

CONSOLE TABLE

OTTRA
BY ZIMMERMAN WORKSHOP

CONSOLE TABLE

Our console table can be customized to suit your desired function and space—from a few inches in depth for a narrow hallway, to just the right height for behind a sofa, to a generous depth to work as a sideboard. For shorter-length consoles (less than seven feet), we recommend adapting the base from our asymmetric bench to table height.

SIZE

17" deep × 96" wide × 30" tall (as shown here)

LEAD TIME

12–14 weeks

Ot/tra creates furniture for workplace, hospitality, and residential interiors. Established by the founders of Zimmerman Workshop Architecture + Design, it mirrors the firm's softened contemporary aesthetic, and its longtime commitments to technical rigor, meticulous detailing, and quality construction. All products are designed and handcrafted by our dedicated team in Brooklyn, New York. Please be in touch to schedule a viewing, discuss customization options, request finish samples, or for any further details.
