

TECHNICAL DATA SHEET

ABS PLASTIC DRAIN PANS

- Designed to act as a catch-basin for water from various sink designs, typically 'Slot Style' sink drains.
- Made of ABS, vacuum-formed as a single pan to eliminate any chance for leaking.
- Each Drain Pan has a threaded collar, solvent welded to the pan, to connect to standard 1.5" plumbing.
- 1/2" Wide Flange provides mounting area for silicone, screws, or other mounting hardware.
- Easily customizable by cutting down the pan, and re-gluing using solvent ABS Glue

Y= Available in 3" ID, 13" ID, 17" ID, 24" ID, 36" ID, and 48" ID Lengths

X= 2" ID Width (*3" ID for 3" Length size)

Z= Depth= @2" OD at drain

F= Flange Lip, 1/2"

D= Threaded 1.5" Collar
