UK's most popular electric flame effect. Freestanding fires simply fit flat to the wall or can be placed in front of a traditional 16" or 18" aperture fireplace.

The Castillo is a contemporary chrome and satin silver effect fire, with a nod to Art Deco design while the Zamora is finished in matt black with a stepped chrome effect finish fret. These freestanding fires sit flat against a wall, creating an instant fireplace.

- Choice of real coals and white pebbles fuel bed (both options included)
- Compatible with optional hearth pad, model no HPD001 – shown on Zamora

See page 73-75 for product dimensions.

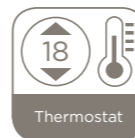

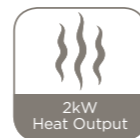

CHT20

DTT20 Coal bed

The Cheriton has a black and brass effect finish with a cross-hatched effect fret, while the Detroit has a black and chrome effect finish and a choice of real coals and white pebbles for the fuel bed. These freestanding fires sit flat against the wall to create an instant fireplace.

- Real coals on Cheriton. Choice of real coals and white pebble fuel bed on Detroit (both options included)
- Compatible with optional hearth pad, model no HPD001

See page 73-75 for product dimensions.

## Surrounds – for use with electric fires only

Fully assembled MDF surround, back panel and hearth, purpose designed for use with Dimplex electric fires. No structural alterations needed as surrounds are freestanding – all you need is a flat wall and a power point for the fire.

- Surround finished in maple effect with textured black back panel and hearth
- Compatible with all of the current Dimplex 16"/18" inset fires

**Model no. GDS1A**

- Natural stone effect surround
- Compatible with all of the current Dimplex 16"/18" inset fires

**Model no. GDS3**

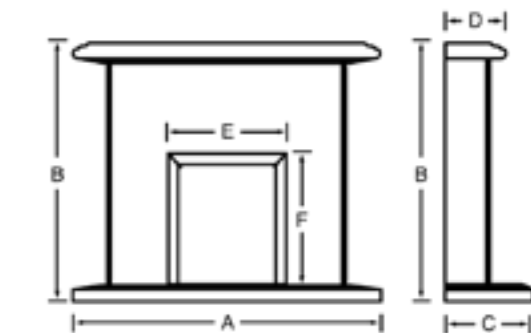

- Surround finished in mahogany effect with textured cream back panel and hearth
- Compatible with all of the current Dimplex 16"/18" inset fires

**Model no. GDS1**

### Dimensions

Surround	Model No.	Finish of surround	Finish of back panel	A	B	C	D	E	F	Weight of surround
Holwell	GDS1A	Maple effect	Black back panel & hearth	1200	1113	395	280	420	580	43kg
Ashmore	GDS1	Mahogany effect	Cream back panel & hearth	1200	1113	395	280	420	580	43kg
Rockbourne	GDS3	Natural stone effect	Natural stone effect back panel & hearth	1200	1085	350	253	420	580	48kg

# Bespoke Range

Dimplex's Optimyst Bespoke range offers design flexibility only matched by your imagination and has been specifically developed for anyone seeking to create a unique statement fireplace in their home.

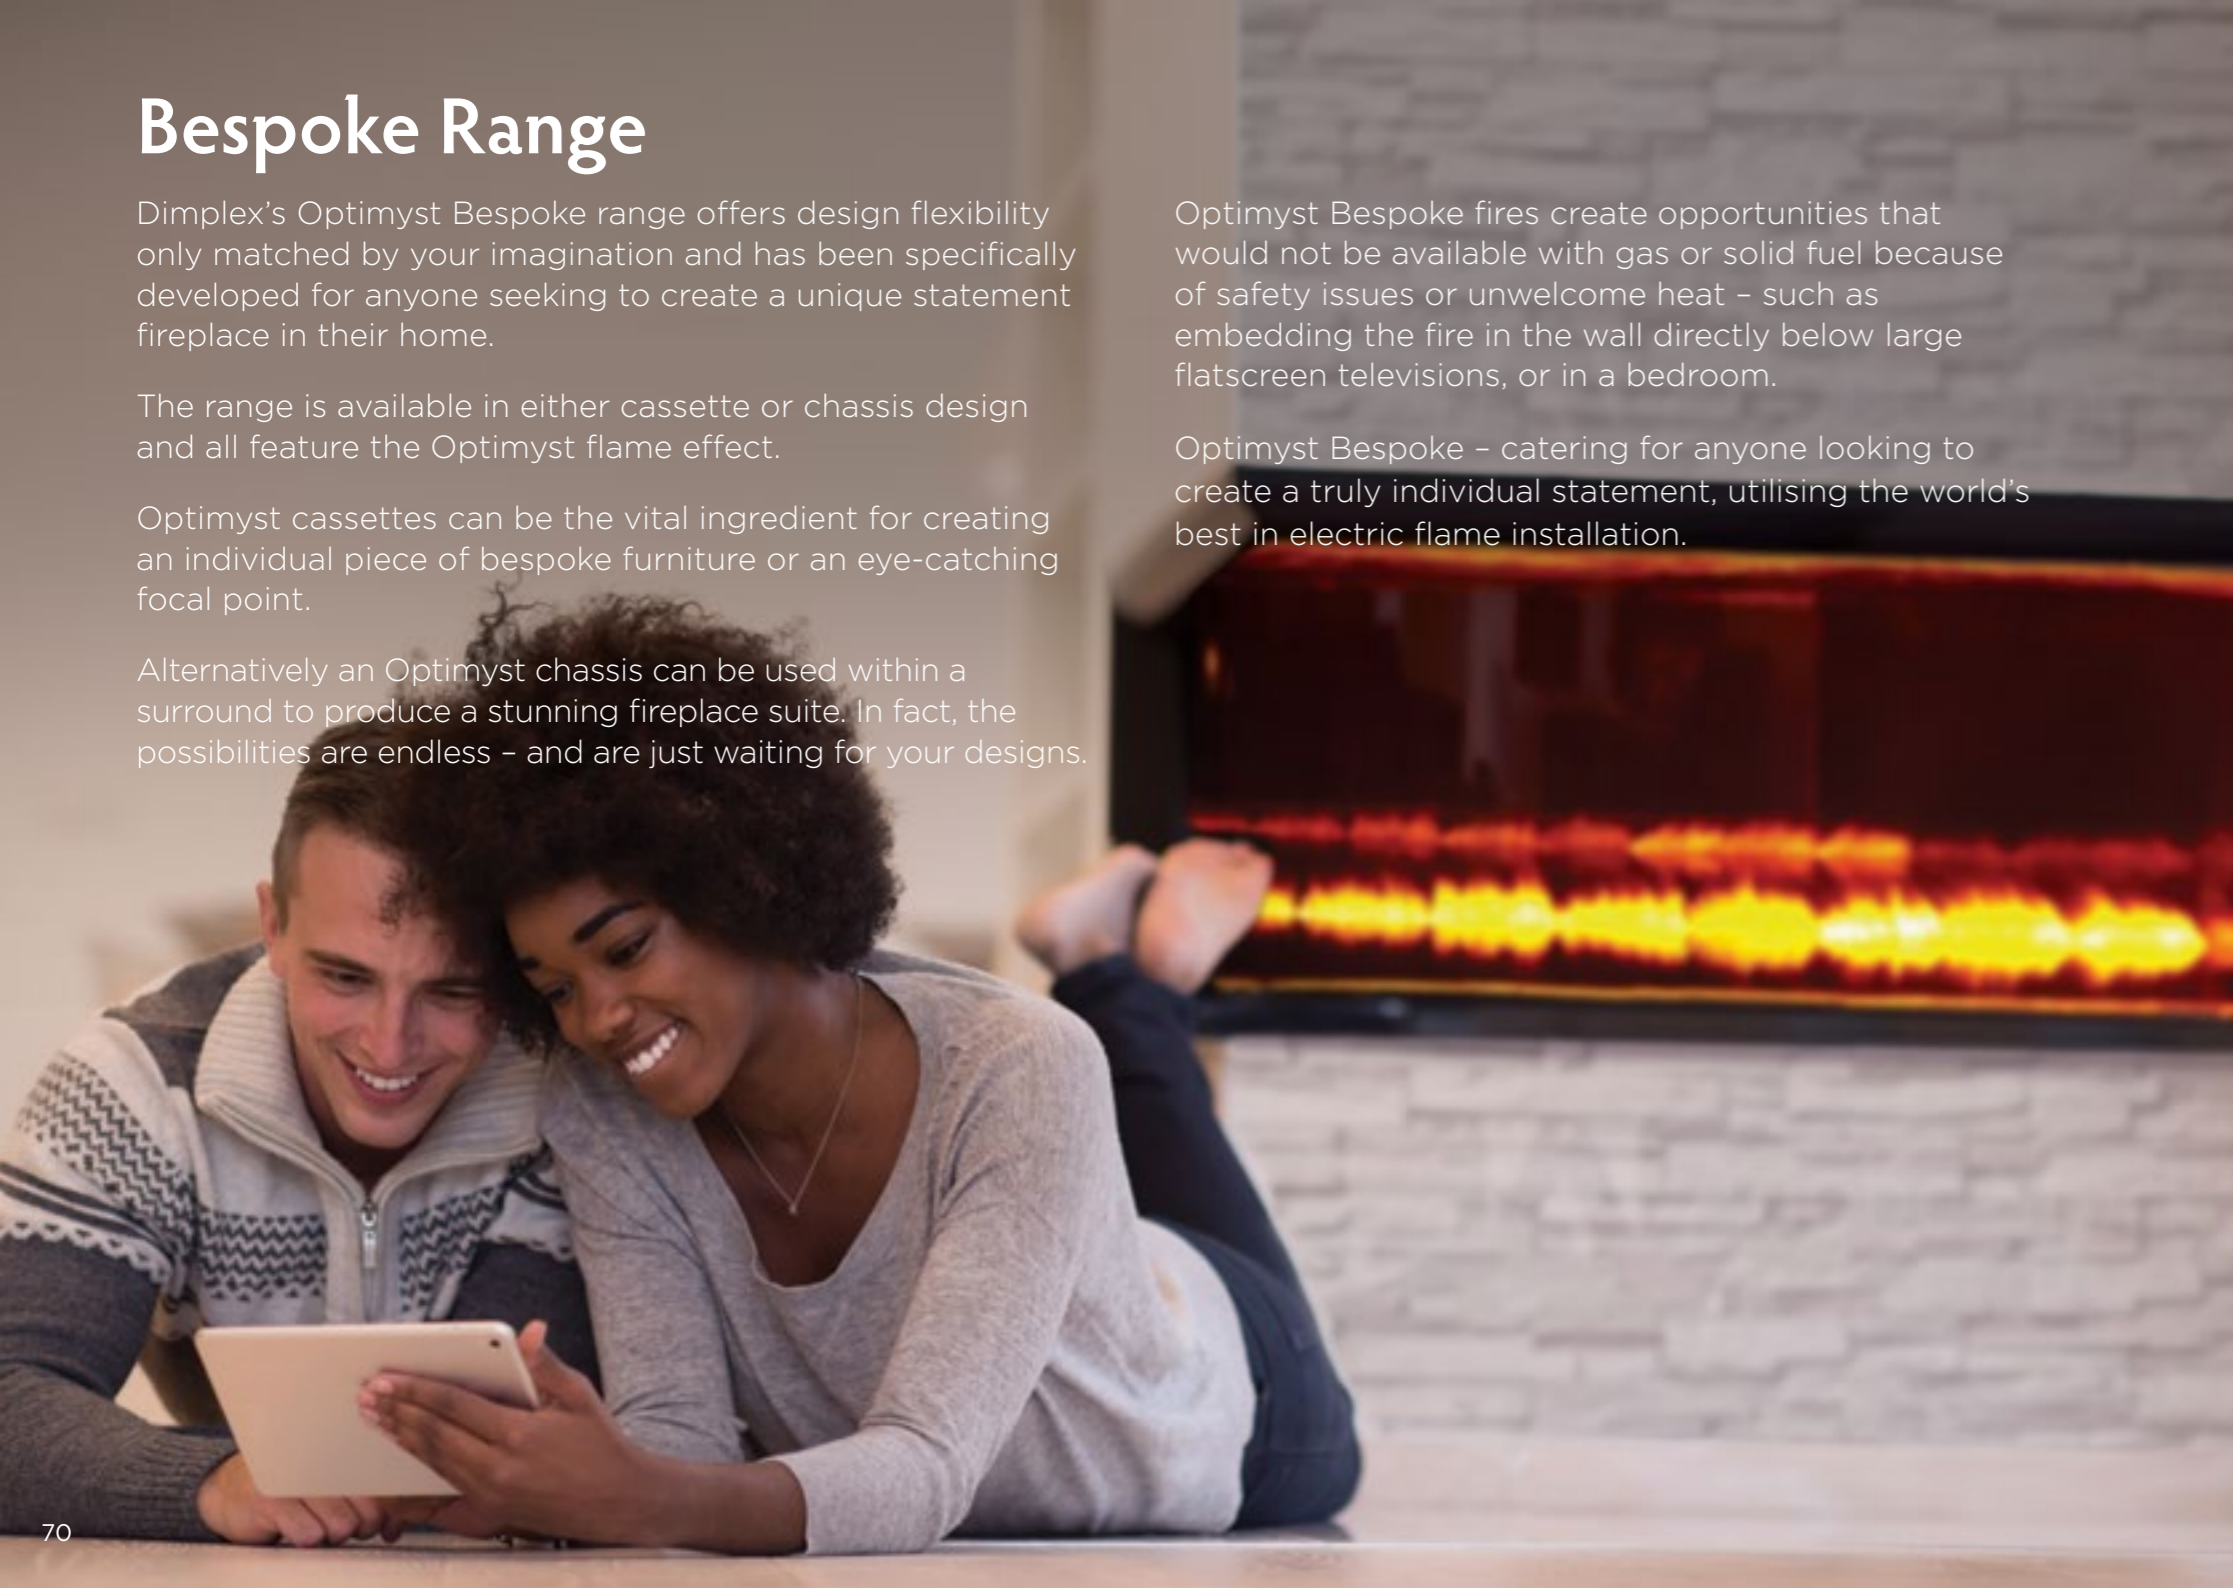

The range is available in either cassette or chassis design and all feature the Optimyst flame effect.

Optimyst cassettes can be the vital ingredient for creating an individual piece of bespoke furniture or an eye-catching focal point.

Alternatively an Optimyst chassis can be used within a surround to produce a stunning fireplace suite. In fact, the possibilities are endless – and are just waiting for your designs.

Optimyst Bespoke fires create opportunities that would not be available with gas or solid fuel because of safety issues or unwelcome heat – such as embedding the fire in the wall directly below large flatscreen televisions, or in a bedroom.

Optimyst Bespoke – catering for anyone looking to create a truly individual statement, utilising the world's best in electric flame installation.

# Optimyst Bespoke – design flexibility only matched by imagination

Open plan living room divider

Room divider in bedroom with ensuite

# Optimyst Bespoke – design flexibility only matched by imagination

Modern living room – no mantel

Feature fireplace underneath wall mounted TV

## Optimyst Cassette

Cassette 400

Cassette 600

### Cassette 400/600

- Realistic Optimyst flame and smoke effect
- Fully variable flame and smoke intensity control
- Remote control
- Quick-fit IEC (kettle) connection
- No heat
- Medium width cassette 400 (model: CAS400NH)  
Inset Height (mm): 171 / Width: 405 / Depth: 216  
Power consumption 200W
- Large width cassette 600 (model: CAS600NH)  
Inset Height (mm): 171 / Width: 564 / Depth: 216  
Power consumption 200W

Cassette 500

Cassette 1000

### Cassette 500/1000

- Realistic Optimyst flame and smoke effect
- Can be plumbed to water supply or bottle fed
- Can be connected in series to other 500 or 1000 cassettes
- Fully variable flame and smoke effect
- Adjustable sound
- LED glowing log bed
- Remote control
- No heat
- Medium width cassette 500 (model: CAS500)  
Inset Height (mm): 236 / Width: 508 / Depth: 354  
Power consumption 200W
- Large width cassette 1000 (model: CAS1000)  
Inset Height (mm): 236 / Width: 1017 / Depth: 354  
Power consumption 400W

## Optimyst Chassis

Chassis 400

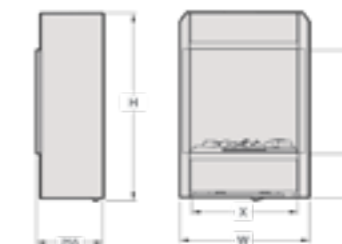

Chassis 600

### Chassis 400

- Medium width chassis
- As used in Dimplex Moorefield
- Realistic Optimyst flame and smoke effect
- Fully variable flame and smoke intensity control
- 2kW fan heater with choice of two heat settings
- Thermostat
- Remote control
- Quick-fit IEC (kettle) connection
- Model: ENG56-400

### Chassis 600

- Large width chassis
- As used in Dimplex Alameda
- Realistic Optimyst flame and smoke effect
- Fully variable flame and smoke intensity control
- 2kW fan heater with choice of two heat settings
- Thermostat
- Remote control
- Removable brick effect back panel
- Quick-fit IEC (kettle) connection
- Model: ENG600-BR

MODEL	Chassis 400	Chassis 600
'H'	700 mm	700 mm
'W'	490 mm	646 mm
'X'	413 mm	569 mm
'Y'	395 mm	395 mm

Our patented Optimyst flame effect creates a stunningly realistic illusion of flames and smoke that is almost impossible to distinguish from the real thing.

This fantastic effect is made possible by one key element: the Optimyst glass disk transducer.

The glass disk transducer is the visual heart of our Optimyst range, sitting inside our products and creating the ultra-fine mist that forms a key part of the world's most realistic flame effect.

### How does it work?

The transducer uses ultrasonic technology to create an ultra-fine water mist via a glass/ceramic disk within the transducer which vibrates at high speed. The resultant mist then rises up through the log bed with the aid of a fan in the lower sump and reflects the light from the lamps within the unit, creating an incredibly realistic, three-dimensional illusion of flame and smoke.

## After Sales Service

If you require after sales service please visit [www.dimplex.co.uk/support](http://www.dimplex.co.uk/support).

## CE Mark

Our products carry the CE mark complying with European safety standards and the European Standard for electro magnetic compatibility.

## British Electrotechnical Approvals Board BEAB Approved

The mark of the British Electrotechnical Approvals Board signifies that the appliance bearing it has been produced to the stringent safety requirements for domestic electrical appliances as laid down in BSEN60335.

All Dimplex electric fires are approved by BEAB or awaiting approval at time of printing.

## Specifications

At Dimplex our policy is one of continuous improvement; the Company therefore reserves the right to alter specifications without notice. Although every care has been taken in the reproduction of product finishes in this brochure, the colour photographs and the flame effects should be taken only as a guide. The information contained in this brochure is correct at the time of printing. You are advised to consult your dealer before purchasing. For a list of your local retailers please visit [www.dimplex.co.uk](http://www.dimplex.co.uk)

## The Dimplex Range

Dimplex offers the widest range of electric space and water heating products in the world – nearly 700 – to meet almost any heating need. In addition to this publication, we have a wide range of brochures for both domestic and commercial applications. Please visit our website for more information.

### Dimplex Website

Our website is full of information which may be useful to you including:

- Details of your local Dimplex Centre and CentrePlus retailers – including where you can see a particular fire on display
- Videos of the Opti-V, Optimyst and Optiflame effects
- Installation and operating instructions
- How to buy spare parts
