

U.S. ENZYMES INC. ~ HIPAA POLICY

U.S. Enzymes Inc. is committed to identifying meaningful solutions to its customer's challenges. This customer commitment requires that U.S. Enzymes keep in step with industry legislative and regulatory initiatives such as the Health Insurance Portability and Accountability Act of 1996 ("HIPAA").

HIPAA's privacy and security regulations require that U.S. Enzymes customers monitor and limit the ways in which patients' confidential information is accessed, utilized, stored, transmitted, and disposed. U.S. Enzymes realizes that its customers must comply with HIPAA's complex privacy and security standards. U.S. Enzymes recognizes that its customers' compliance activities may include seeking assistance from U.S. Enzymes; however, U.S. Enzymes does not utilize confidential patient information and expressly refuses anything that contains confidential patient information. To this end, while U.S. Enzymes is committed to assisting its customers, it does not accept or store anything that includes confidential patient information.

If you have any questions regarding U.S. Enzymes or our HIPAA policy, please contact us via info@usenzymes.com.
