
Spins/Jumps/MIF- This 45 min class will be broken down into three 15 min sections, Spins, Jumps and Moves In the Field. Time will be spent on the fundamentals of developing spins, perfecting spin positions, and increasing speed and duration of spins. Work on jumps will include working on better entry speed, great jump mechanics like knee bend, and improving take off and landings. Finally, some time will be spent on learning and perfecting the US Figure Skating Moves in the Field tests, we will focus on improvement in edge quality, learning body control, and new turns, as well as posture and carriage on the ice.

This class is open to any skaters Pre-Freeskate and above.
