

RX-20 HE

Rotary Extraction Cleaning Tool

Setting the standard in rotary extraction...

The HydraMaster RX-20 is a tool that every cleaner and restorer should own. It revolutionized the way that carpets are cleaned, and remains the standard of performance in rotary extraction. With three spray jets matched with 5 vacuum slots, the RX-20 makes over 650 cleaning passes per minute. This super agitation, combined with the unit's weight cleans a carpet deeper, extracting soil and cleaning solution. The rotating head cleans all sides of the carpet fiber, fluffing up and restoring the pile. Save your back, clean more carpets, and clean them better For Truckmount & Portable

Since its introduction nearly 15 years ago, more than 10,000 professional cleaners have chosen the RX-20 Rotary Jet Extractor. The reason is simple - it cleans better than a scrub wand (or any other method) and requires far less physical labor. You'll clean more carpet with far less effort, get better results, and make more money.

The self-propelled RX-20 glides over the carpet; the rotary action of the cleaning head does all the work. The RX-20 sweeps back and forth with just a slight change of balance on the handle. The effort needed to use an RX-20 is a fraction of that used scrubbing back and forth with a wand.

It is the rare cleaner who can clean carpet hour after hour without wearing down. The RX-20 delivers consistent results all day long and is not operator dependent. Using an RX-20, you'll be cleaning at the same quick pace at the end of the day as when you started; consistent effort that translates into consistent quality and happy customers. The RX-20 uses 5 vacuum/spray jet heads, each independently suspended by a flexible spring arm. As the RX-20 glides over the carpet, the rotating action of the 5 vacuum ports and 5 spray jets create 650 cleaning passes each minute.

As the machine sweeps side-to-side, the cleaning head rotates twice a second, cleaning each carpet fiber from five different angles. This incredible scrubbing action releases soils while fluffing up and restoring the carpet. The results are astounding, especially on stains or heavily soiled, matted carpet.

- The tool that revolutionized the way carpeting is cleaned remains the standard of performance
- The most remarkable tool to deep clean heavily soiled carpets faster, restore the nap, groom the carpet pile and reduce drying times
- Makes over 650 cleaning passes per minute and the carpet fiber is hit from every angle for deeper cleaning and fluffing up the carpet pile
- The best rotary tool in the industry - strong and sturdy, reliable and durable, a proven track record - and more time efficient on bigger jobs
- Reduces fatigue and provides the highest level of constant, compromised cleaning power

Especially in this current market the RX20 sets a standard that not all service providers can match. Those who are not the top of the food chain will be eliminated. My RX20 allows me out perform other competitors.

-Anthony Wynkoop

Heavily soiled carpets is really where the RX-20 shines as far as I'm concerned RX-20 really comes in handy sometimes as far as making a pretty hard job a lot easier

-Extremeclean, Nashville

Product Information Sheet

RX-20 July 2013 R1

SPECIFICATIONS	PART NO. 700-041-006
Body	Cast Aluminum Powder Coated
Length	23 inches
Base width	16 inches
Height	43 inches
Weight	70 lbs.
Motor	1/2 H.P. TEFC
Amperage	8.6
Voltage	120 Volt, 60 Cycle
European models	220 Volt, 50 Cycle
Gearbox	Permanent Lube Spur Drive, 1725 RPM Input, 130 RPM Output
Oil capacity	12 Ounces
Star headplate	Replaceable, Steel Spring Arms
Cleaning heads	Five (5) Cast Aluminum Replaceable Stainless Steel Wear Shoes
Solution jets	Stainless Steel, 80015 Veejet
Solution strainer/	80 Mesh, Stainless
Solution valve	
Cleaning rate	Stainless Steel, High Pressure Five (5) Heads Rotating at 130 RPM equaling 650 Cleaning Passes Per Minute
Handle assembly	Foam Grips, Adjustable Height
Transportation/	
Wheels	8" dia., 1-1/2" Wide; Grey, Non-Marking
Electric cord	50', 14/3

We asked some RX-20 owners what kind of carpet cleaning jobs they wouldn't be caught dead doing without their RX-20 Rotary Extractor...

I just did a 20,000 square foot building in Washington DC, 10 floors with the Titan and the RX20. Of course the customer was amazed.

- Ryan G.

I clean some nasty, trashed apartment carpets. Without my RX20 I would be screwed!

- Mark V.

The RX20 is a lifesaver. There is no way I would clean commercial carpet or large jobs without it. Great piece of equipment!

- John B.

"It is like that famous battery bunny. It just keeps going and going and going. It doesn't tire out even after I have, which means I clean consistently the same way throughout the job and the day"

- Bruce D.

TOTAL FLOOR CARE SYSTEM

Rotary Extraction

Bonnet Cleaning • Hard Floor Cleaning

- One Tool for Three Jobs -

The RX-20 Hard Floor Head opens new possibilities for your cleaning operation. Now you can clean a homeowner's tile floor or concrete with the same tool that you just used on her living room carpet. Clean stained and spotted floor tiles, or strip wax from linoleum. For the price of an easy-to-change cleaning head you can add new services to your business and carry only one machine!

• RX Pad and Bonnet Driver

This attachment allows the RX to quickly convert to drive either carpet cleaning bonnets or standard hard floor pads. Part No. 190-041-024

• RX Hard Floor Attachment - LD

Suitable for Light Duty (LD) scrubbing of vinyl, terrazzo, slate and marble surfaces. The brush on this attachment replaces red pads. Part No. 190-041-024

• RX Hard Floor Attachment - MD

Suitable for Medium Duty (MD) to aggressive scrubbing and stripping of resilient floors, terrazzo, quarry tile and concrete floors. The brush on this attachment replaces brown and black pads and will outlast them more than 100 to 1. Part No. 190-041-025

• RX Hard Floor Attachment - HD

Designed for Heavy Duty (HD) to most aggressive stripping and scrubbing of resilient floors, terrazzo, quarry tile and concrete floors. The brush on this attachment replaces high productivity pads. Part No. 190-041-025
