

Use the Base Size Checklist to make sure your miniatures will fit into the slots of a Layout Layer.

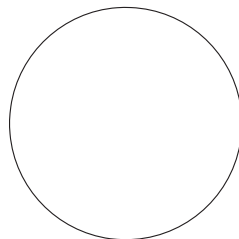

Instructions

1. Print out this checklist on 8.5"x11" paper. *****CAUTION***** When printing, be sure to turn off "Fit to Page", and print 1:1 actual size.
2. Measure the 1" scale at the bottom right to ensure proper sizing.
3. Place your miniature over a slot size to check if it will fit properly.
4. For a proper fit, you should see almost all of the printed black line around the base of your miniature.*

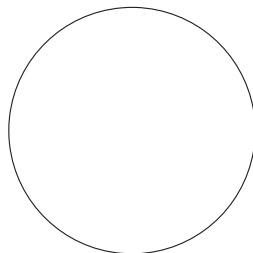

25mm Base

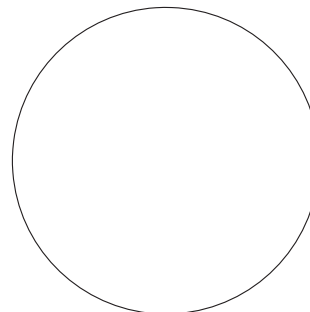

30mm Base

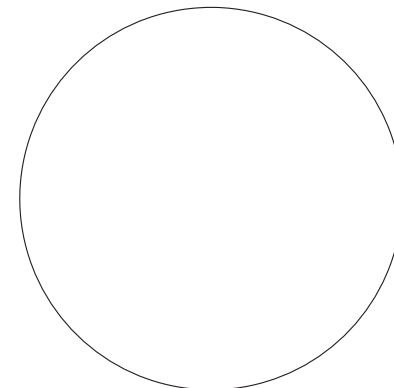

32mm Base

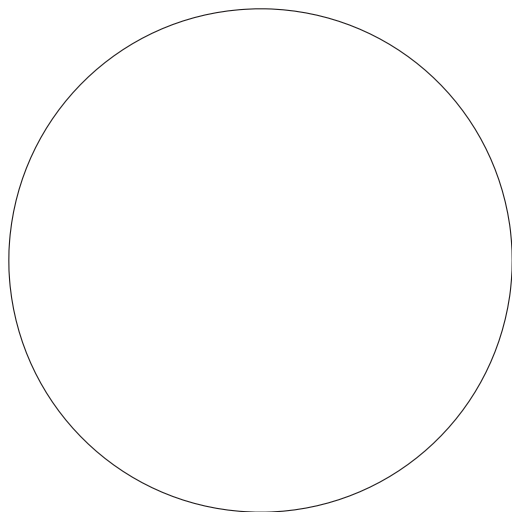

40mm Base

50mm Base

64mm Base

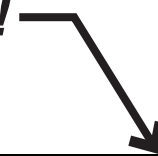

Bike Base

** If the base of your miniature obscures most of the black line, your miniature will be very snug, or not fit that slot at all. Either choose a larger slot size, or contact us for custom sized Layout Layer options.*

CHECK THE SCALE!!!
