

Gemma Play Mat Assembly

The Gemma Play Mat features a hand illustrated floral design that can be aligned either vertically or horizontally. In the center of each tile, you'll notice a slightly darker wide stripe (see fig. A) in the background that can serve as an indicator for assembly.

Instructions

- Lay all of the tiles down in your desired space
- Ensure the darker stripes in the design are aligned in one direction
- Once satisfied, connect the tiles together
- Connect your four corner edge pieces first
- Connect remaining straight edge pieces last

CORNER EDGE PIECE

Has a rounded corner on one end.

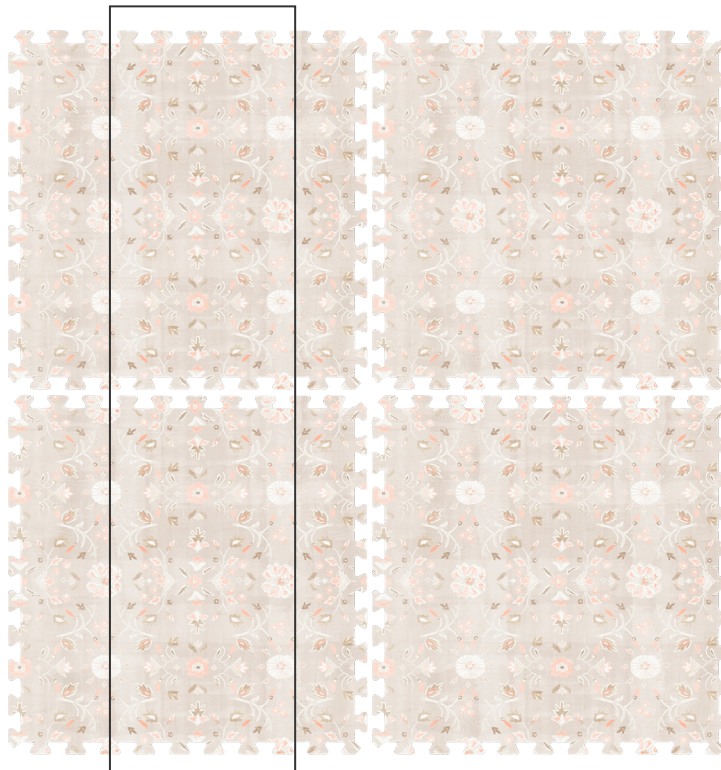

STRAIGHT EDGE

Does not have a rounded corner on either end.

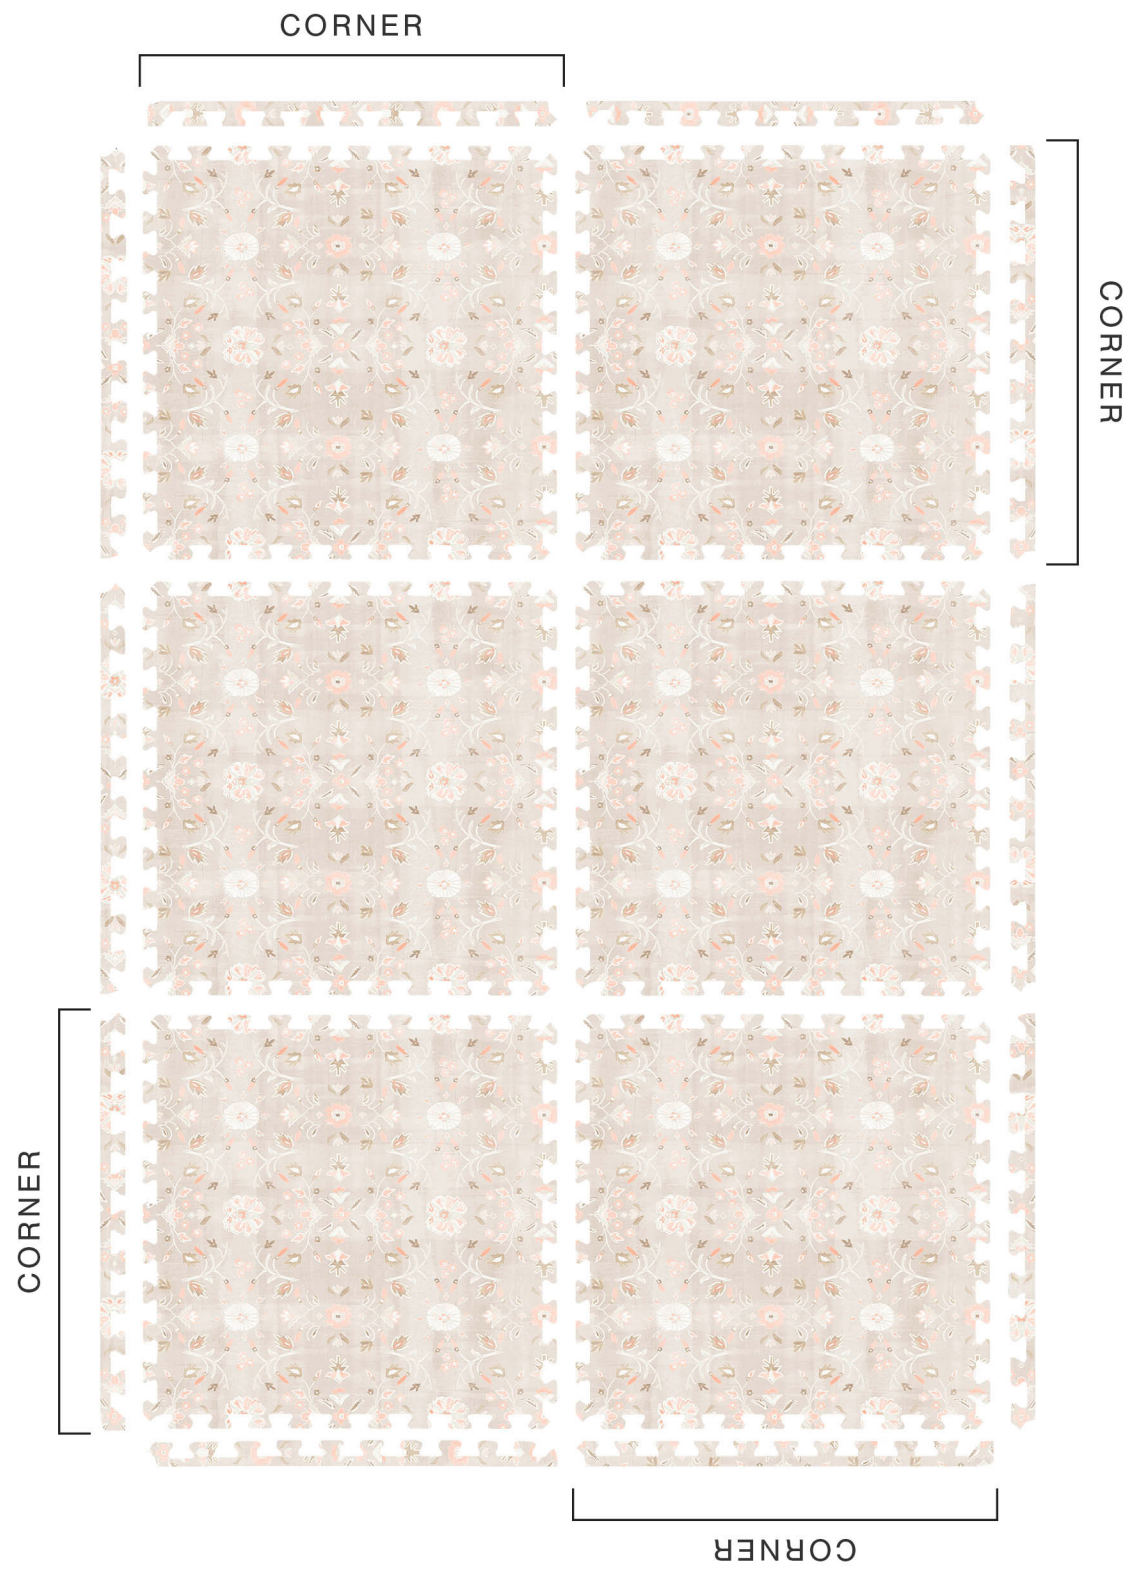

FIG. A

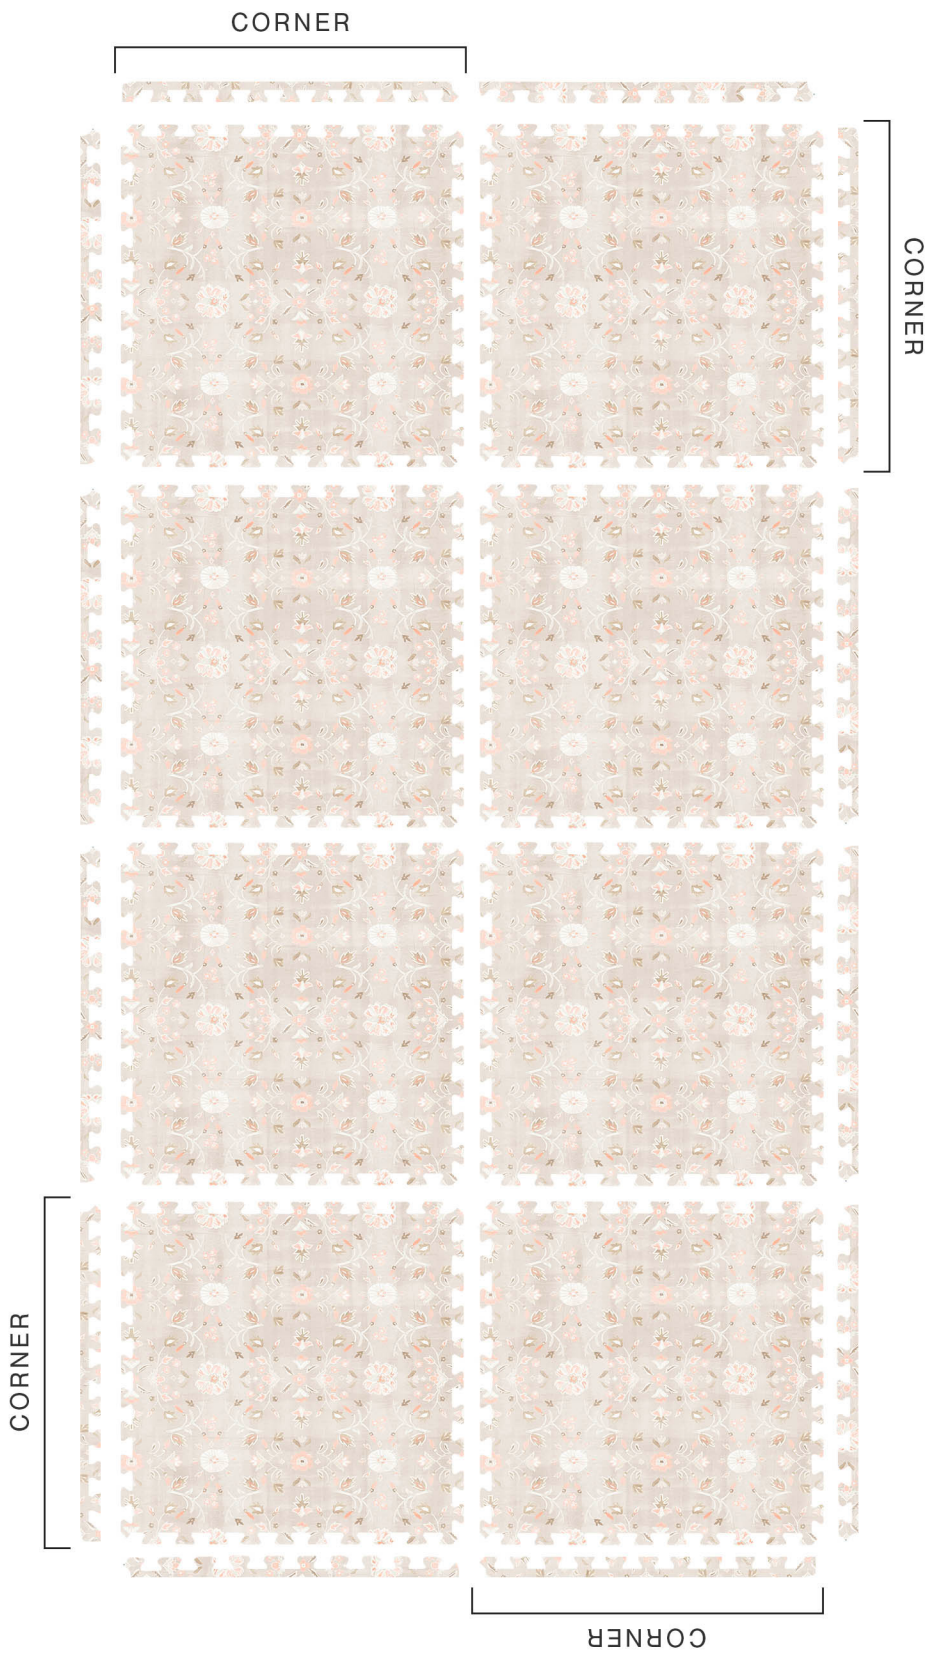

Darker background area.
