

### ROWAN SERIES ASSEMBLY

The Rowan Play Mat features a hand-illustrated offset stripe design. This style is designed to have the stripes running horizontally in an offset fashion (see Fig. A). There are also letters on the back to help guide you using the pages below for your corresponding size.

Let's put it together! Start by removing all of the edge pieces from your tiles and set them aside. On the back of each play mat tile, you'll see the letter A, B, C or D. Before you put the tiles together, lay all your tiles out upside down using the guide below. Then flip each tile over and connect them. Attach the edge pieces last.

#### CORNER EDGE PIECE

Has a rounded corner on one end.

#### STRAIGHT EDGE

Does not have a rounded corner on either end.
