
Snowplow Sam 1-4: Preschool-age skaters develop preliminary coordination and strength to move around on the ice. The introductory classes are divided into four progressive levels for kids with no prior skating experience to build confidence in skating and themselves. Fun and games make this positive experience for your kids enjoyable and memorable. Ages 3-6years

Basic Skills 1-6:The first stage of skills form a strong foundation for your skaters to explore the world of skating. All will progress at their own pace working toward mastering each skill. Active Start encourages skaters to trade in hesitation for excitement as they grow a love for skating. FUNdamentals harness those skills as agility, balance, coordination and speed become the main focus of this curriculum. Ages 7+

Freeskate 1-6: Each Free Skate level is divided into three sections: skating skills, spins and jumps. The levels are designed to give skaters a strong foundation and it is at this point the skater can choose to pursue a recreational or competitive approach to the sport of figure skating.

Hockey Skills 1-4 & Power: Designed to teach the fundamentals of hockey skating, the four badge levels, plus power skating, will teach skaters how to be more proficient and agile on the ice. Proper techniques for the game of hockey are the primary focus and all elements are taught without a puck. Skaters will learn the basic hockey stance, stride, knee bend, and other necessary fundamentals to be successful. Ages 7+ or completion of Snowplow levels.
