Main benefits

- Stoves up to 67% more powerful.²
- Mate Ultra grills have high resistance, durability and better design. Moreover, thanks to its rough finish, it provides greater stability for the cookware.
- Easy Clean Pro interior coating. The evolution of continuous cleaning, as easy to clean as glass.
- Perfect Cook, better heat distribution thanks to its circular floor for a more uniform baking.

¹ Conversion kit not included. Contact mabe Service.

² Compared against models of 5 and until 6 burners from other manufacturers.

Specifications

Model: JEM2030BAPN1

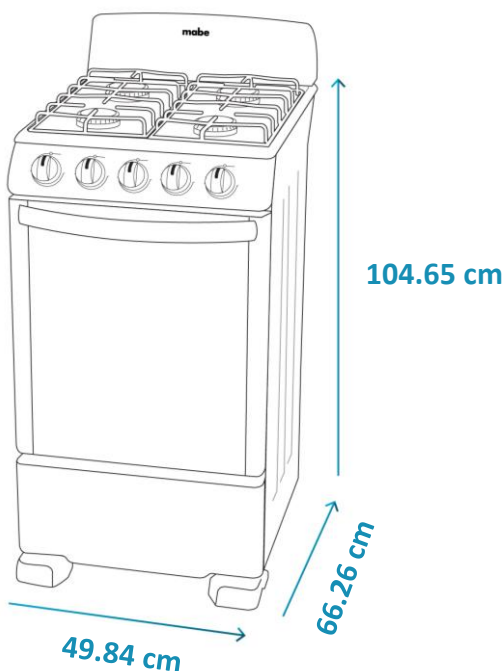

UPC / EAN: 757638404648

Important

- The sides of the stove should be 20 mm from the adjacent walls and the hinge of the lids no less than 100 mm from the rear wall.
- The ceiling, cabinets and air extractor should be at 760 mm (minimum).

Installation diagram and measurements

- To reduce the risk of fire, avoid installing cabinets above the stove.
- Avoid installation in humid places.
- Do not install your stove beside the refrigerator, as the performance of the refrigerator will be affected by the stove itself.
