www.keylogrolling.com

As world champion log rollers on a mission to grow the historic sport to Olympic status, we created the portable, synthetic Key Log[®], to show people around the world what we have known for many years: Log rolling is a thrilling recreational and competitive sport! Through our patented Key Log[®] and accessories to slow and stabilize the log for beginners, we have made the fun and fitness benefits of the sport accessible at any waterfront or pool.

Key Logs are easy to transport and store! After outdoor use, simply drain, rinse, and dry for long-term storage.

- Constructed of High-Density Polyethylene, with a built-in traction surface.
- 65 pounds, 11'8" in length, 15" in diameter
- No assembly or inflation required. Only moving parts are your feet!
- Made in the USA.
- 3-year Manufacturer's Warranty
- U.S. Patent US 8,651,972 B2, US 8,951,134 B2, Canadian Patent 2,851,756

Named one of Outside Magazine's '2013 Best Gear of the Show'.
