

Great product for anyone that is scheduled to have Pneumatic Retinopexy or Vitrectomy eye surgery. After this highly sensitive surgery, Ophthalmologists strongly recommend that their patients remain face down for a minimum of 16 hours per day for a period of two weeks. The Vitacare Eye Surgery Recovery System offers premium comfort, support and durability during this lengthy convalescence period.

NOTE: The following conditions require this type of surgery: Retinal Detachments, Diabetic Retinopathy Vitreous Hemorrhage, Hemolytic Glaucoma, Macular Degeneration and Central Vein Occlusion.

*Full system can be used on a bed or the floor.

*Head & Face Cradle

*Head & Face support can be used separately on a desk or table top.
