

# The HQ Gallery2 Frame™

Compatible with HQ stand-up longarm quilting machines with throat spaces of 24"-26".

HQ *Gallery<sup>2</sup>*  
FRAME™

The new HQ Gallery2 Frame shown with optional casters.

Made of high-quality steel, the HQ Gallery2 Frame™ is a robust, professional-grade combination table and frame system for the home or professional studio.

## HQ Gallery2 Frame Features

- Choose the loading method you prefer with QuiltMaster™ DuoLoad™ system
- High-quality steel provides a solid, free-standing foundation for your quilting
- Zinc-plated hardware resists corrosion
- Choose from 10-foot or 12-foot frame sizes. 14-foot expansion kit option available late 2018.
- Pole cradles provide accessibility for loading quilt batting
- Height-adjustable legs with self-leveling feet accommodate a variety of floor surfaces
- Set of three quality canvas leaders (with Velcro® attachment)
- Bungee-style elastic side tensioning system
- Built-in hand wheel, snap-in poles, and smooth-rolling bearings make advancing the quilt a simple task
- Batting storage pole keeps batting rolls off the floor

### OPTIONAL ACCESSORIES

- Casters (pictured) for easy maneuverability
- Hand Wheel (add to front pole for two-handed quilt advance)
- HQ Super Leader
- HQ HighRise2™ Table Lift
- HQ Super Quilt Clamp (Large)
- Easy-Grasp Quilt Clamps (Large)
- Handi Hammock

# Now there are two ways to load your quilt with QuiltMaster™ DuoLoad™

## HQ Gallery2 Frame Loading Options

### Standard Loading

Provides a visual reminder of actual quilting space and easy access to the bobbin area for oiling and bobbin changing.

### ClearView Loading™

Often chosen for ruler work, this option clears the way for the use of longer or larger rulers and templates.
