Can you imagine how your home could integrate itself into your daily life? Click Smart+, Scolmore's leading smart home brand, has been created to simplify and streamline your home life via the use of integrated technology.

Click Smart+ boasts an elite range of smart home products. Utilising Zigbee technology & WIFI to offer smart home solutions to new and existing wiring installations.

The possibilities of Click Smart+ are endless, but the set up – whether with WIFI or with Zigbee – is simple when using our Click Smart+ app.

Get to know us

At Click Smart+ we create simple, beautiful smart solutions for a safer and more comfortable home. We have many products to meet all your household needs.

Discover a whole range of smart home products. From smart sockets, cameras, sensors and receivers, all working together to make your home smarter.

The installation of Click Smart+ is simple & flexible, no additional cables or wall cutting is needed making it ideal for installation within existing or newly constructed buildings.

Each smart product comes with easy to follow installation guides which are also accessible through the new Click Smart+ app.

Make your home smarter, more comfortable and safer with any of our smart products. Why not get creative and take control of your home?

 **Look out for the Click Smart+ icon...**

Products with this icon are compatible across the whole Click Smart+ range.

Get smart with Zigbee

Every Zigbee device can send and receive data from other Zigbee devices. This means you can daisy chain smart devices and link them to a central hub, even when some of these devices are out of (direct) range of that hub.

Zigbee increases flexibility for users and developers, delivering the confidence that products and services will work together through standardisation and testing.

A mesh network/daisy chain is when a network connection is spread out among wireless nodes that can communicate with each other and share a network across a large area.

Zigbee's ability to support mesh networking means it can boost data transmission range and provide greater stability (even when a single connected node fails and doesn't work).

Get Creative

Automate your home with the Click Smart+ app.

'Tap to Run' Smart Scenes

Tap-to-run also known as 'Scenes' enables you to run multiple devices with a single tap of a button (within the Click Smart+ app). Think of this as one switch for a group of products.

For example you can create a Tap-to-run called 'Good Evening' which turns all your smart products on at once, instead of manually tapping each product within the app. Tap-to-runs can also control delay timings.

To control your Click Smart+ products through voice control you must have an Amazon Alexa speaker or a Google Home Speaker set up in your home and connected to the Click Smart+ app.

'Automation' Smart Scenes

Automations control your devices automatically when a condition is changed.

For example, you could programme a PIR detector with a switching receiver. When the PIR detector senses movement the automation (set up in the Click Smart+ app) can tell the switching receiver to turn 'ON' automatically.

Automations also allow you to set up timing Schedules for a group or singular smart products.

To control your Click Smart+ products through voice control you must have an Amazon Alexa speaker or a Google Home Speaker set up in your home and connected to the Click Smart+ app.

Stay Connected

Access your smart devices wherever you are and control them with Google or Alexa.

Control wherever you are

Peace of mind away from home. Easily check and change the status of your Click Smart+ devices wherever you are.

Hey Google!

Connect Click Smart+ to your existing Google Home devices. Just search for Click Smart+ in the Google Home app.

Alexa...

Have an Amazon smart speaker? Link your Click Smart+ devices in the Alexa app.

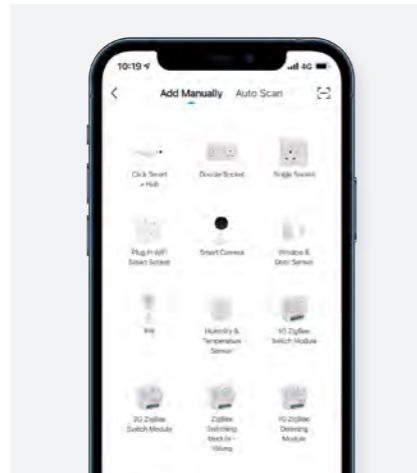

Start smart

Click Smart+ Hub – Set up Guide.

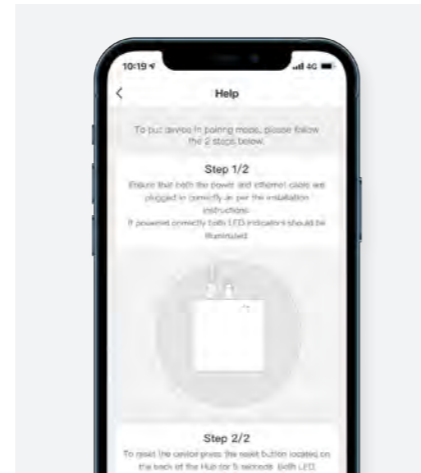

Click Smart+ App

Search and download the Click Smart+ app on ios or android devices. You will need the app to add, control and link all of your Click Smart+ devices.

Adding the Hub

Once you are in the Click Smart+ app press the '+' icon and choose the Smart Hub, or use the auto scan feature to automatically detect your device.

Complete Set Up

Once the app has found the Smart Hub simply follow the on screen instructions.

See your home, away from home

Click Smart+ Camera – Set up Guide.

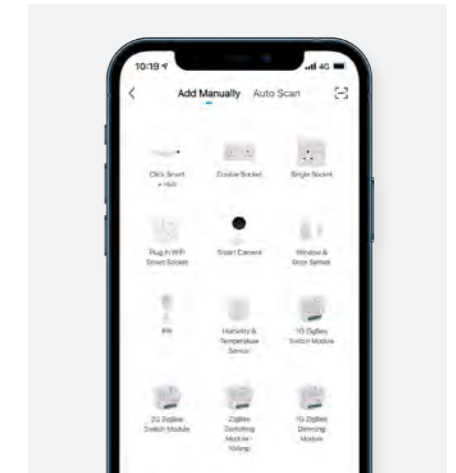

Power Up!

After finding your perfect location, simply plug in your camera to a standard UK socket outlet.

Pairing Mode

You should now see a solid red LED light, after 10 seconds you should hear a chime & see a flashing LED light. You are now in pairing mode.

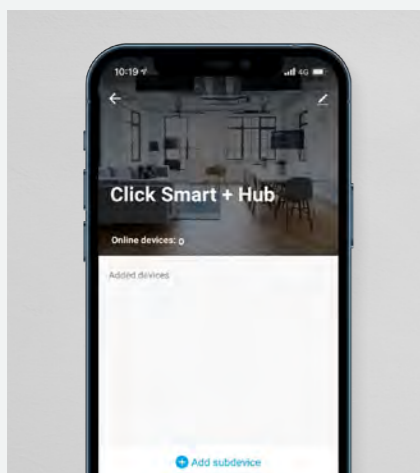

Complete Set Up

Open the Click Smart+ app and press the '+' icon and choose the Smart Camera. Then simply follow the on screen instructions.

Your home, your way

Click Smart+ Zigbee Products – Set up Guide.

Click Smart+ Hub

Before setting up any Click Smart+ Zigbee supported products, please make sure you have set up your Smart Hub.

Installing

Once you have finished your installation, your Click Smart+ Zigbee supported product will automatically enter pairing mode.

Complete Set Up

Open the Click Smart+ app press the '+' icon and choose the correct product, or use the auto scan feature to automatically detect your device.

A smarter switch

Switching & Dimming Receivers – Set up Guide.

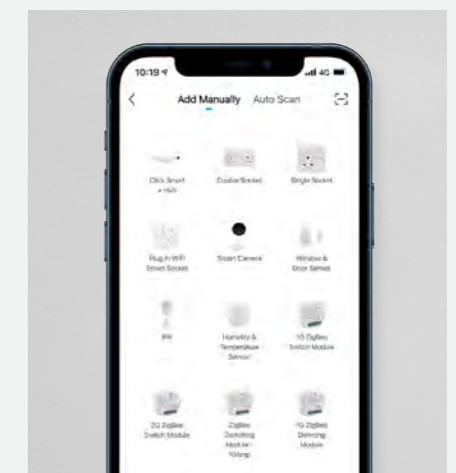

Dimming Receiver

Install the receiver as per the provided instructions. With the light switch off, press the retractive switch down and hold for 10 seconds. The LED light on the receiver will flash. You are now in pairing mode.

Switching Receiver

Once wired up, flick the switch on & off 5 times until the light no longer turns on or off. You will also be able to see a flashing LED on the receiver. You are now in pairing mode.

Complete Set Up

Open the Click Smart+ app press the '+' icon and choose the correct receiver, or use the auto scan feature to automatically detect your device.

Smart Hub, the heart of your smart home.

Smart Hub wired to a home WiFi router.

Getting Technical

Smart Gateway Hub

The Smart Hub is the control centre of all devices within a smart home. It communicates with all other smart devices within the home via the Zigbee Protocol.

Even if the home's WiFi is unstable or interrupted smart devices will still be able to function normally.

Product Information	
Working Voltage	1.8-3.3V
Operational Temperature	-10°C to +55°C
Working Humidity	10%-90%RH (Non-condensing)
Protocol	Zigbee
Wireless Technology	WiFi 801.11 b/g/n
Signal Frequency	400MHz
Ingress Protection	IP20
Status LED Colour	Green
Product Dimensions	90mm (L) x 90mm (W) x 23mm (D)
Product Warranty	1 Year
Product Standards	
BS EN 60950-1 / BS EN 55035 / BS EN 61000-3-2 / BS EN 61000-3-3 / BS EN 62311	

13A 2 Gang Zigbee Smart Switched Socket Outlet

With the smart socket you can plug in home appliances like lamps, TV, heaters, fans etc.

Simply turn them on or off manually with your voice, smart device with the Click Smart+ App or with an automation, timer or schedule.

Product Information	
Load Rating	13A
Maximum Voltage	240V~ 50Hz
Standby Current	4mA
Protocol	Zigbee
Wireless Range	Up To 160 metres (Open Air)
Signal Frequency	2.4GHz
Terminal Size	5.7mm x 4.8mm
Terminal Capacity	3 x 2.5mm ² or 2 x 4mm ²
Single Pole	Yes
Operational Temperature	-5°C to +40°C
Ingress Protection	IP20
Status LED Colour	White & Orange
Product Standards	
BS 1363-2 / BS EN 61000-6-1 / BS EN 61000-6-3 / BS EN 60669-2-1 in conjunction with BS EN 60669-1	

Click Smart+ app
for ios & android

13A 1 Gang Zigbee Smart Switched Socket Outlet

With the smart socket you can plug in home appliances like lamps, TV, heaters, fans etc.

Simply turn them on and off manually, with your voice, smart device with the Click Smart+ App or with an automation, timer or schedule.

Product Information	
Load Rating	13A
Maximum Voltage	240V~ 50Hz
Standby Current	4mA
Protocol	Zigbee
Wireless Range	Up To 160 metres (Open Air)
Signal Frequency	2.4GHz
Terminal Size	5.7mm x 4.8mm
Terminal Capacity	3 x 2.5mm ² or 2 x 4mm ²
Single Pole	Yes
Operational Temperature	-5°C to +40°C
Ingress Protection	IP20
Status LED Colour	White & Orange
Product Standards	
BS 1363-2 / BS EN 61000-6-1 / BS EN 61000-6-3 / BS EN 60669-2-1 in conjunction with BS EN 60669-1	

13A Smart Plug-in WIFI Socket

With the smart plug, you can plug in home appliances like toasters, electric kettles, lamps etc.

Simply turn them on or off manually with your voice, mobile phone or an automation. It can be controlled through existing WIFI network via the Click Smart+ app.

Product Information	
Current Rating	13A (2990W)
Working Voltage	230V~ 50/60Hz
Standby Current	<100mA
Protocol	WIFI
Signal Frequency	2.4GHz
Operational Temperature	-20°C to +40°C
Ingress Protection	IP20
Status LED Colour	Blue
Product Dimensions	57mm (W) x 57mm (H) x 65mm (D)
Product Warranty	2 Years
Product Standards	
BS 1363-3 / BS EN 55035 / BS EN 61000-3-2 & BS EN 61000-3-3 / BS EN 301489-1 & BS EN 301489-17 / BS EN 62311	

Getting Technical

Smart Camera

Plug and play smart camera. Simply place or mount using the self adhesive pad included. Install micro SD card and record playback.

When an object or person moves in the detection field the app sends an alarm and captures images in real time.

Additional settings can be added via the app to activate smart receivers controlling lighting and other connected devices.

Product Information	
Current Rating	1A
Working Voltage	5V DC
Resolution	1080p
Field Angle	114° (Diagonal)
Aperture	F2.0 (Fixed)
Lens Zoom	2.8mm
Protocol	WIFI
Signal Frequency	2.412 to 2.4835GHz
Working Humidity	≤95%
Operational Temperature	-10°C to +45°C
Ingress Protection	IP20
Status LED Colour	Red / Green
Product Standards	
BS EN 60950-1 / BS EN 55035 / BS EN 61000-3-2 / BS EN 61000-3-3 / BS EN 62311	

Smart PIR

The PIR senses motion as you get up in the night and automatically turns on a lamp when automated with the Smart Sockets or Smart Switching Receiver on the Click Smart+ app.

Product Information	
Working Voltage	3V DC
Battery Type	CR 2450 (Supplied)
Battery Lifetime	1 Year (Dependent On Use)
Sensor	Infrared
Detection Range	7 metre
Detection Angle	170°
Protocol	Zigbee
Signal Frequency	2.4GHz
Working Humidity	10%-90%RH
Operational Temperature	-10°C to +50°C
Ingress Protection	IP20
Status LED Colour	Blue
Product Standards

for ios & android

Smart Temperature & Humidity Sensor

Whenever the sensor identifies that your homes temperature or humidity is outside your defined zone of comfort, the heater, fan or other relevant devices that are plugged into your smart socket will automatically activate.

This ensures that your homes environment condition remains stable and comfortable.

Product Information	
Working Current	5mA (Average)
Working Voltage	3V DC
Standby Current	>3 uA
Battery Type	CR 2032 (Supplied)
Battery Lifetime	1 Year (Dependent On Use)
Protocol	Zigbee
Signal Frequency	2.4GHz
Measuring Accuracy	±3% (Temperature)
Working Humidity	0%-100%RH (Non-condensing)
Operational Temperature	-10°C to +50°C
Ingress Protection	IP20
Status LED Colour	Blue
Product Standards	
BS EN 60950-1 / BS EN 55035 / BS EN 61000-3-2 / BS EN 61000-3-3 / BS EN 62311	

Product Information	
Working Current	5mA (Average)
Working Voltage	3V DC
Standby Current	>3 uA
Battery Type	CR 2032 (Supplied)
Battery Lifetime	1 Year (Dependent On Use)
Protocol	Zigbee
Activation Distance	10mm-20mm (Between Sensor & Magnet)
Signal Frequency	2.4GHz
Working Humidity	0%-95%RH (Non-condensing)
Operational Temperature	-10°C to +50°C
Ingress Protection	IP20
Status LED Colour	Blue
Product Standards	
BS EN 60950-1 / BS EN 55035 / BS EN 61000-3-2 / BS EN 61000-3-3 / BS EN 62311	

Smart Window & Door Sensor

Install the Smart Window & Door Sensor to a main or back door.

Install a switching/dimming receiver to a light or switch and then set up automations on the Click Smart+ app.

Your lights will turn on automatically to greet you when you are back home or going in the garden at night.

Getting Technical

Smart Switching Receivers

Click Smart+ receivers control your lights and appliances from wherever you are.

All the receivers come supplied with a removable bracket. The bracket can be used to mount the receivers in a back box if installed directly behind the switch or at the light source.

The bracket also features a DIN rail clip, allowing the installer to directly install in the consumer unit.

Product Information			
Current Rating	100W LED	2 x 100W LED	250W (LED)
