
Bridge Club- The Bridge Club is designed for developing skaters who are taking further interest in the sport of figure skating, and are interested in exploring what more the sport has to offer. Bridge Club skaters meet once a week for 1 hour (45min of group, 15min practice time.) skaters work on improving their skating skills, learning new techniques beyond the Learn to Skate USA curriculum as well as about competition, music interpretation, and how to practice independently. This is also a great opportunity for young skaters to develop social relationships with other skaters with similar goals. (Basic 5-Freeskate 6)

Teen/Adult Skills- The adult curriculum is designed for both beginning and experienced adult skaters who wish to improve their skating skills. Participation in the program will help promote physical fitness and improve balance and coordination while teaching proper skating techniques. This is an exciting program for people who look to skating as an enjoyable part of a fit and healthy lifestyle. Ages 13+

Hockey Power/Skills/Practice-This class is a 45 min class split up into three 15 min sections. Power skating, technical skating skills, and free or practice time. During this class skaters can earn the Hockey Power badge. Skaters will develop stronger skating technique, more explosive power, better acceleration, and have fun with sticks and pucks. Skaters should be able to
