Zippo has combined the functional elegance of our flex neck candle lighter with the latest, most convenient technology in the new rechargeable candle lighters. Instead of a butane flame, the new candle lighter unleashes a small but powerful plasma arc to quickly ignite even the lowest burnt candle. After 40+ (approximate) ignitions, the new candle lighter can be easily recharged with the included USB cord.

Imprint Methods
Methods available to customize Zippo product. 36 pieces MOQ unless otherwise noted.

Signature Custom Imprint Methods
Auto Engrave
The crisp, clean look of auto engraving has become one of the most popular methods of customization. Skilled operators use either rotary engraving or diamond etching to inscribe an image into the product using creative fill patterns. A dimensional effect can be achieved by using directional fill patterns.

Also known as Rotary Engraving or Computer Engraving

Laser Engrave
This state-of-the-art process allows Zippo tremendous flexibility when reproducing your artwork on our products. Our laser engravers are computer programmed to generate a perfect replication of your imprint.

Also known as Laser Mark.

Color Image
State-of-the-art printing method allows Zippo to imprint multiple spots or full-color photographic representations. Spot colors can be matched to PMS colors and used for one, two, or three-color simple logos. Previously known as 4-color process print or LEP.

• Will accept vector artwork files (Adobe Illustrator) in these formats: ai, eps, pdf (provided entire contents of file are vector). Zippo can also imprint artwork in full-color or a photographic representation. Previously known as 4-color process print or LEP.
• Will accept raster artwork files (Adobe Photoshop) no less than 12” wide by 12” high with a resolution of 600 DPI (dots per inch). Any file requiring background isolation must have paths or a layered file with transparent background included.

Premium Custom Imprint Methods
All models below require special handling due to the unique processes and methods on each piece. Several model styles below require minimum quantities, tooling charges, special lead times, as well as specific art files. Contact your Zippo Sales Representative for more information.

Lustre
Zippo’s signature lustre etch method produces an attractive, durable imprint. The artwork is etched into the lighter and plated to a permanent mark. A beautiful contrasting effect is created. Additional charges apply to all MOQ.

Auto Two-Tone
Contrast is achieved when Zippo engravings are in two different depths. Vibrant chrome and brass engraving allows for a “gold and silver” effect.

• Some model restrictions apply
• Art constraints apply
• Available on 205, 205F, 2Q5, 2Q4, 2Q6, 2712, 254B, 254F, 254C, 2450.
• Cannot pass through lid line

Laser Two-Tone
Zippo’s lasers can be programmed utilizing two art depths, creating a unique contrast within the image.

• Some base model restrictions apply
• Cannot pass through lid line

Fusion
A combination of specific pre-determined color palettes and chrome breaks create an iridescent, metallic look.

• Restricted to models 205, 2Q5, 2Q6, 354B, 2Q5, 2450.
• Art constraints apply

Photo Image
The creation or manipulation of photographic images by electronic or digital means. The image is then laser engraved onto many different finish options with pin sharp resolution.

• Model restrictions apply
• Special art requirements/high resolution photo required to be reviewed by the Design Center

Embroid
Image is die struck onto various metal substrates such as brass, aluminum, and pewter.

• Art constraints
• Additional lead times required

Stamping
Image is debossed into the case, creating a 3D design.

• Art constraints
• Tooling charges and minimum quantities may be required

• MOQ: 500pc

Classic Finishes
Field Powder Coat PVD Finish Transparent Powder Antique

Luxury Custom Imprint Methods
All luxury custom orders need to be routed through the Zippo Design Center.

Brite Cut
Limited to Armor® cases, brite cut engraving produces dazzling high and low facets resulting in the dimensional look of a beautiful emblem directly on the surface of the lighter.

MOQ: 50pc

MultiCut
Powerful milling machines engrave deep contoured cuts 360° around the Armor® case leaving a high-end jewelry look. Special processing and finishing apply.

• Armor® case only
• May require additional lead time
• Art restrictions apply

Deep Carve
Graphic is rasterized in state-of-the-art 3D software. A powerful milling machine accurately engraves deep contoured cuts into an Armor® case using many tool sizes, special finish plating.

• Armor® case only
• MOQ: 30pc

Texture Print
Texture printing brings designs to life by creating a textured edge on the surface of the lighter.

• MOQ: 50pc

Photo Image
Laser engraved onto many different metal substrates such as brass, chrome, and classic iridescent, metallic look.

• Art constraints apply
• Additional lead times may be required

Art Styles
Chromed Out
When rendering art, an area of design is opened up to create a unique contrast within the image.

• No additional charge for this method.

Precious Metals
Special handling is needed when engraving precious metals.

• Sterling Silver and Solid Gold
• Limited customization options available

• MOQ: 50pc

Stone Attachment
Zippo designers and engineers continue to develop special-laiden materials and stones to delight Zippo customers.

• Some restrictions apply

Epoxy Inlay
Clear, marbled or solid epoxies can be inlaid into deep cavities by highly skilled artists.

• Armor® case only
• Lid-line and size restrictions apply
• Special engraving can be designed under translucent epoxy for a luxury look

Iced
Zippo’s iced lighters have a glossy, smooth finish with a unique design peaking through the translucent topcoat, creating the effect of looking through a small sheet of ice.

• Design Center in-house visits only
• Art restrictions apply

• MOQ: 50pc

Black Light
Specially formulated ink applied to areas of color take on a bluish glow when exposed to UV black light.

• Design Center in-house visits only
• Currently only offered on Black Matte

Laser/Auto Engrave
Zippo can combine Laser and Auto Engrave processes to achieve a jewelry look.

• Art constraints apply
• Some model restrictions apply
• Engraving can also be done on top of laser area

Laser Fancy Fill
Skilled designers enhance laser engrave by adding variations of directional fill patterns. A 3D effect is achieved throughout this intricate design process.

• Model restrictions apply
• Not available on translucent powder coat or matte finishes
• May require additional lead time
• Standard imprint charges apply

450 Color
The signature windproof lighter can be completely enveloped by full-color graphics with the most intricate and vibrant designs possible.

• Design Center in-house visits only

540 Fusion
540 Fusion seamlessly envelops the lighter on all sides with shimmering, metallic color palettes, combining the hallmarks of both our 540 Color and Fusion processes.

• Design Center in-house visits only
• Art restrictions apply
