

ANITA  
GOODESIGN

Premium Collection

Make the quilt of your dreams with this outstanding Premium Collection! The success of our Bargellissimo Collection was so overwhelming, we know we had to up the ante for our bargello lovers! With Bargellissimo II, the quilts are bigger and better than ever before, but in true Anita Goodesign fashion, they are just as easy to create!

*Bargellissimo* II

# BARGELLO QUILTING HAS NEVER BEEN SEW EASY!

We've taken the guesswork out of creating bargello quilts and come up with a system that saves time and fabric! You will have all the information you need to create bargello quilts included in your full-color Bargellissimo II tutorial book.

## FABRICS:

## FABRIC INFORMATION IS PROVIDED

We've calculated the amount of fabric needed for each of the included quilt patterns so that you know exactly how much you'll need before you get started. We've also provided several examples of color ways you might choose for your bargello quilt!

Every fabric selection is lettered, so that when you begin to stitch out your strips you'll know exactly where to place each piece of folded fabric.

## CREATE MULTIPLE STRIPS IN 1 HOOPING

Fabric waste is virtually eliminated using our system. You'll create multiple strips using our folded fabric method. The image to the right shows what a hooping will look like, along with all of the helpful guides built into every hooping.

### 1. LETTERS FOR FABRIC

When the block first stitches, there is a letter stitched onto the stabilizer that tells you where to place your fabric.

### 2. TACKING LINES

Shown in pink, these unique tacking stitches are used to turn one large block into smaller ones. They make sure the fabric stays together after you trim it into individual blocks.

### 3. NUMBERS

You will see a number at the bottom of each block stitched into the seam allowance. This is the way to keep track of how the blocks will be stitched together into strips.

### 4. TRIMMING GUIDE

Shown in blue, this is the line that stitches last and shows where to use your rotary cutter to cut the blocks. Your seam allowance for each block is already built into the design, so cutting the blocks to the right size is a no-brainer.

## DETAILED DIAGRAMS AND GUIDES ARE INCLUDED

In your tutorial book, you'll find diagrams which will show you how many of each hooping you'll need to create in order to have enough fabric strips to form your quilt. We've also provided guides for laying out your quilt so that it's easy to stitch your fabric strips together.

## OUR INSTRUCTIONS WILL GUIDE YOU THROUGH EACH STEP

Of course, we've also included our step-by-step instructions with photos that will guide you through the entire process. We'll show you how to create each hooping, how to stitch your strips together, how to assemble your quilt, and how to finish it with backing and binding. With all of these helpful tools included in the Bergellissimo II Premium Collection, you will be creating incredible bargello quilts quickly and easily in no time at all!
