

# RESTRAP

A photograph of two cyclists riding away on a wet, paved road in a rural, hilly landscape. The cyclist on the left is wearing a black long-sleeved top, purple shorts, and a black helmet. The cyclist on the right is wearing a tan jacket, black shorts, and a black helmet. Both bikes have panniers. The road is wet and reflects the overcast sky. The background shows rolling hills and a stone wall on the left.

## WHO WE ARE

- 2010** Restrap launches with its first product the Diagonal pedal strap, handmade in the UK. The name Restrap is born as a reference to the straps being made from recycled seatbelt, which continues today.
- 2012** Restrap moves from a back bedroom to its first workshop and launches its first backpack (the Highrise) and first messenger bag (the Loader).
- 2014** Restrap introduces Fidlock buckles into the range and launches its innovative modular backpack system, the Unite.
- 2015** With a lot of time and development, Restrap launches the first iteration of the Carryeverything range, a rackless bag system for bikepacking and cycle touring. With another workshop move around the corner the team continues to grow.
- 2018** Restrap develops its Expedition range (including magnetic Rando Bag) and introduces tape sealing equipment, allowing them to take production of dry bags in-house. Restrap moved into a new 6500sqft workshop, expanding the range and capacity.
- 2019** Restrap launches the City range; bags designed purposely to work with the complicated design of folding bikes.
- 2020** Restrap launches the Adventure Race range aimed at ultra and endurance racers.
- 2021** The start of 2021 saw us move into our new factory on Kirkstall Road, Leeds with the addition of new tooling and machinery we continue to manufacture in-house and design and develop innovative luggage for the cycling industry.

## RESTRAP RANGES

### ADVENTURE RACE RANGE

Aimed at ultra distance riders, Restrap has pushed the boundaries of its design and manufacturing capabilities to produce the lightest complete race range yet, weighing less than 1kg in total.

### CARRY EVERYTHING RANGE

Touring made simple! Our saddle bags, frame bags and bar bags are all made from the highest grade, military waterproof material, with each one adaptable to any frame, any rider, and any load.

### EXPEDITION RANGE

Designed for racks and baskets, the expedition range is for long distance rides where a larger volume of luggage is required. Also includes our straps and dry bags.

### CITY RANGE

Speed across the city with our range especially for folding bikes. The Restrap City range makes carrying any essential items easy and practical. Waterproof and handmade in the UK.

**ADVENTURE RACE RANGE**

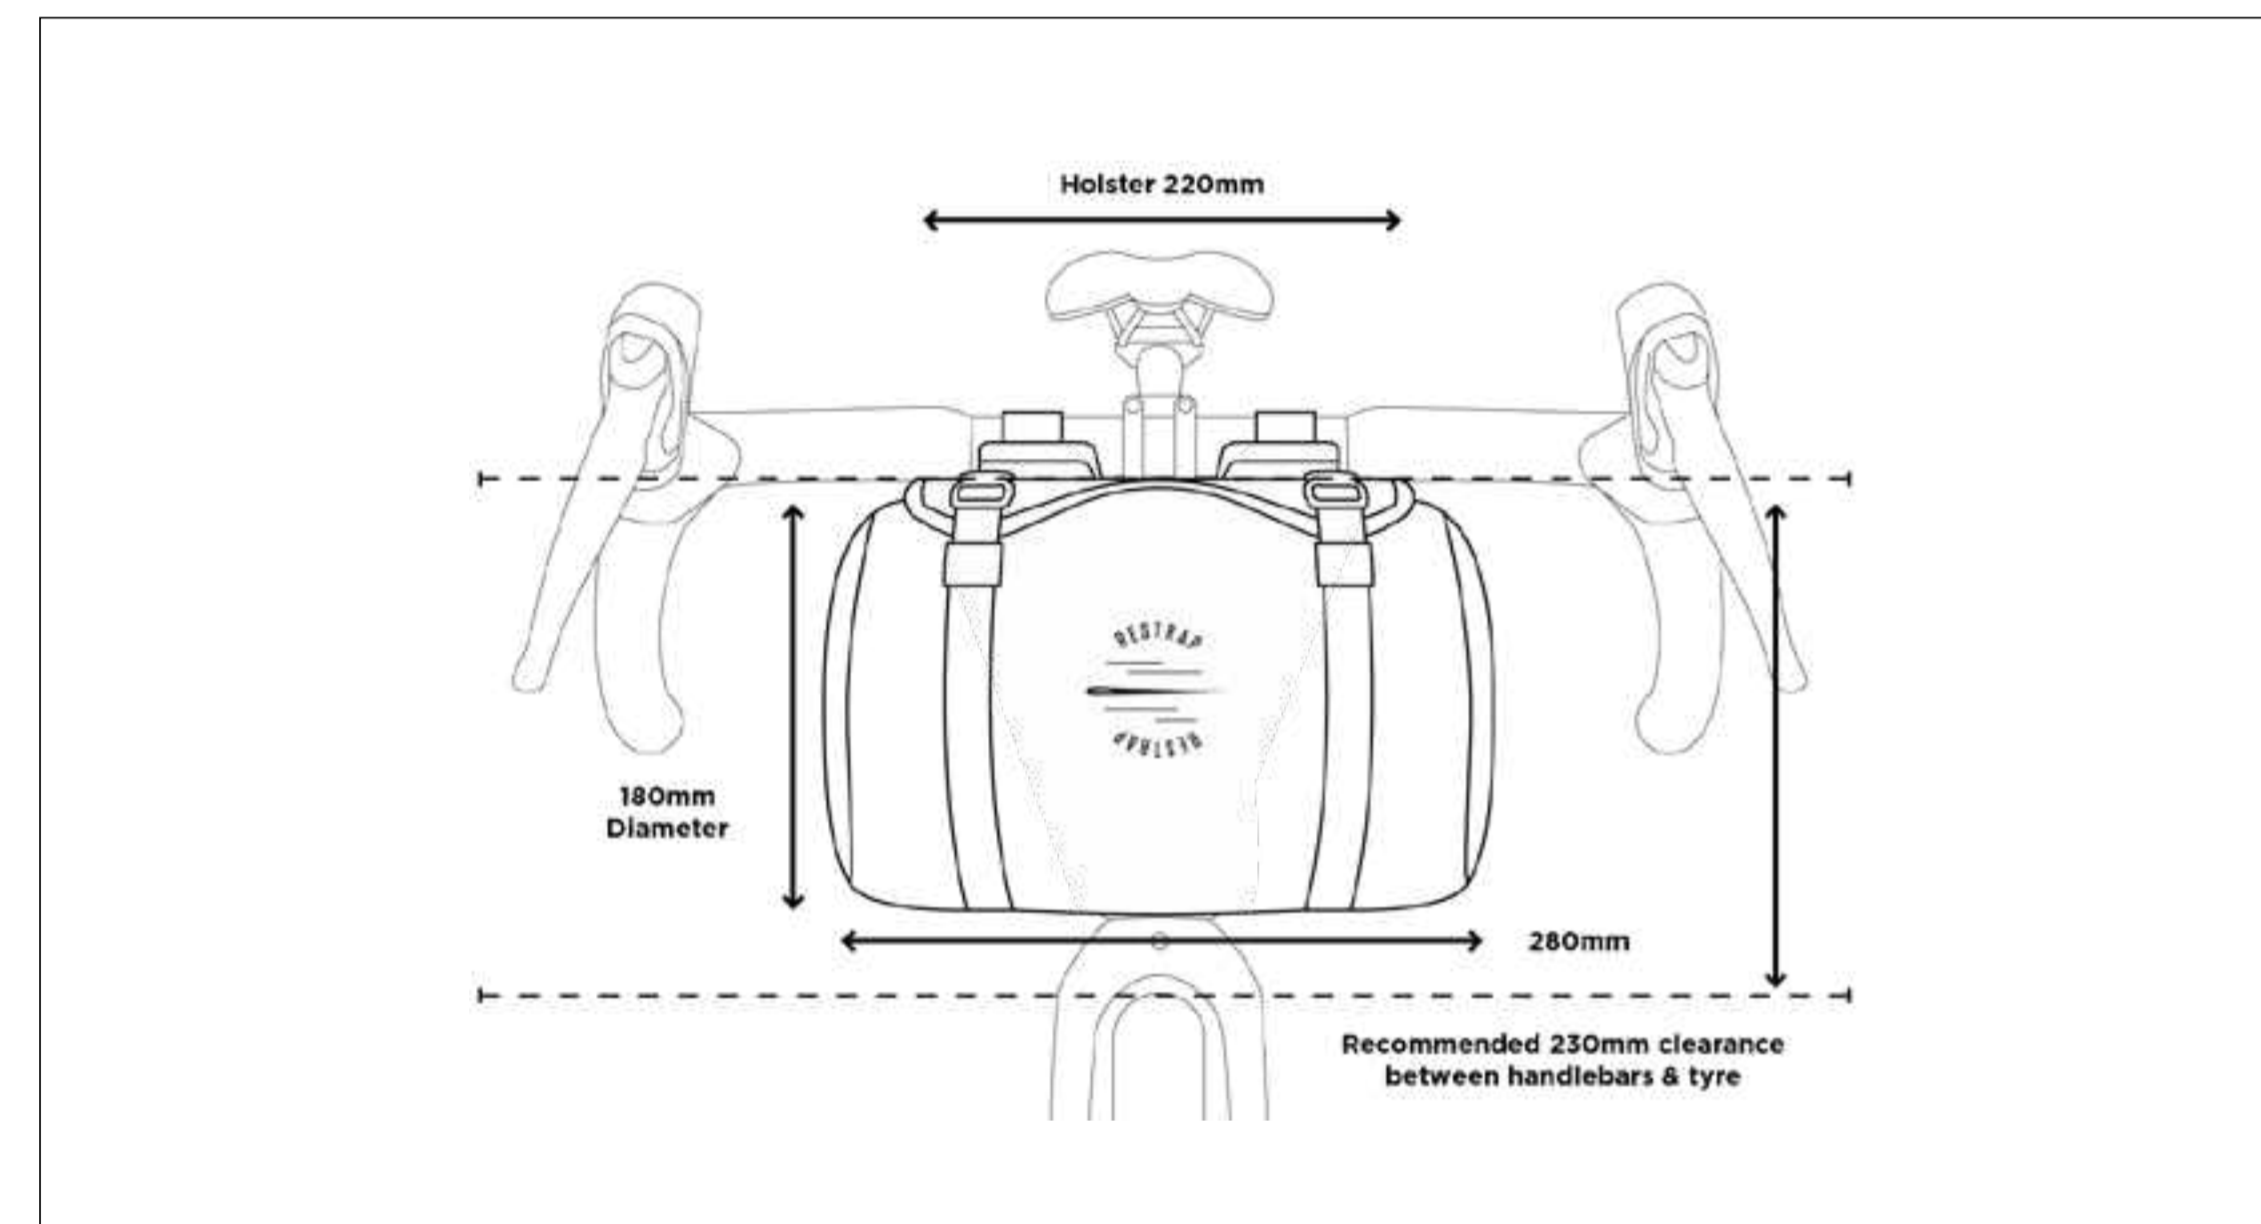

## RACE BAR BAG

Page 5

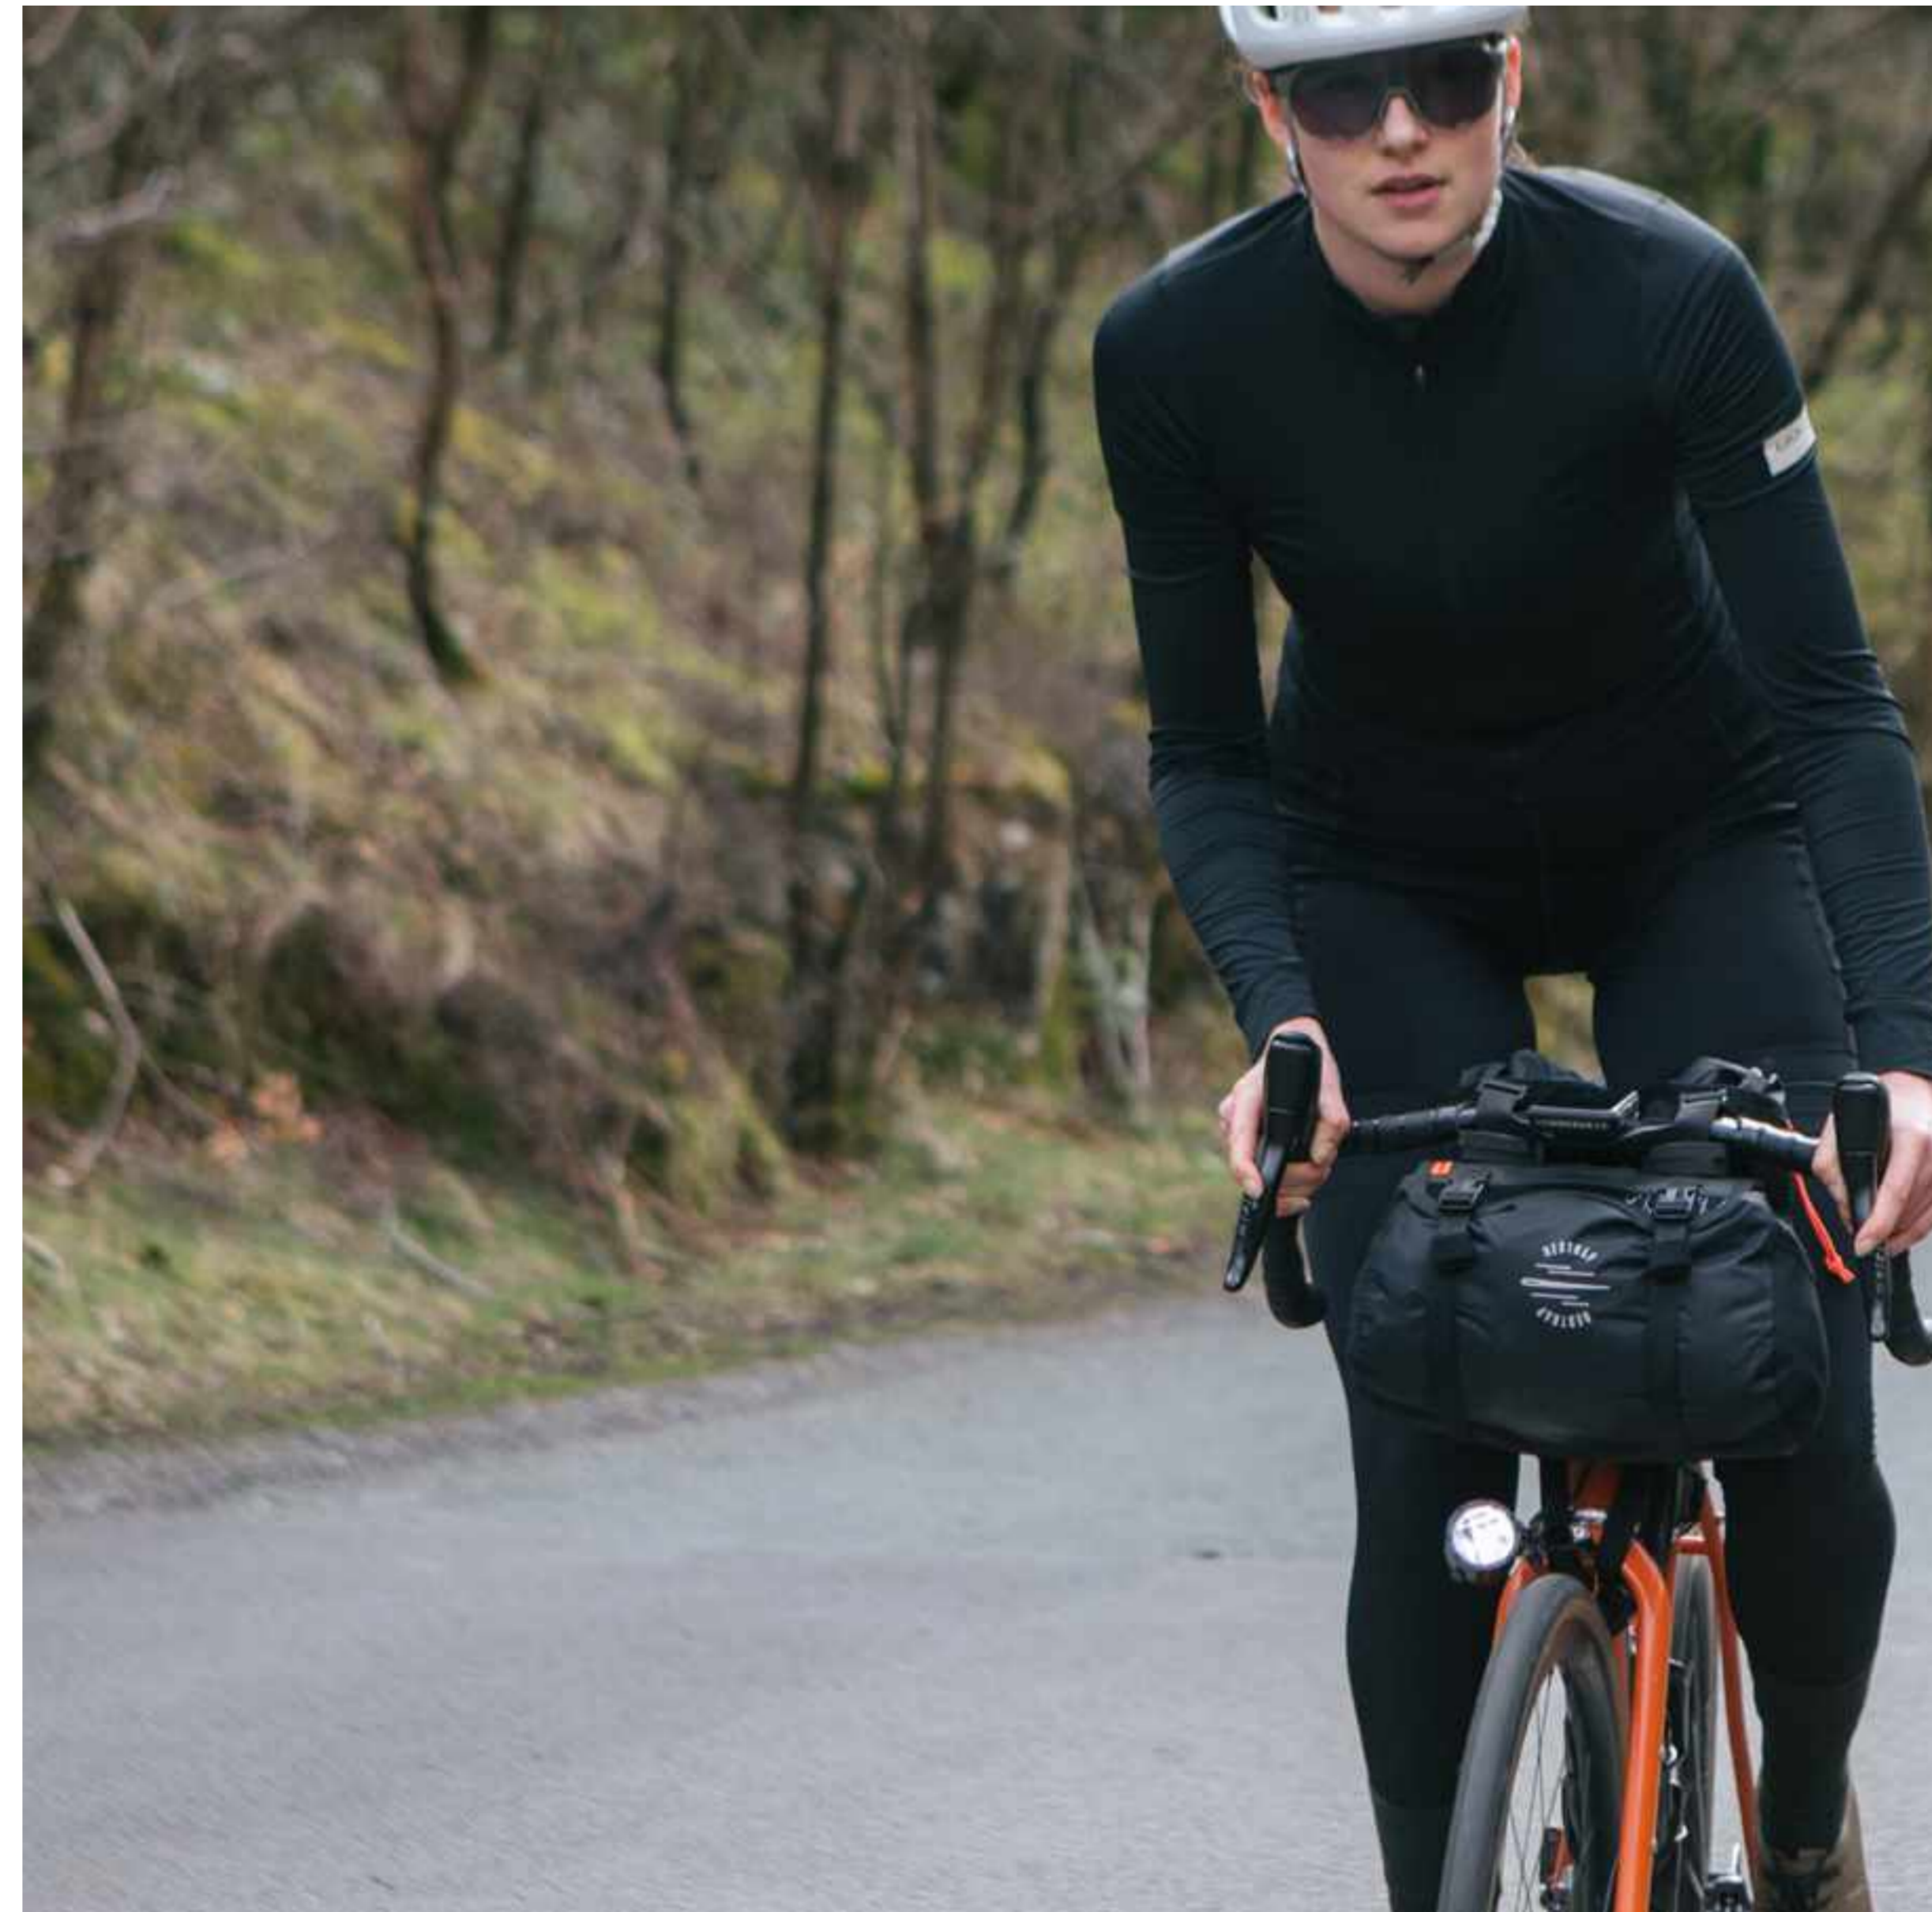

The Adventure Race Bar Bag is the ideal handlebar storage solution for ultra-distance riding, audaxes and races. The minimalist hardshell holster is constructed with a WX21 technical outer and durable nylon inner lining with Hypalon accents. The holster is shaped to optimise performance, whilst keeping weight to a minimum.

Foam spacers and spring-loaded cam locks provide an easy and reliable attachment to your handlebars, whilst a reflective elastic cord retention strap aids stability around the head tube. A 100% waterproof 7L Dry Pack has been designed specifically for the Race Bar Bag, featuring a roll-top closure, reflective detailing and stretch mesh side pockets that provide accessible storage for food, gloves and other essentials on the go.

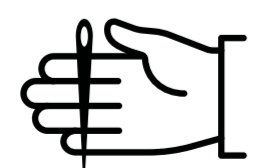

## TECHNICAL DETAILS

## RACE AERO BAR BAG

Page 6

The Adventure Race Aero Bar bag uses our unique laser cut holster design for ultra-distance events, audaxes and races when using aero bars. The holster has a dedicated 7.0L drybag which is front-loaded and easy to take on and off the bike.

The dry bag is 100% waterproof and secured with a Fidlock™ magnetic buckle that's easy to adjust, even whilst wearing gloves. Reflective detailing on the dry bag also aids visibility during night time riding. The holster is a hardshell construction with an X21 technical outer. It also includes laser cut Hypalon loops to make it fully adjustable for different aero bars, whilst its elastic cord allows storage between the bars for smaller items.

## RACE FRAME BAG - SMALL

Page 7

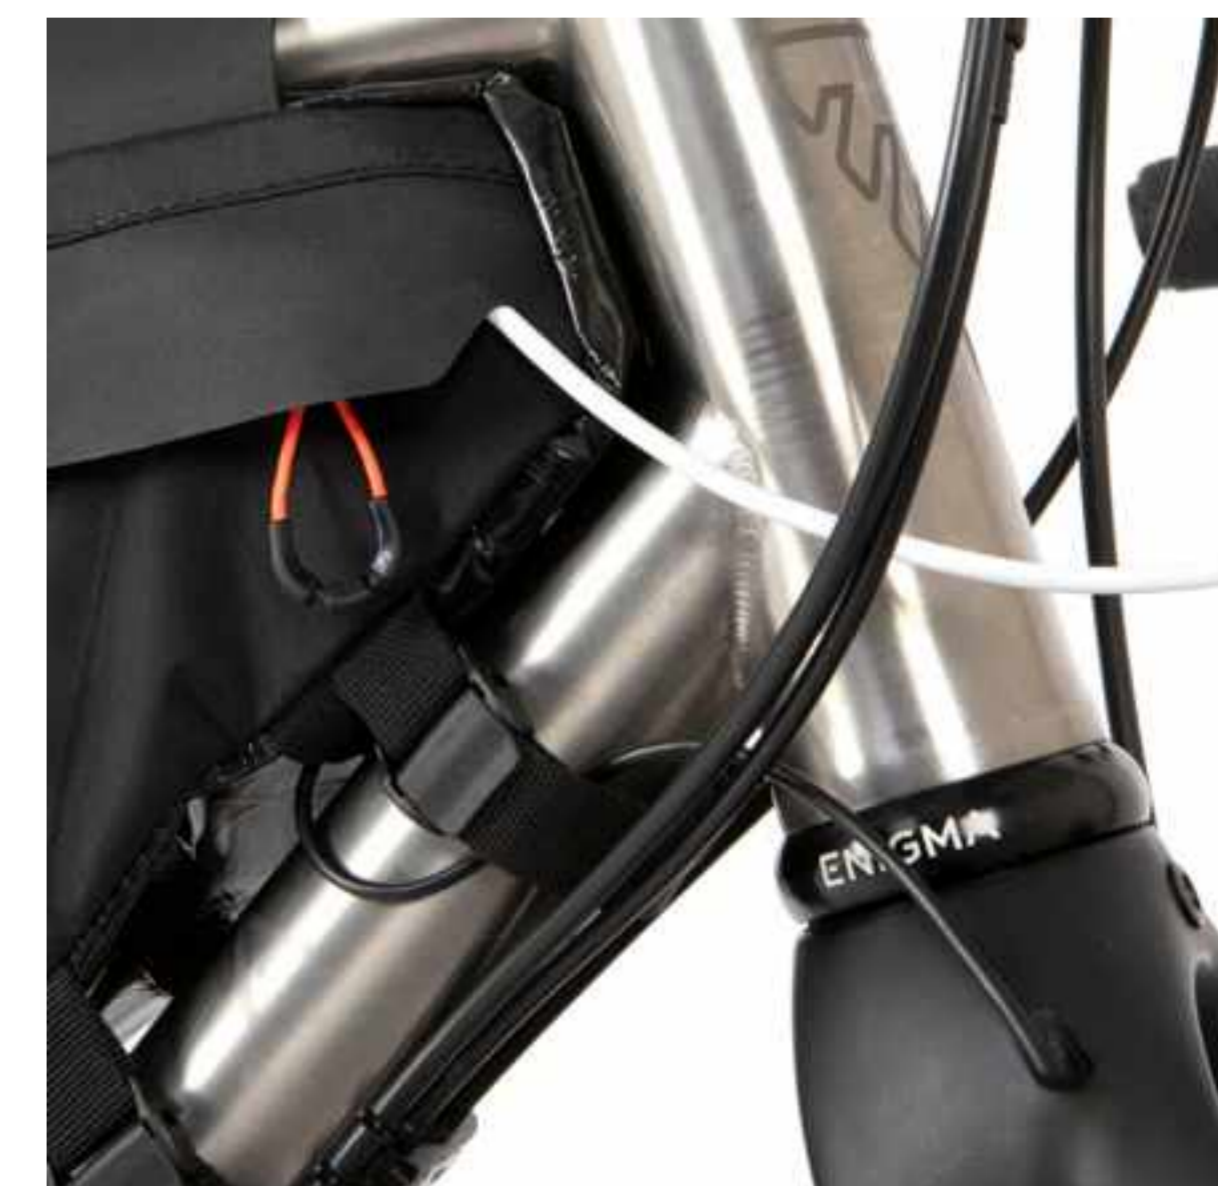

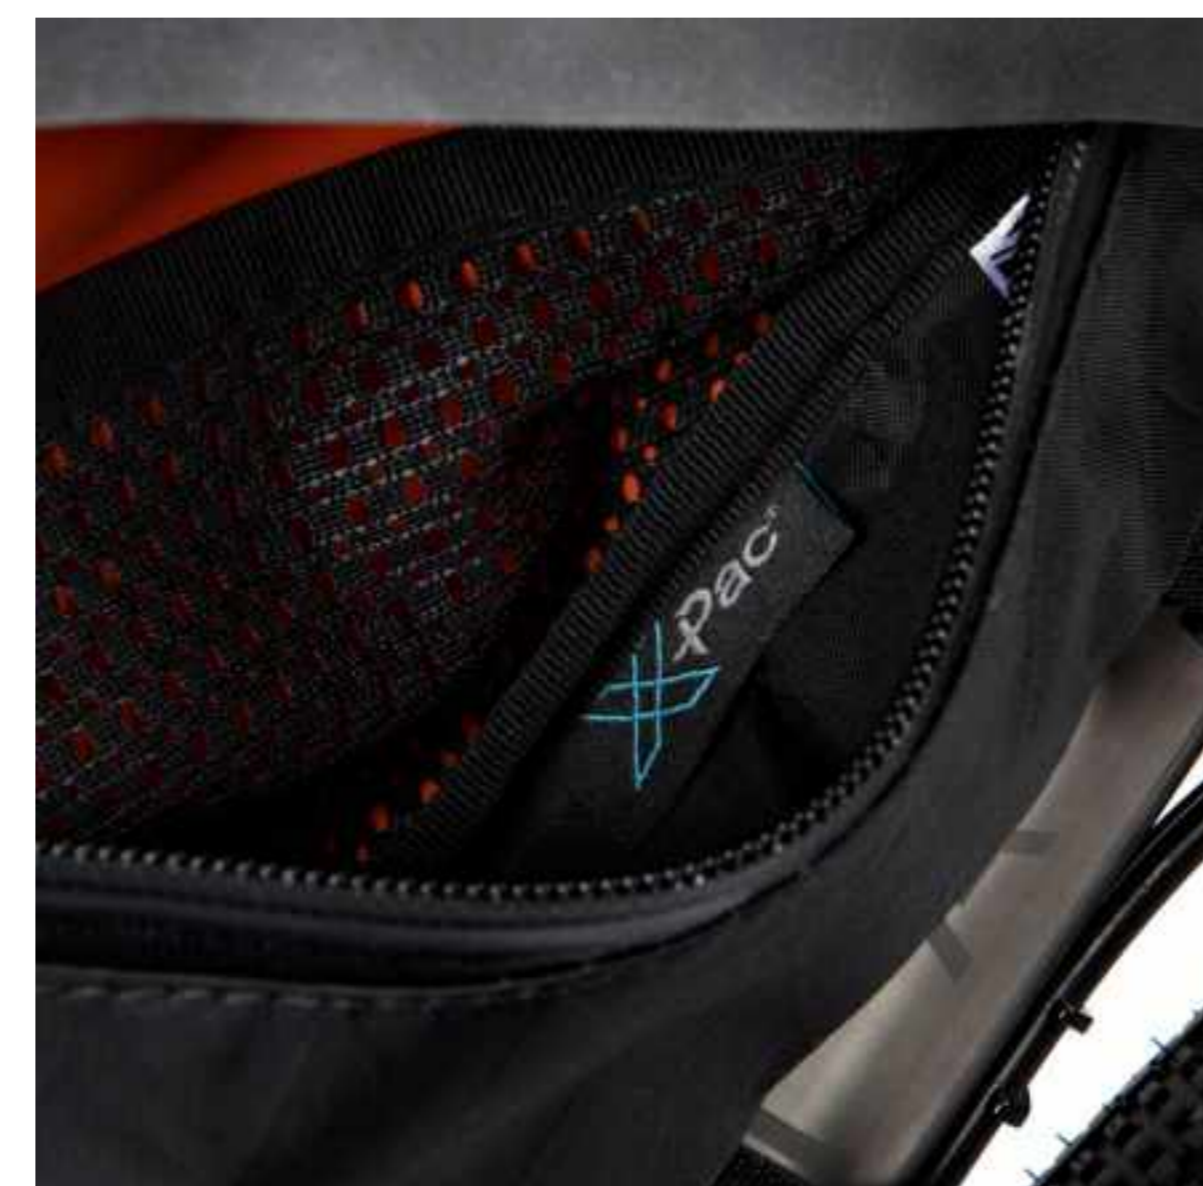

The Adventure Race Frame Bag is a durable and lightweight bag, ideal for ultra-distance racing and audax riding. Built to be practical and functional, an X21 technical waterproof outer, waterproof 6oz nylon inner lining and YKK aquaguard zips keep inclement weather at bay, whilst reflective detailing boosts visibility and safety when riding through the night.

A Hypalon pocket cover helps to shield the zips from downpours whilst a cut out towards the front of the bag allows for device cable routing to the front of the bike. Pockets on each side and internal velcro divider in the main pocket keep your essentials organised and easy to reach. An extra hidden cable slot is also provided at the front of the bag for dynamo and other device cables.

## RACE STEM BAG

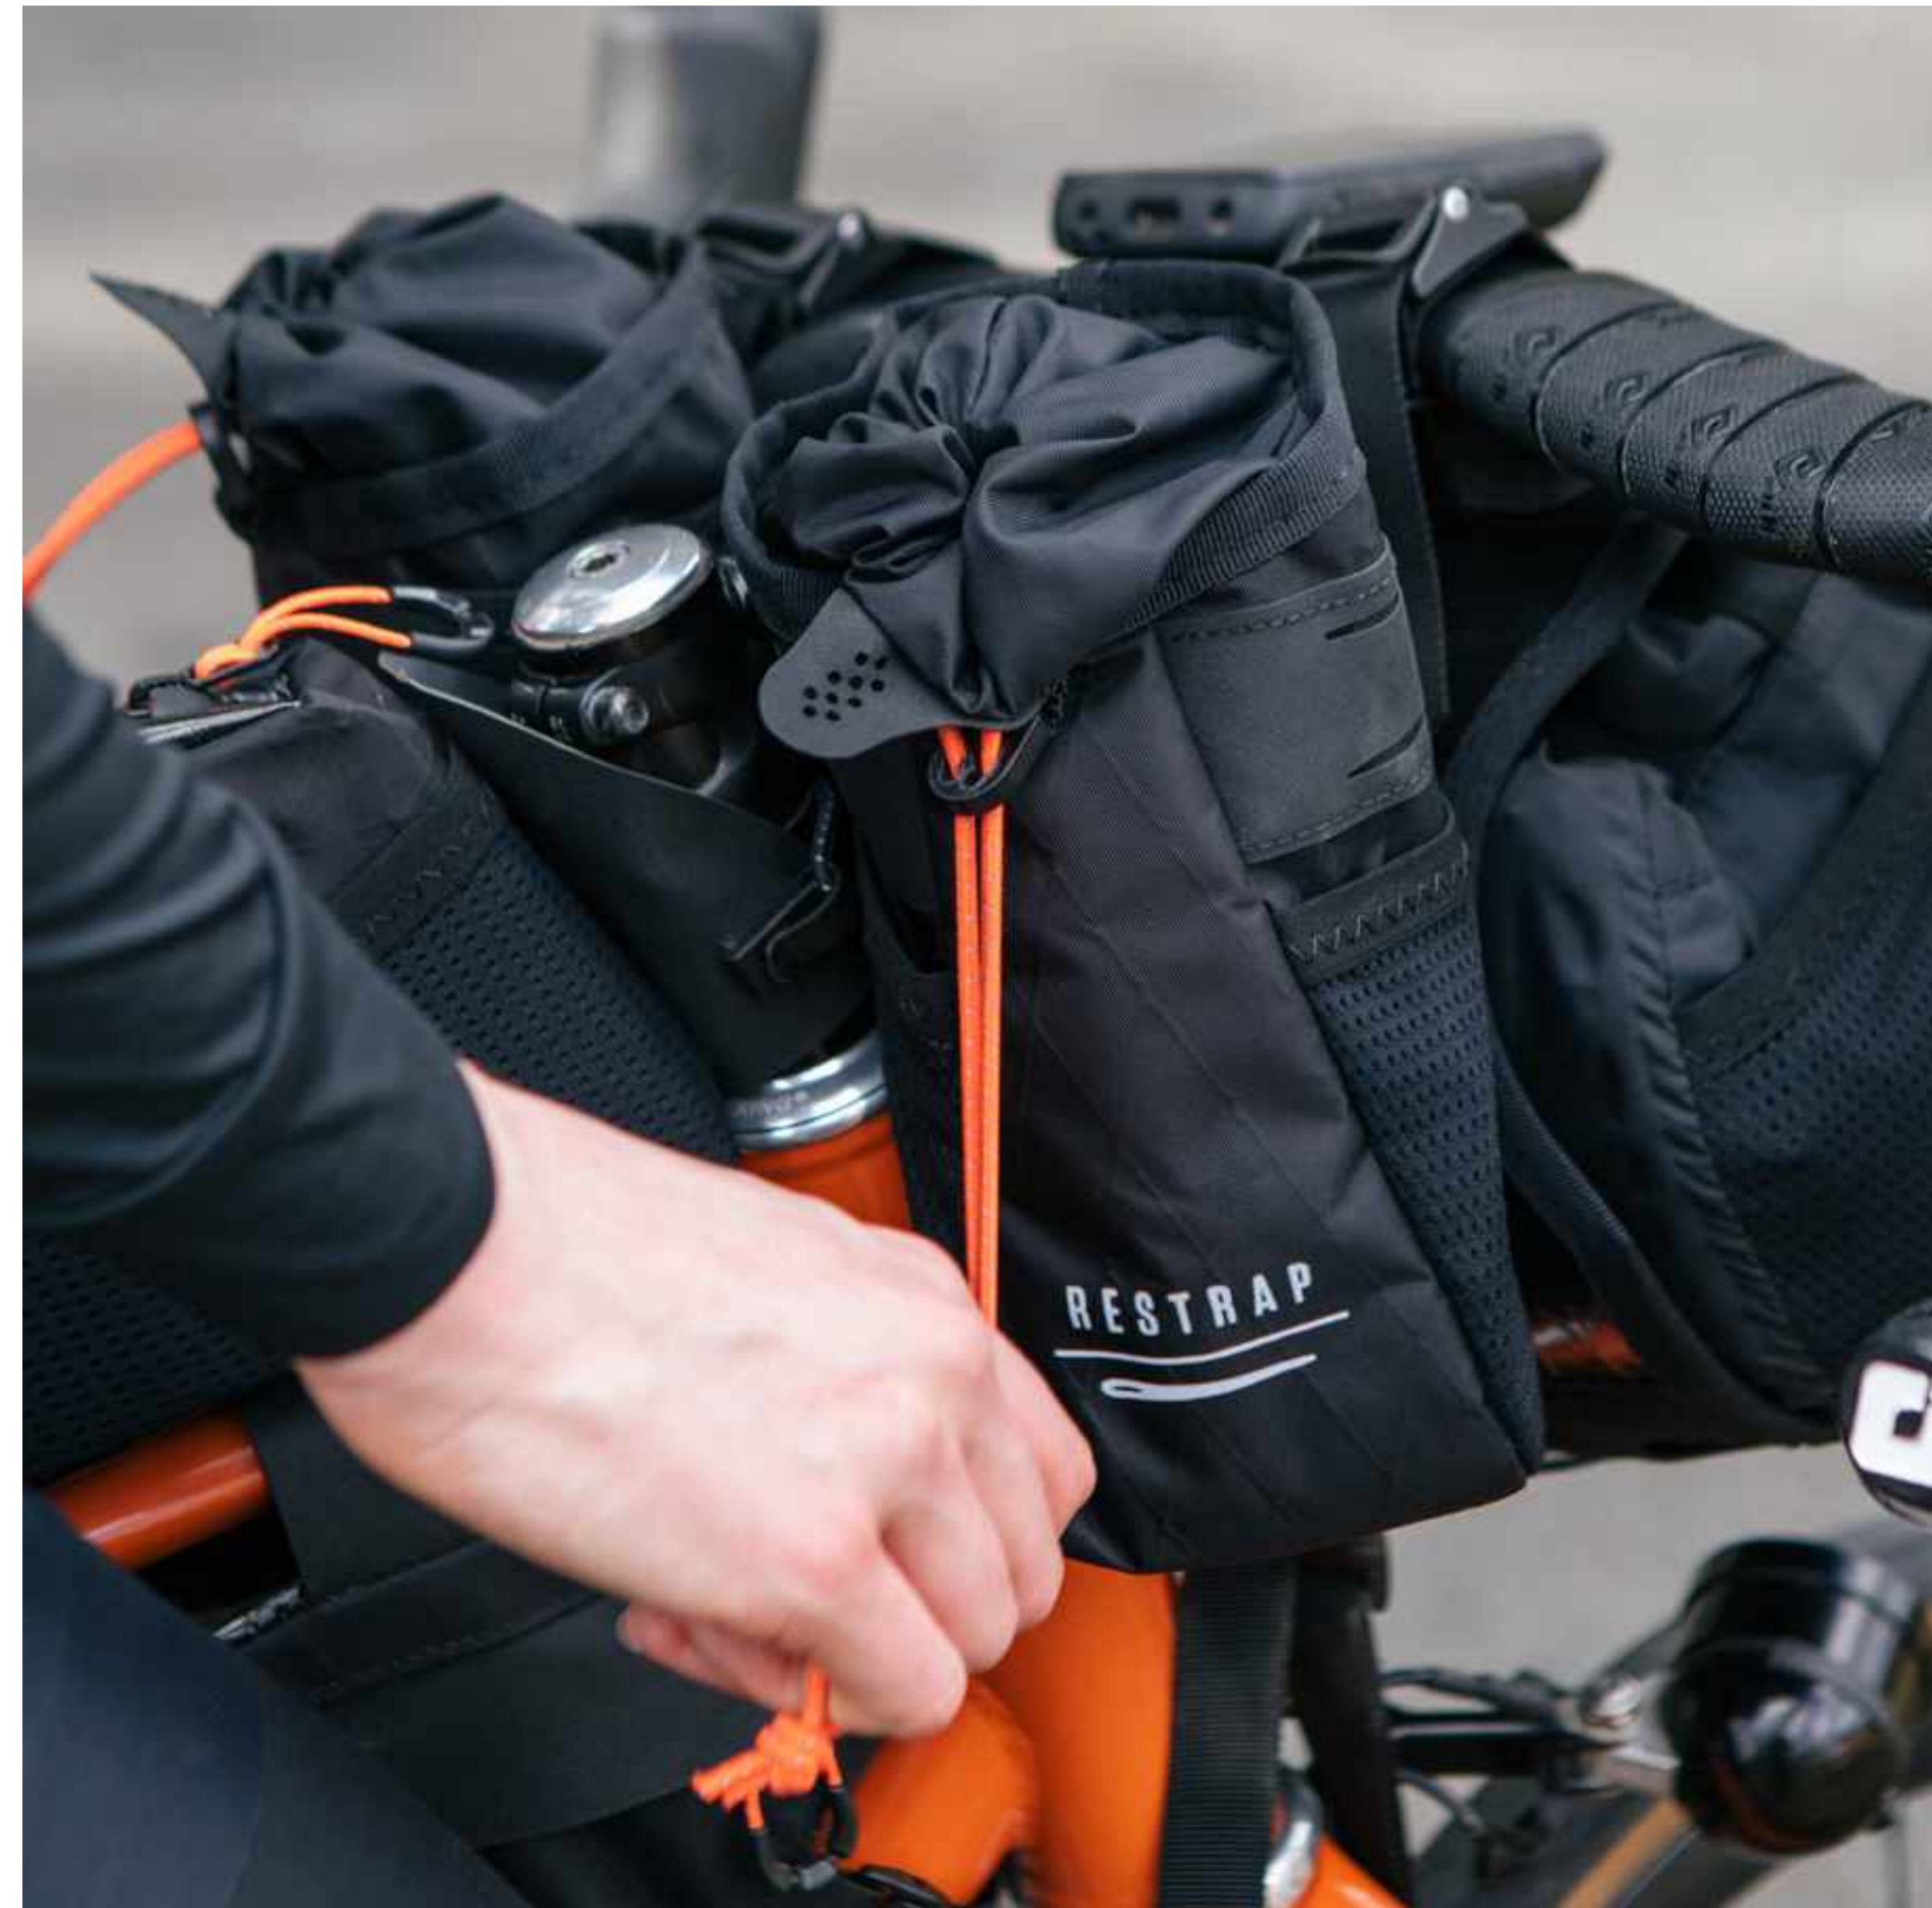

Page 9

The Adventure Race Stem Bag offers a highly adjustable and accessible storage solution for nutrition, tech, clothing and more. Multiple Hypalon MOLLE mounts and double sided velcro loops deliver a huge array of mounting possibilities. Our innovative, single pull drawcord closure, allows for effortless one-handed access into the bag when on the move. One upward pull on the Hypalon tab or shock cord opens or closes the bag respectively, whilst the internal stiffener aids easy access and helps the durable and waterproof VX21 outer hold its shape. Stretch mesh pockets offer additional external storage and an extendable nylon interior provides the option to boost the internal capacity when resupplying for the next leg of your journey. Both the shock cord and our signature Race Range heat-pressed logo are reflective, assisting visibility in low-light conditions and at night.

## RACE TOP TUBE BAG

Page 10

Durable and lightweight, the Adventure Race Top Tube Bag is designed with ultra-distance racing and audaxing in mind. An X21 technical waterproof outer, waterproof 6oz nylon inner lining and YKK aquaguard two-way zip keeps inclement weather at bay, whilst reflective detailing boosts visibility and safety when riding through the night.

Built to be practical and functional, the bag is held firmly in place with a rubberised velcro strap and an adjustable MOLLE hypalon fitting, which allows the bag to function seamlessly with all Restrap Frame Bags. A rigid internal plastic structure keeps the bag upright and stable and the universal headset fitting accommodates all headsets, including bikes with a low stack height. A stretch mesh side pocket provides storage for nutrition, wrappers and other on-the-fly essentials.

## RACE SADDLE BAG

Page 12

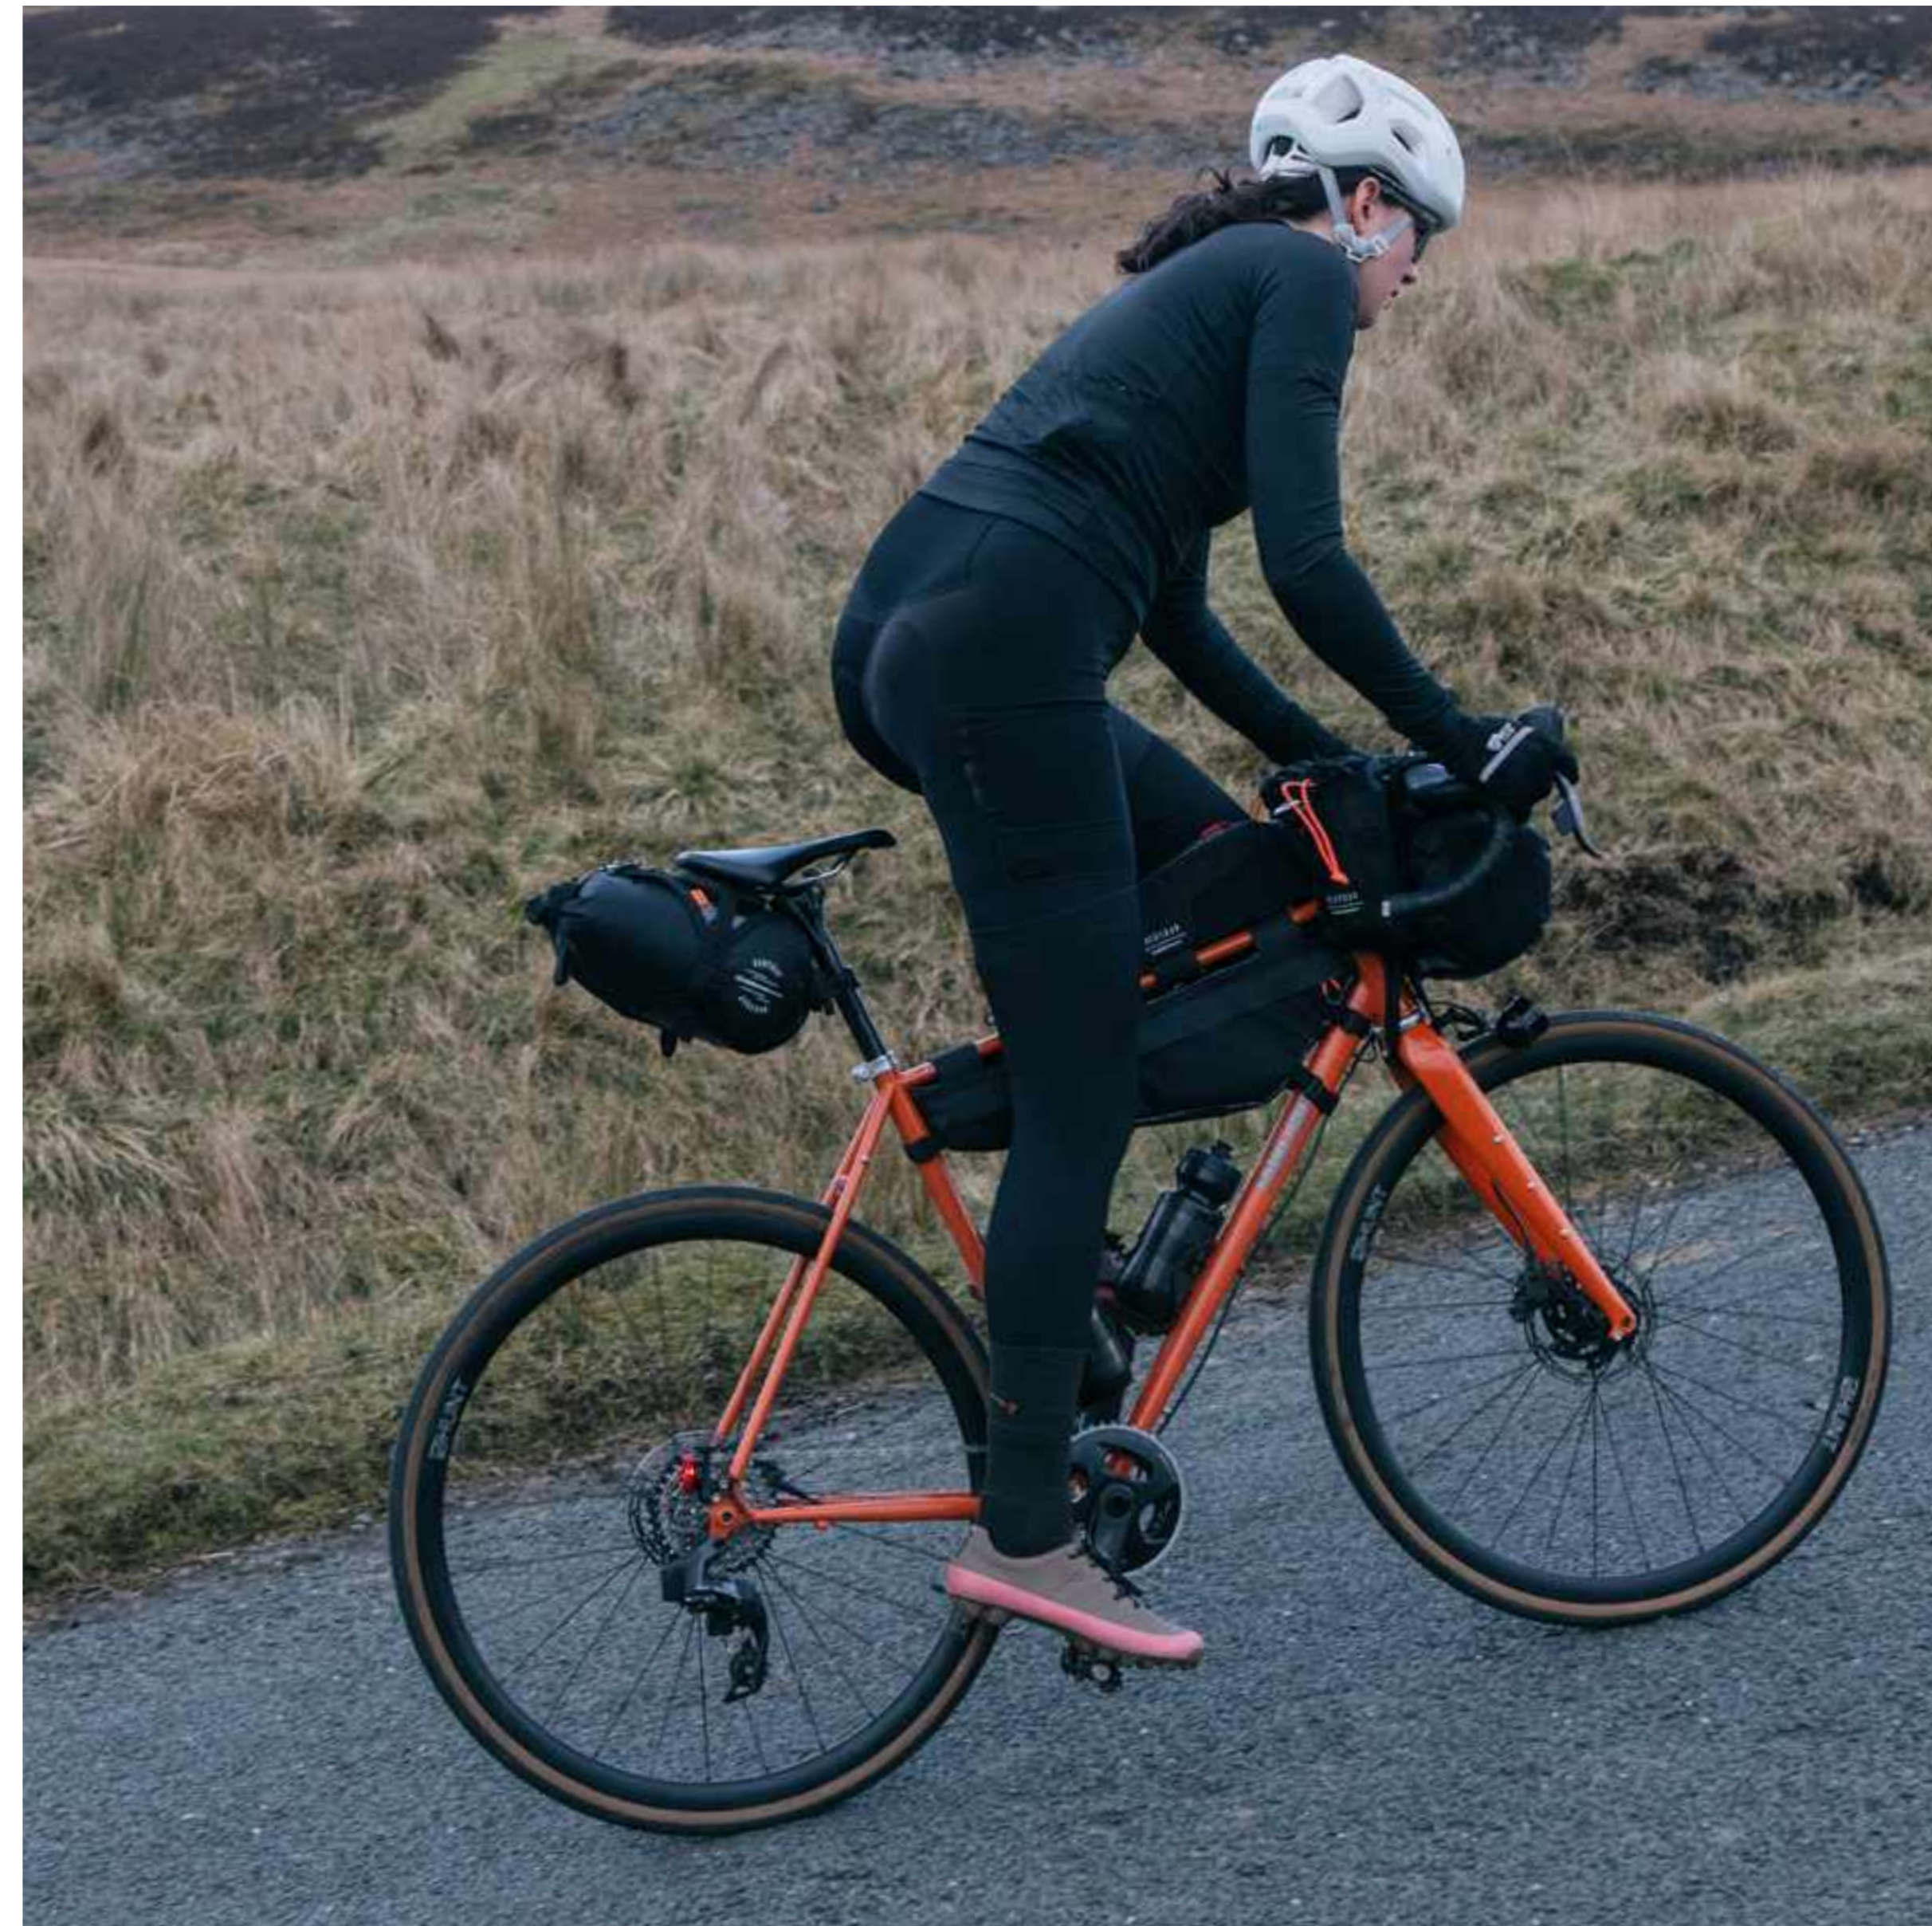

The Adventure Race Saddle Bag uses a laser-cut holster design and is built for ultra-distance riding, audaxes and races. The holster has a dedicated 7.0L drybag that is 100% waterproof and is secured with a Fidlock™ magnetic buckle that's easy to adjust, even whilst wearing gloves. Nylon webbing, Hypalon straps and foam blocks secure the holster around the seat post, keeping the bag securely in place without sway.

The holster is a hardshell construction with an X21 technical outer, and includes Hypalon MOLLE system for additional strapping whilst further Hypalon detailing aids durability and prevents scuffs and scratches. Reflective detailing on the dry bag adds visibility during night time riding.

## BAR BAG - SMALL

Page 16

Our Bar Bag is an ideal and hassle free luggage solution for bikepacking, touring or commuting on road, gravel and mountain bikes. With no rack, mounts or tools required, the bag attaches to any bike in seconds. Foam spacers and spring-loaded cam locks provide an easy and reliable attachment to your handlebars, whilst two lower retention straps wrap around the crown of the fork for added stability.

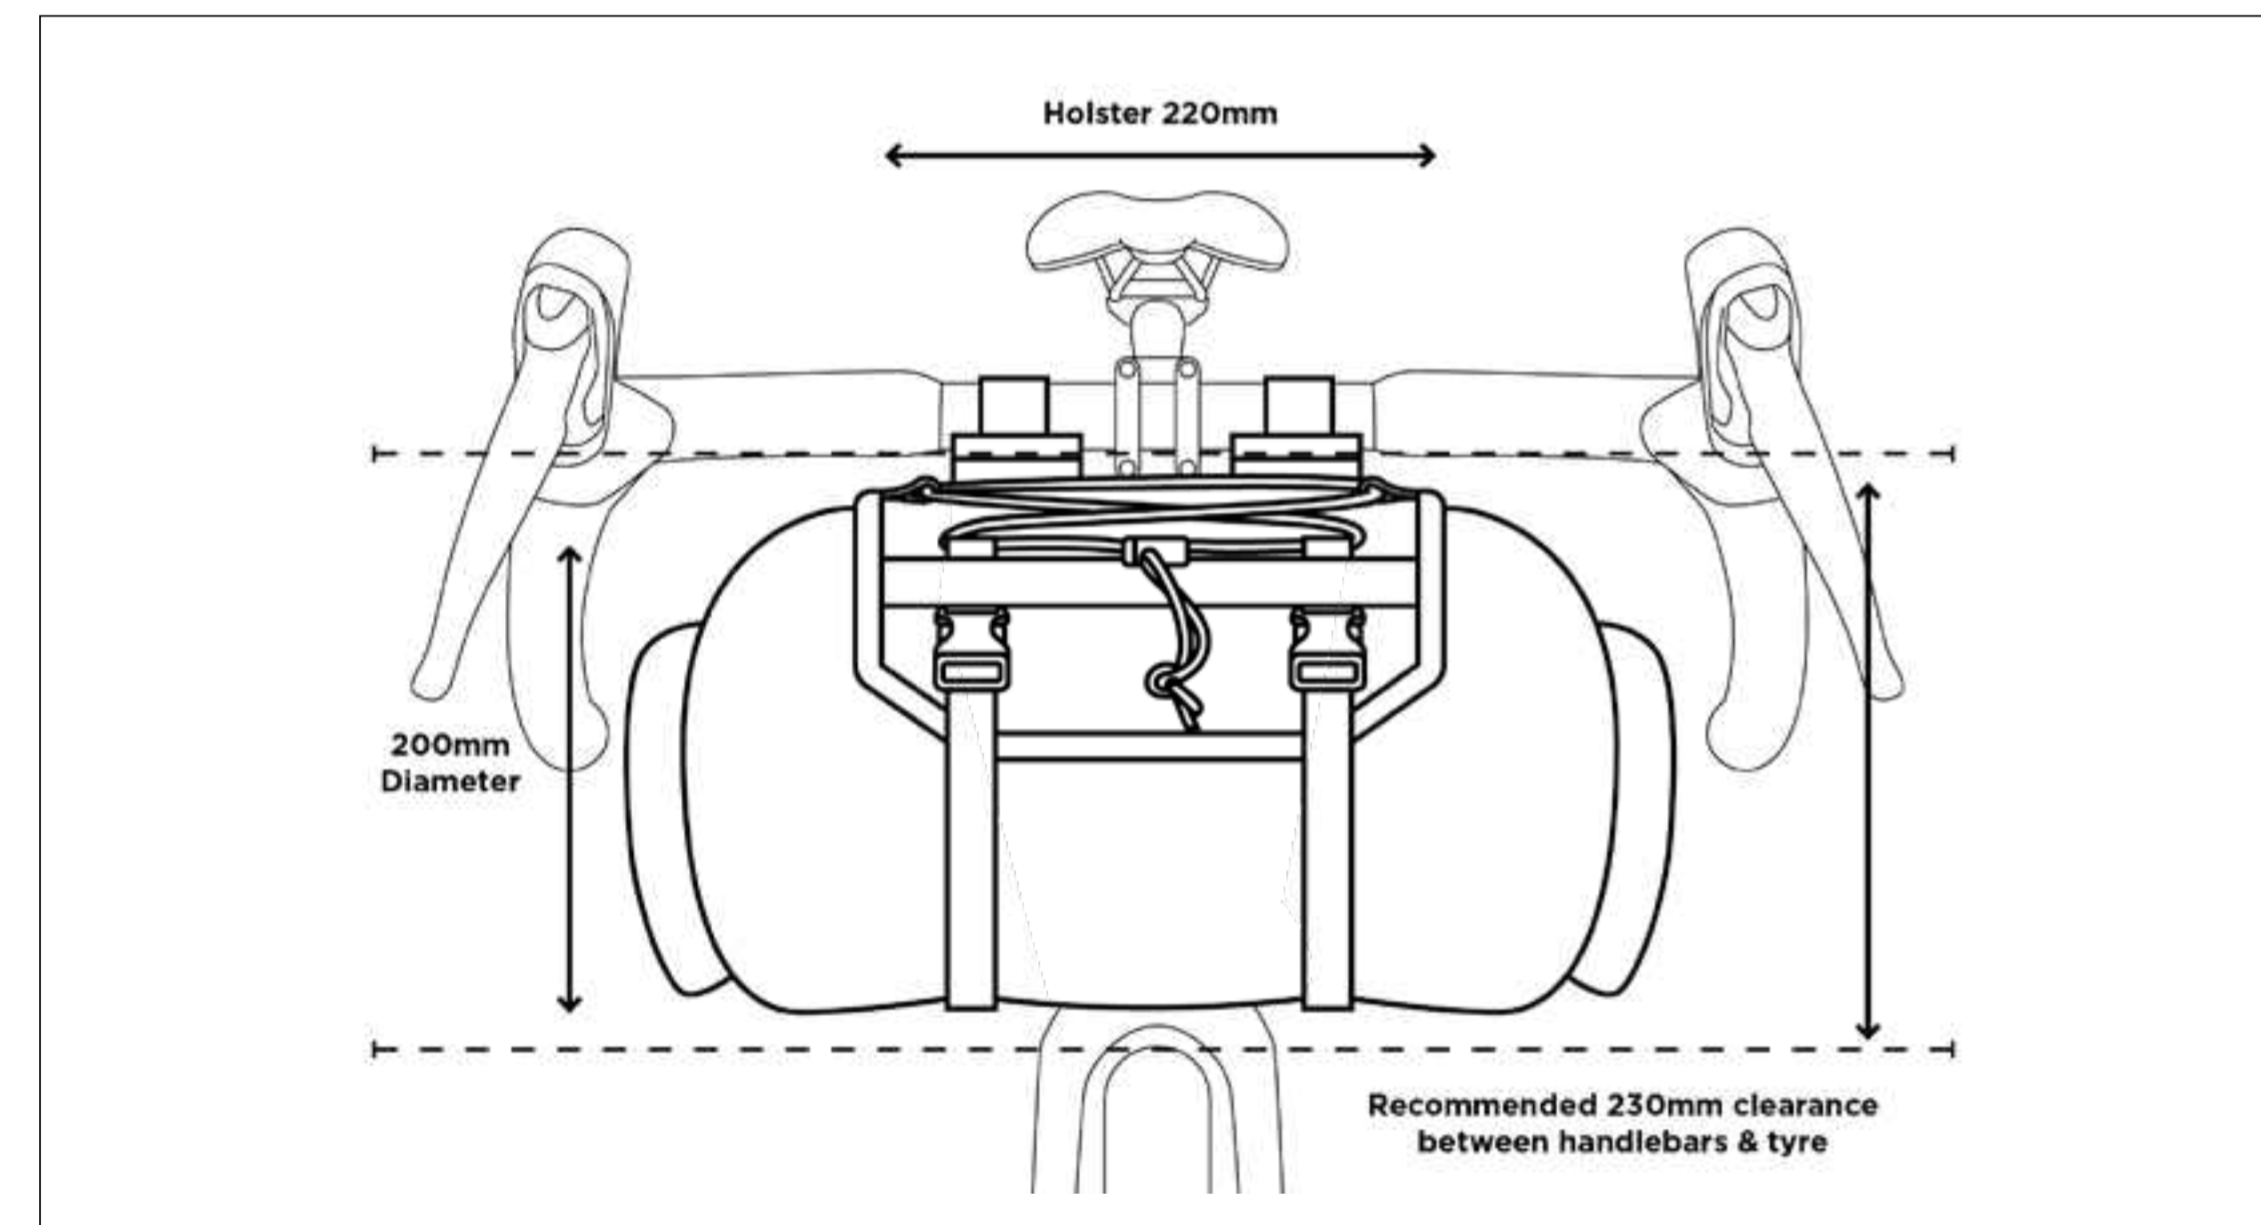

The 14L Double Roll Dry Bag is made of tape-sealed and waterproof coated 6oz nylon and elasticated shock cord on the front of the holster provides additional accessible storage for jackets, gloves and other accessories. The tough textured nylon holster and robust webbing straps mean that our Bar Bags can be depended on, no matter how demanding the terrain you're traversing.

Handmade in our Yorkshire workshop and finished with the classic vegan-friendly PU leather Restrap label.

## BAR PACK

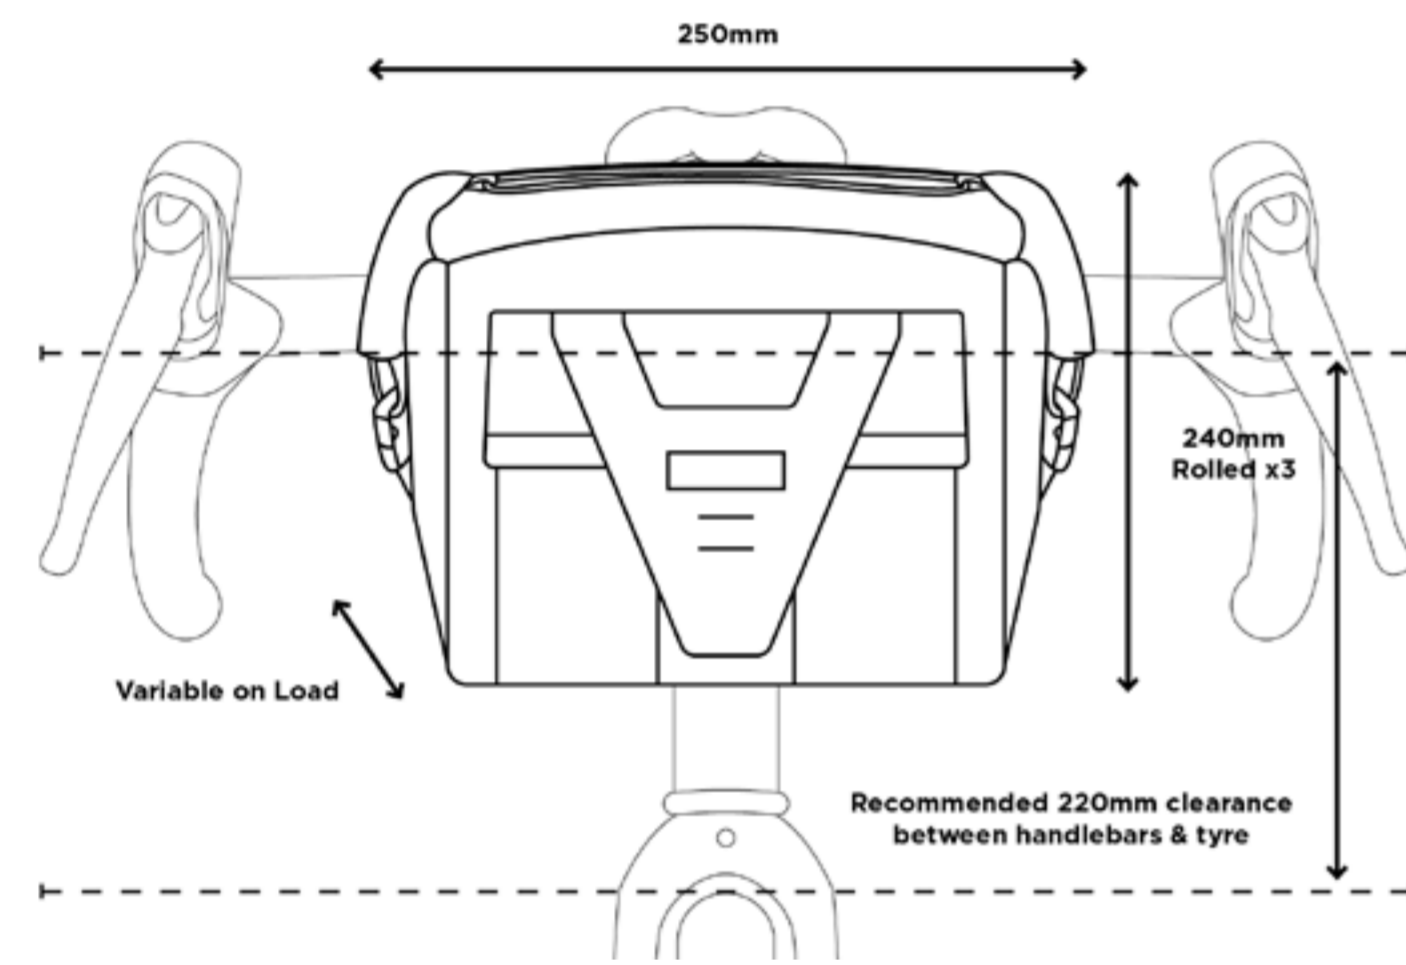

Page 18

Ideal for shop runs, off road adventures or audaxes, the Bar Pack is the perfect all day companion. Two fully waterproof roll top compartments provide 10 litres of capacity with a hypalon closure, securing the front compartment and providing a mounting slot for a clip-on front light or additional strapping. A mini D-lock holster sits between the two compartments, with the front compartment closure doubling as a securing strap for a lock for any urban excursions.

Structural rigidity is provided by an internal stiffener, a compact pack is guaranteed at all times due to the side-release tension and buckle system. An additional hard shell back provides further rigidity and a MOLLE adjustable headtube retention system guarantees a secure fit to your bike.

Foam spacers and spring-loaded cam locks provide a stable and reliable attachment to your handlebars. An elasticated drawcord provides perfect on-the go storage for gloves, jackets and other accessories.

## FRAME BAG

Page 23

The #carryeverything frame bags allow you to easily increase the load you carry for comfortable bike packing and touring. With no mounts or screws, the bags come in three different sizes to suit any frame. With YKK zips, a fully waterproof 1000D cordura outer and VX21 fabrics, our Frame Bags are tough, durable and versatile.

Rubberised strapping provides extra grip to the frame and reflective paracord zip pulls give additional security. Inner mesh pockets keep you organised whilst on the road and the medium and large bags contain an additional document pocket. An extra cable slot is provided for dynamo cabling.

## TECHNICAL DETAILS

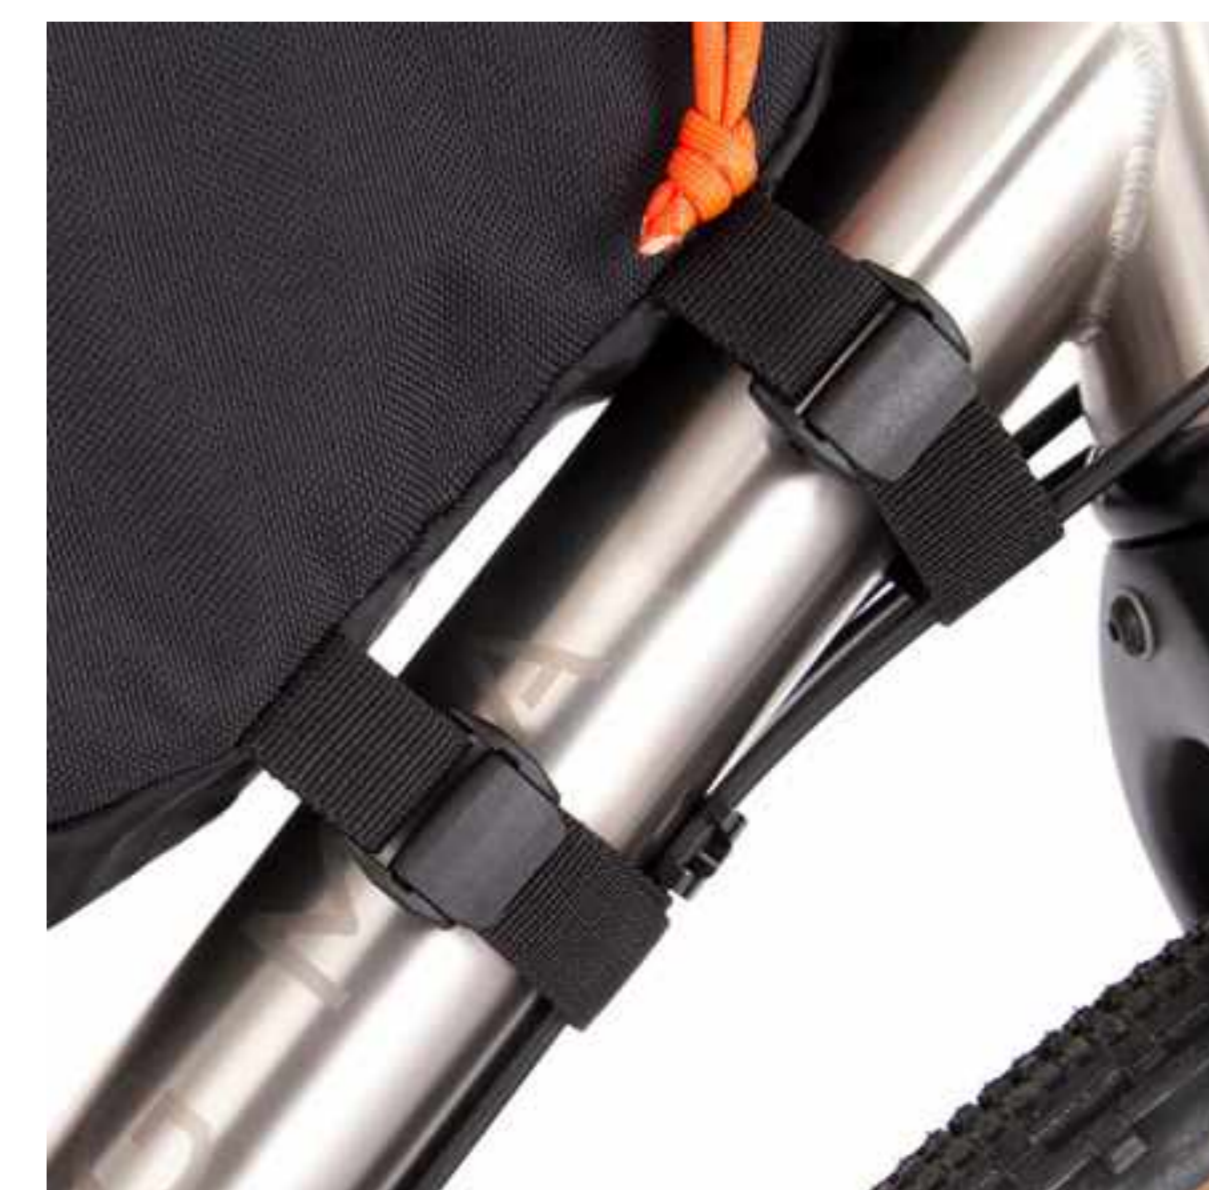

Materials	<b>Body:</b> 1000D Textured Nylon & VX21 <b>Lining:</b> PU Coated Nylon <b>Webbing:</b> Nylon <b>Zipper:</b> YKK

## FULL FRAME BAG

Page 24

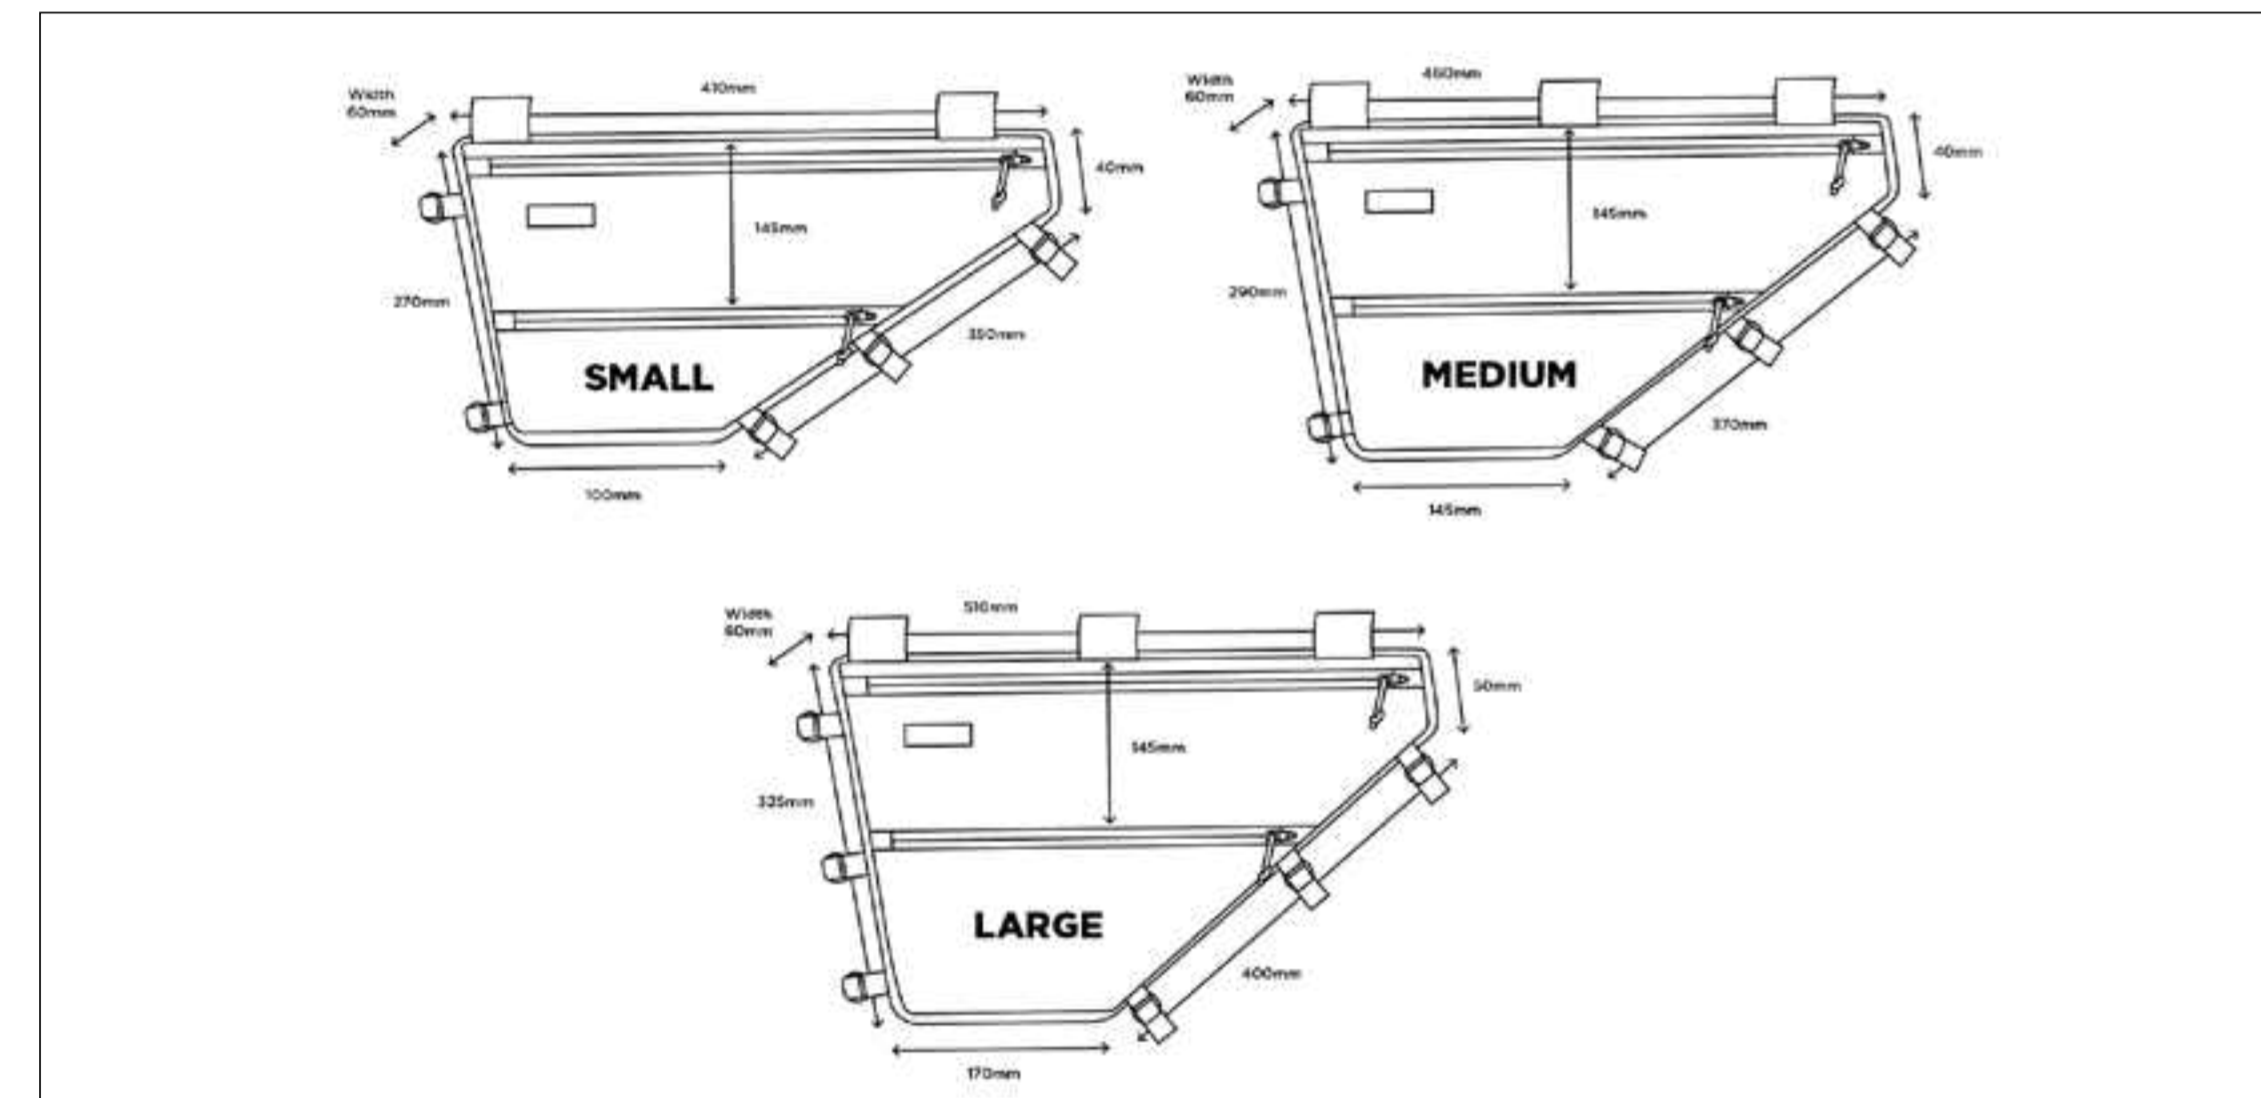

The Restrap Full Frame Bag allows you to easily increase the load out you carry for comfortable bikepacking and touring. The bags come in three sizes, designed to fit most standard frames and geometries.

Two Aquaguard YKK zips on the drive side of the bag allow easy access to the top and bottom sections of the bag, with internal velcro dividers to separate the compartments. These dividers aid the structure of the bag when fully packed, but also fold away to allow use of the full internal space of the bag if needed. The non-drive-side of the bag contains a document pocket, useful for storing smaller items.

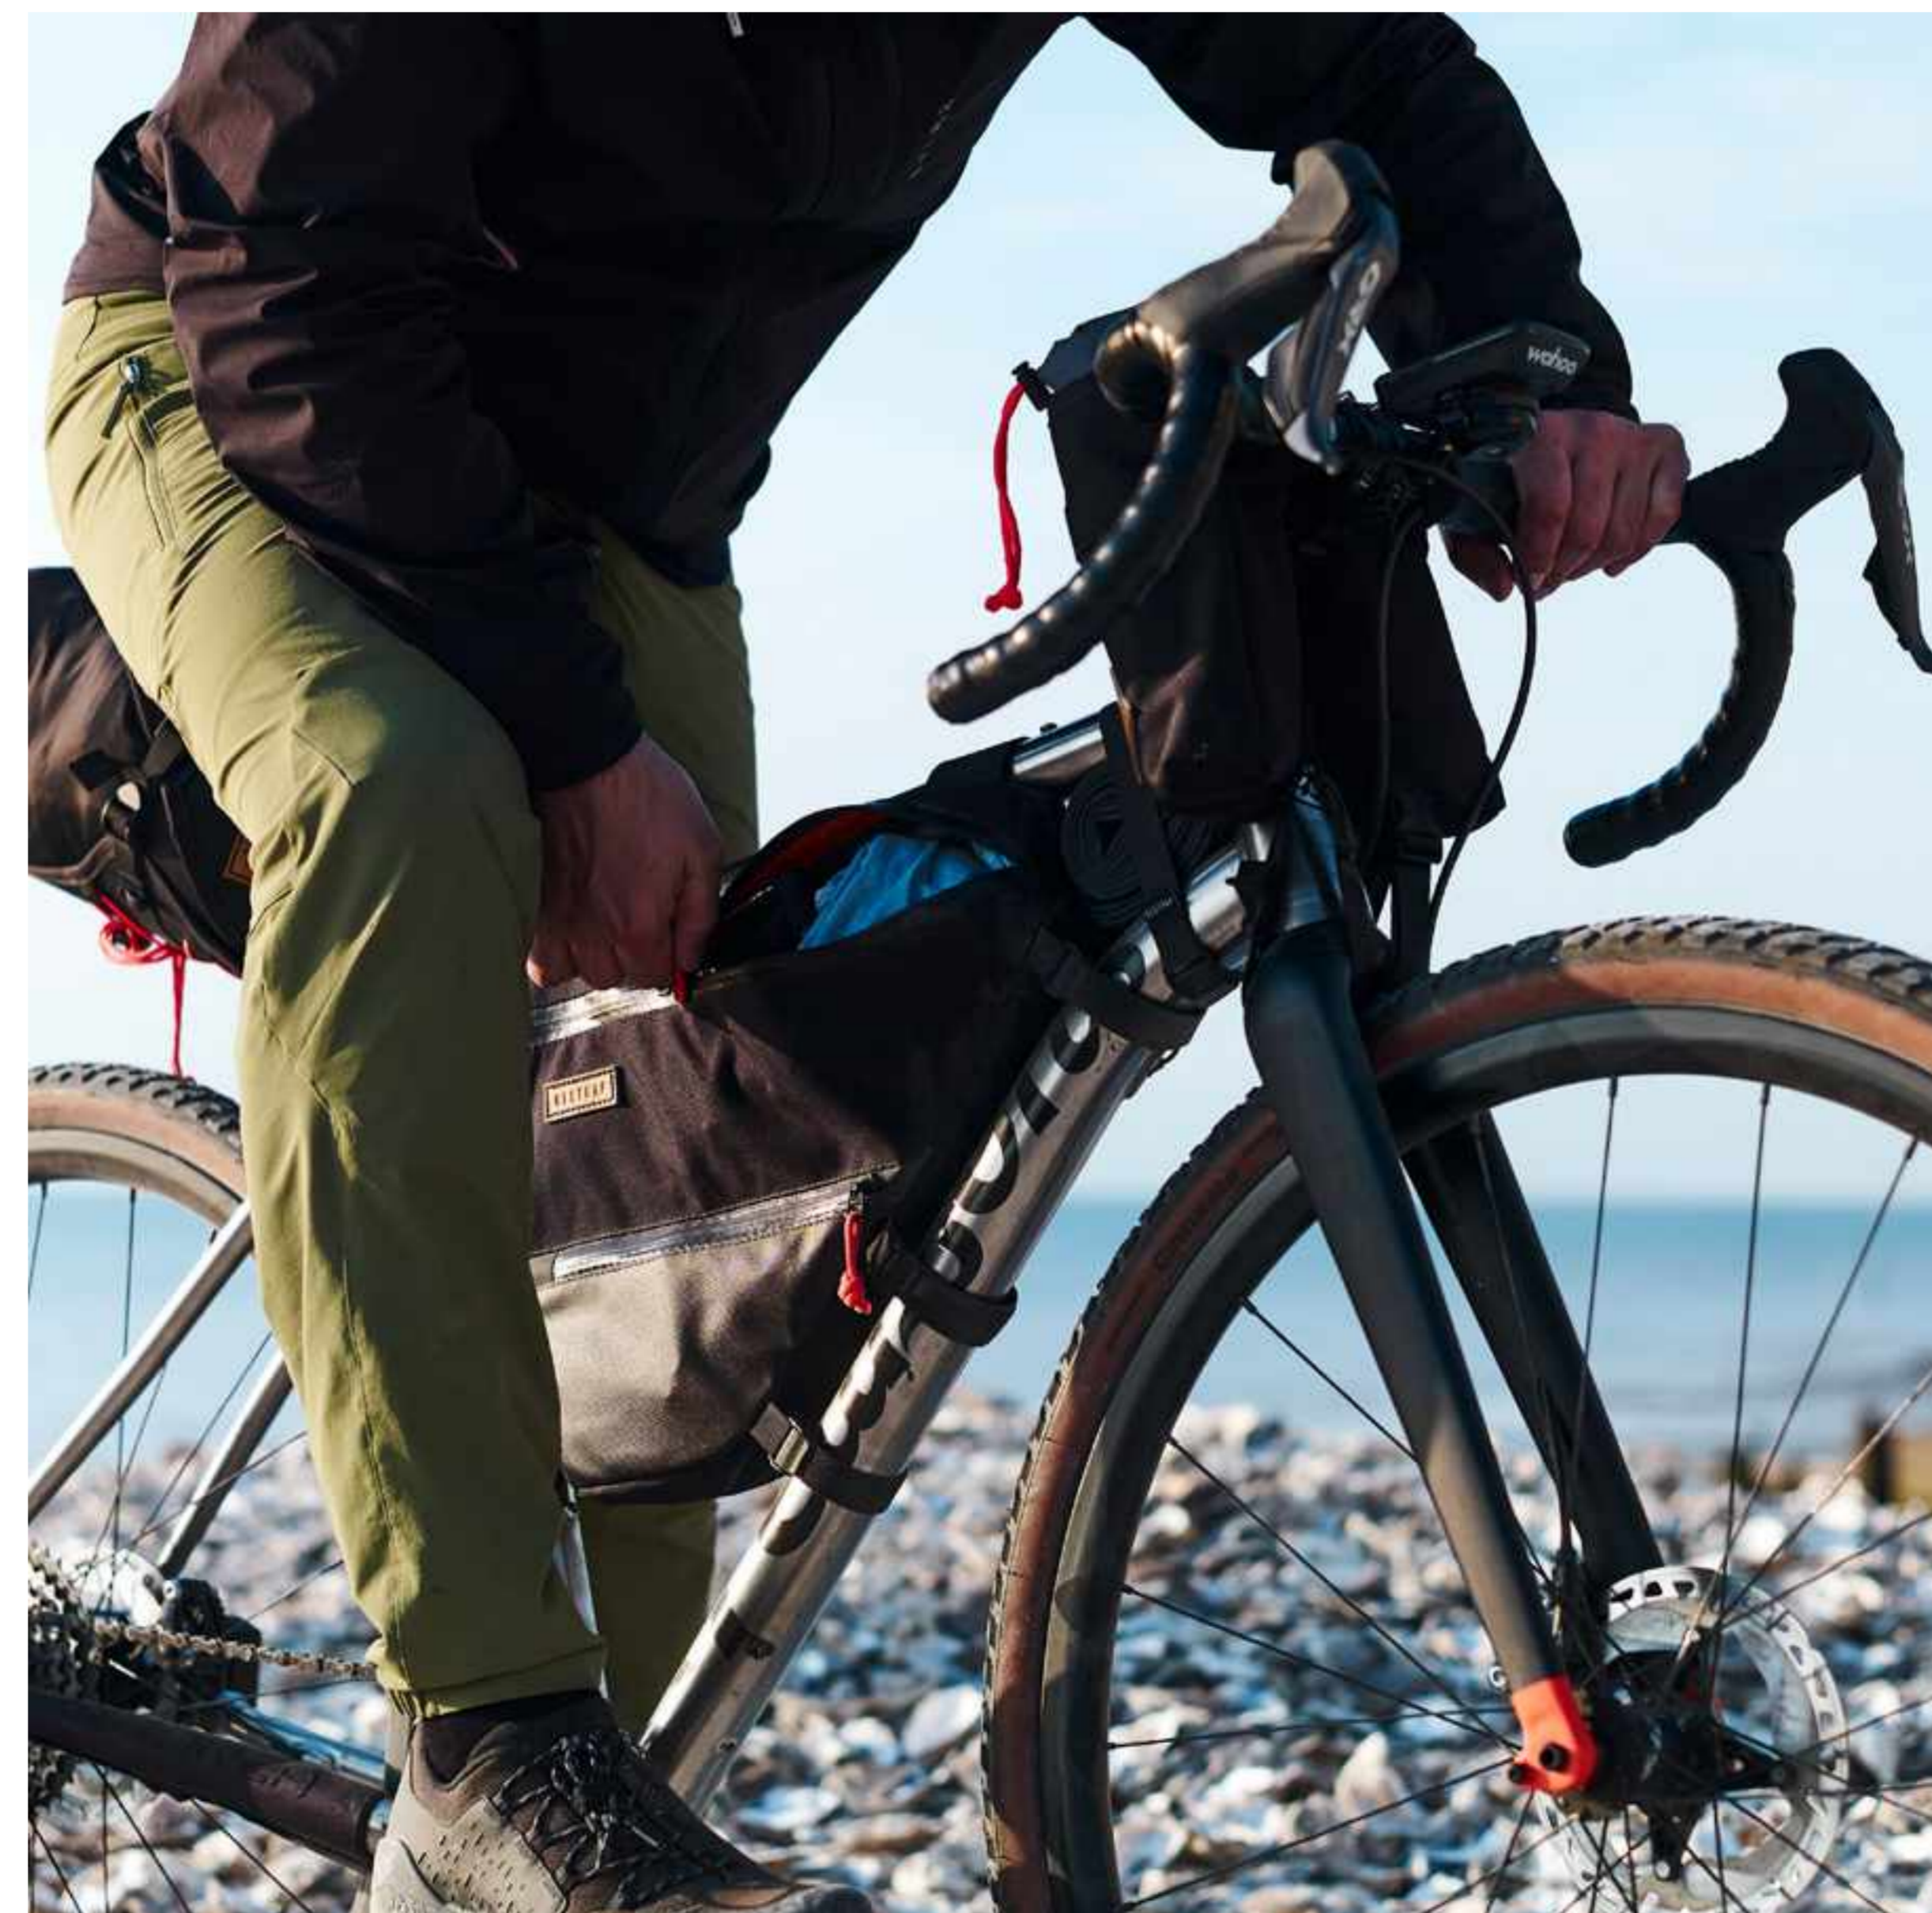

The bag is made from durable, textured nylon outer and VX21 fabrics, with a wipeable lower section that means the bag is easy to keep clean when riding off-road or in adverse weather. Rubberised strapping provides extra grip to the frame and webbing straps, with easy-to-use cam locking buckles, keep the bag sitting securely and free of movement while riding.

Hand made in our Yorkshire workshop, all bags are finished with the classic Restrap label, made from vegan-friendly PU.

## TOP TUBE BAG

Page 25

Whether you're out for an hour, commuting, or on a multi-day tour, the Restrap Top Tube Bag is perfectly designed to keep your tools and snacks within reach. Made from 100% waterproof 1000D cordura, and with a YKK zip, it will withstand whatever your ride throws at it. The headset fitting is designed to work with all headsets, including bikes with a low stack height.

The Standard version of the Top Tube Bag has a rubberised velcro strap for the top-tube, whilst the Bolt-on version contains a sturdy plastic base has reinforced holes to allow it to fix onto the top tube bolt bosses, eliminating the need for straps and keeping the bag secure. The headset fitting is designed to work with all headsets, including bikes with a low stack height.

## REAR TOP TUBE BAG

Page 26

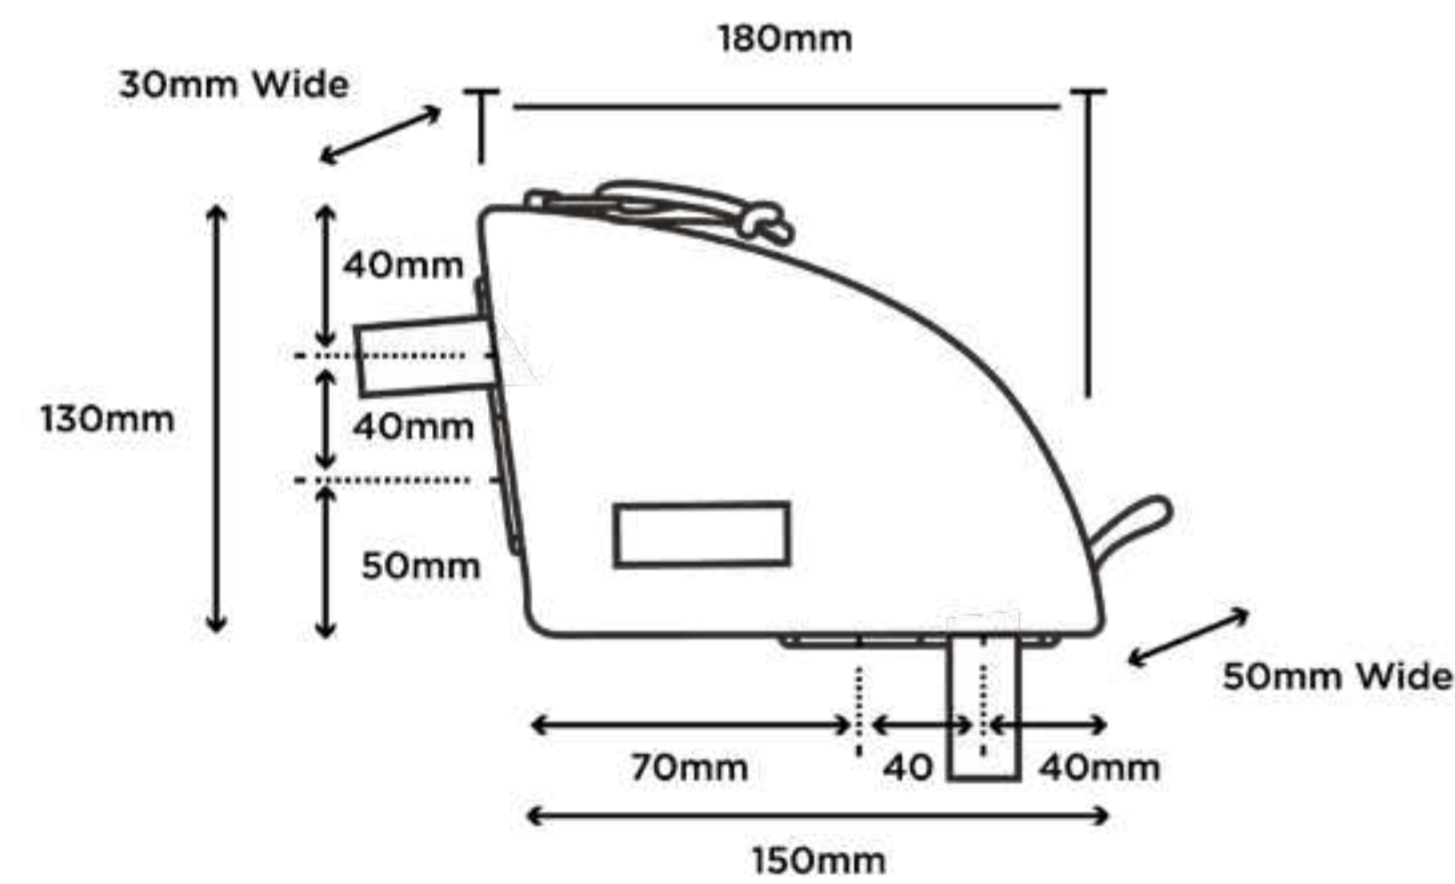

The Rear Top Tube Bag is the perfect add-on to maximise storage on your bike when frame space is limited, all other attachment points have been used or you want to organise tools, spares, food or other accessories into a separate compartment.

A simple zip closure allows for easy one-handed access. Hypalon MOLLE accents on the base and rear of the bag each provide two placements for the double sided velcro straps, allowing you to tailor the bag to be ideal for your set up.

Handmade in our Yorkshire workshop from 100% waterproof textured nylon, with a nylon lining and finished with the classic vegan-friendly PU leather Restrap label.

Weight - 70g  
Capacity - 1L

**CITY RANGE**

## CITY LOADER

Page 36

Two fully waterproof, fold-closure, compartments offer up to 20 litres of internal storage. The main compartment is secured by an adjustable fastening strap with a Fidlock™ buckle, which offers additional external storage for the likes of a jacket or dry bag.

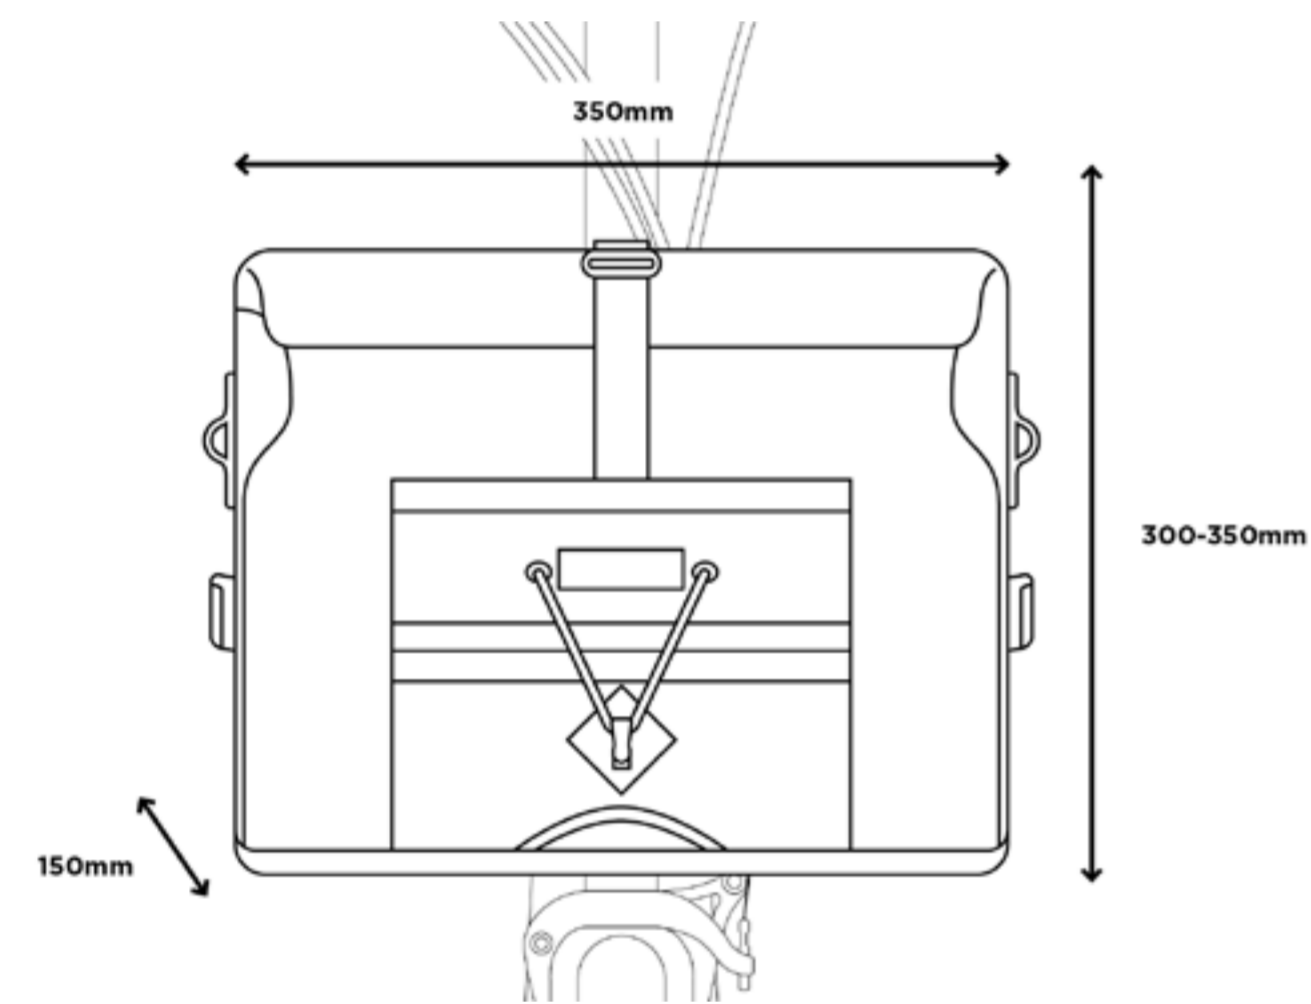

Compression straps on the sides of the bag act to keep the bag compact for smaller loads, whilst also securing accessories like bottles or locks stored in the side pockets. Reflective detailing, incorporated onto the front pocket, ensures good visibility for night time commutes.

A removable shoulder strap and carry handle, at the rear of the bag, make the City Loader comfortable and convenient when off the bike.

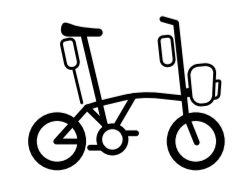

The bag is mounted via a Brompton front carrier block compatible fitting, both external and internal stiffeners enable the bag to hold its shape even when fully loaded. Made of 100% waterproof textured nylon, spare clothes and tech are guaranteed to stay dry on the wettest of commutes. The bag is also compatible with a Brompton front light, dyno light and front reflector.

Like all our City Range bags, the City Loader does not impact the folding mechanism of the bike.

## QUOC X RESTRAP SANDALS

Page 51

The QUOC x RESTRAP Sandal is a collaboration that unites two British brands with over two decades of footwear innovation and bikepacking experience between them. Handmade in the UK, it exists to bridge comfort and style with functionality and adventure.

The QUOC X Restrap Sandal is designed as the ultimate post-ride slip-on, combining casual comfort with minimalist elegance, with a flair of functionality.

The sandal features an anatomically designed footbed, with excellent cushioning and arch shaping. It's grippy anti-slip tread makes it perfectly suited for those relaxed hours after a long day in the saddle, whether it be a woodland campsite, a night in the hammock by the beach or exploring around town.

The extra-thick webbing straps work with QUOC's signature microfibre to fasten over your saddle bag with a locking buckle, allowing for quick and convenient carrying while on a long tour, saving packing space in your bikepacking bags. With Restrap's innovative shaping and bonding, these straps are strong, durable and provide maximum comfort while allowing full adjustability for the perfect fit.

## HIKE A BIKE HARNESS

Page 52

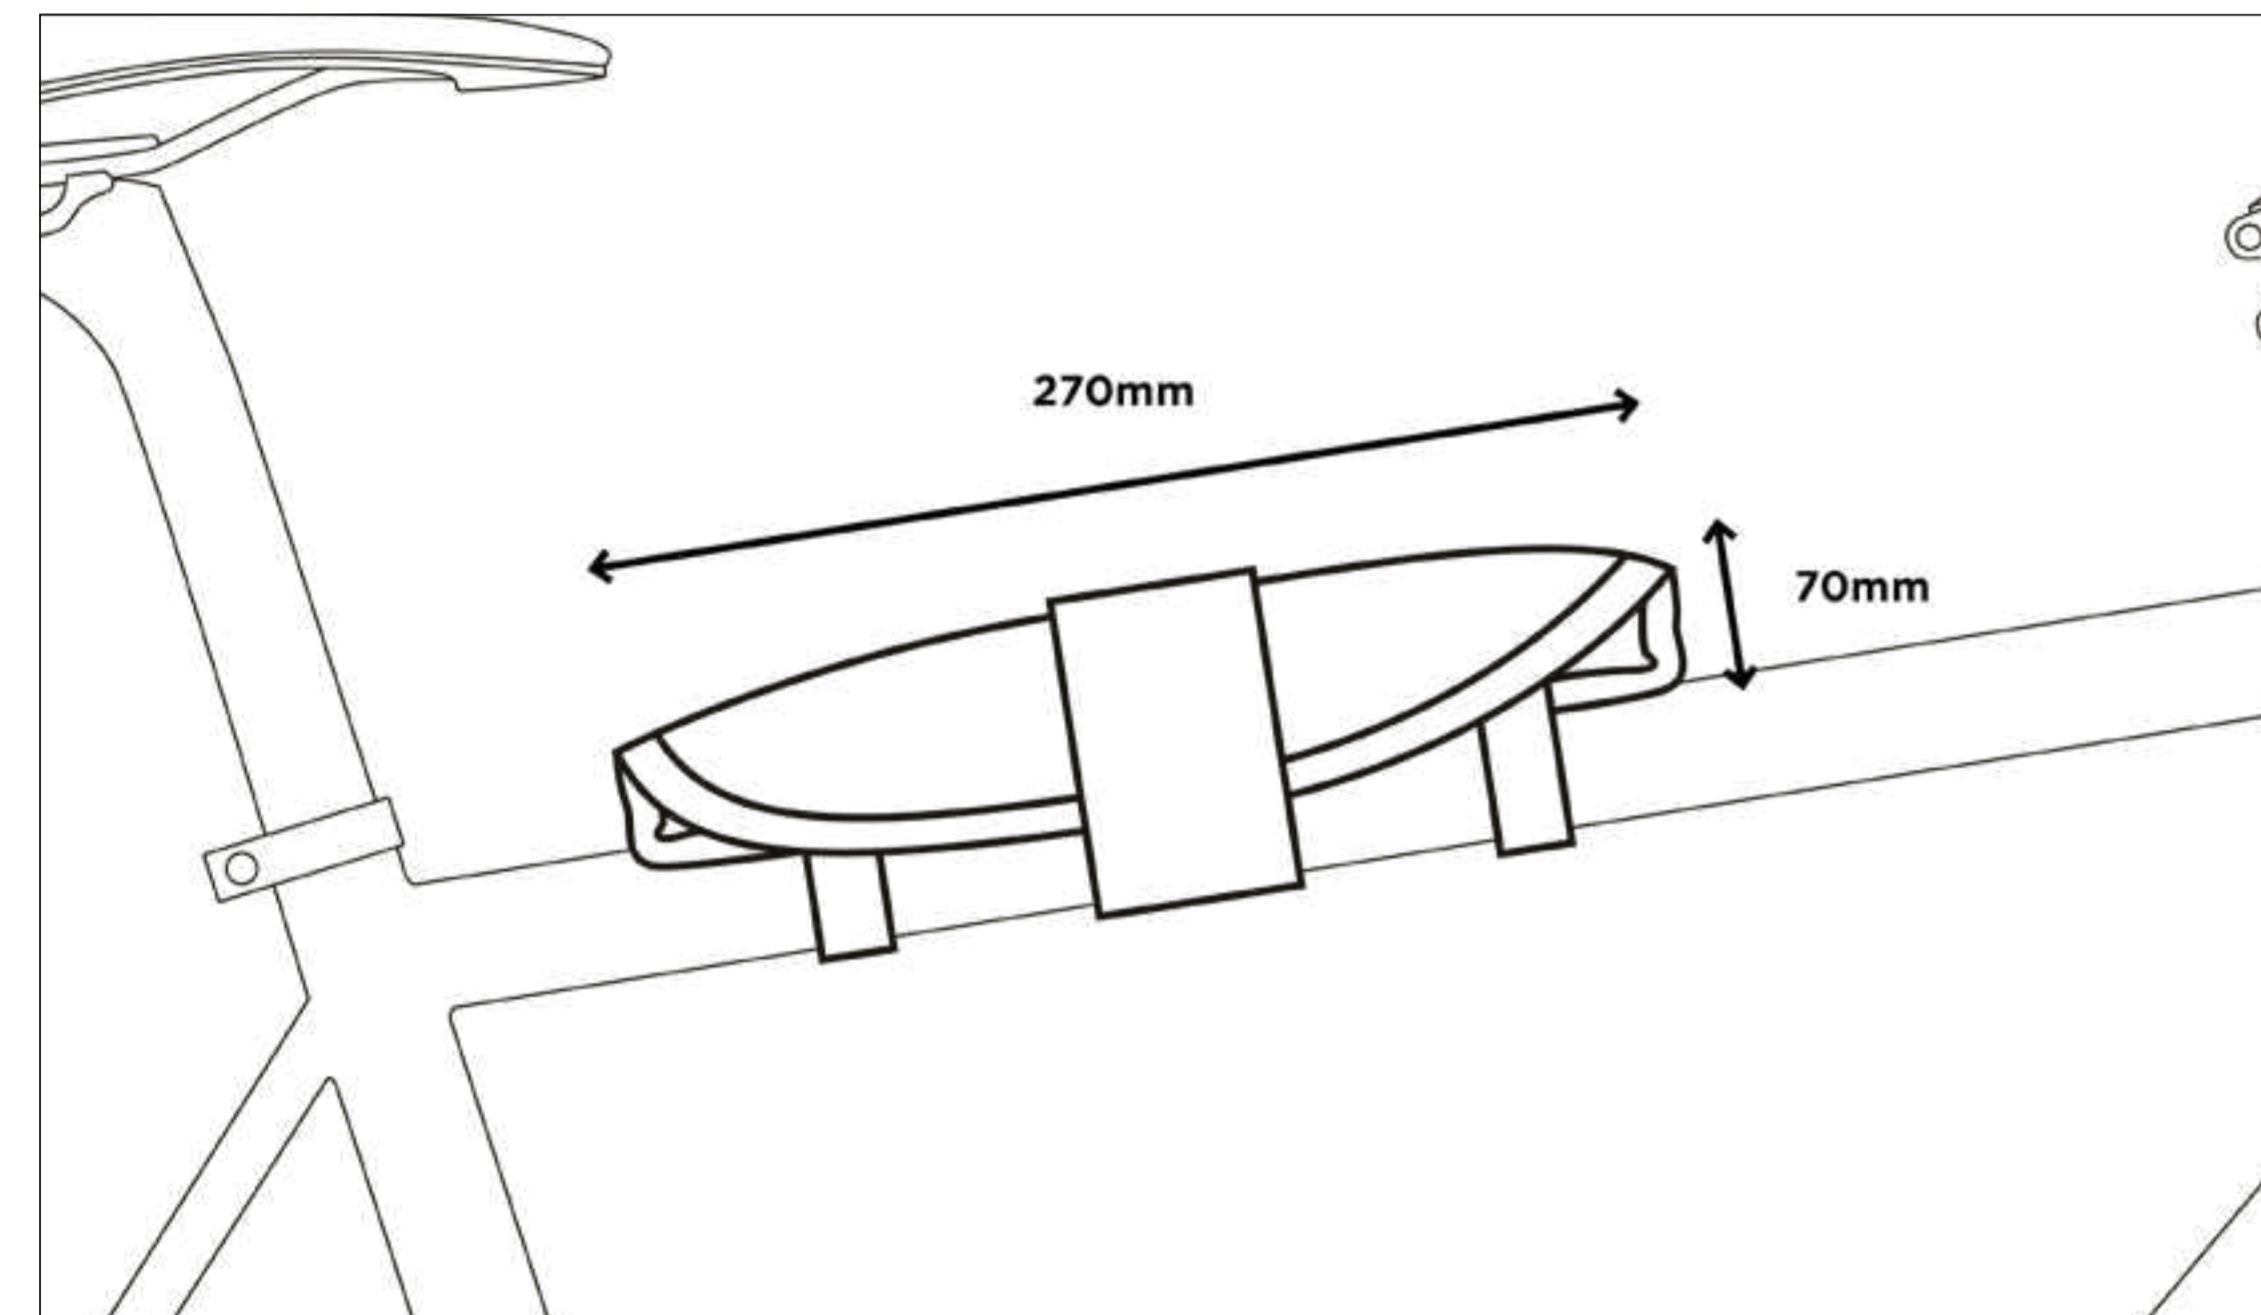

Whether you're tackling steep mountain trails or rugged terrain off road, this harness is designed to make your journey easier and more enjoyable.

The Hike-a-bike Harness is quick and easy to fit to most bikes, allowing you to go from carrying your bike to riding in a matter of seconds. When it's time to walk your bike up tough hike-a-bike terrain, the harness lets you do so hands-free whilst staying well-balanced.

Designed to not interfere with your riding, the adjustable mounting points and lightweight design allows you to tailor the harness to fit your bike. Included are two retention straps and a long fast strap to secure the front wheel in place.

Made from robust TPU coated Nylon, finished with vegan friendly PU Restrap Label.

## LAPTOP SLEEVES

Page 54

Laptop Sleeve

The Restrap Laptop sleeve was designed as a safe way to transport your laptop to work (or while bike-touring) in the Large Pannier.

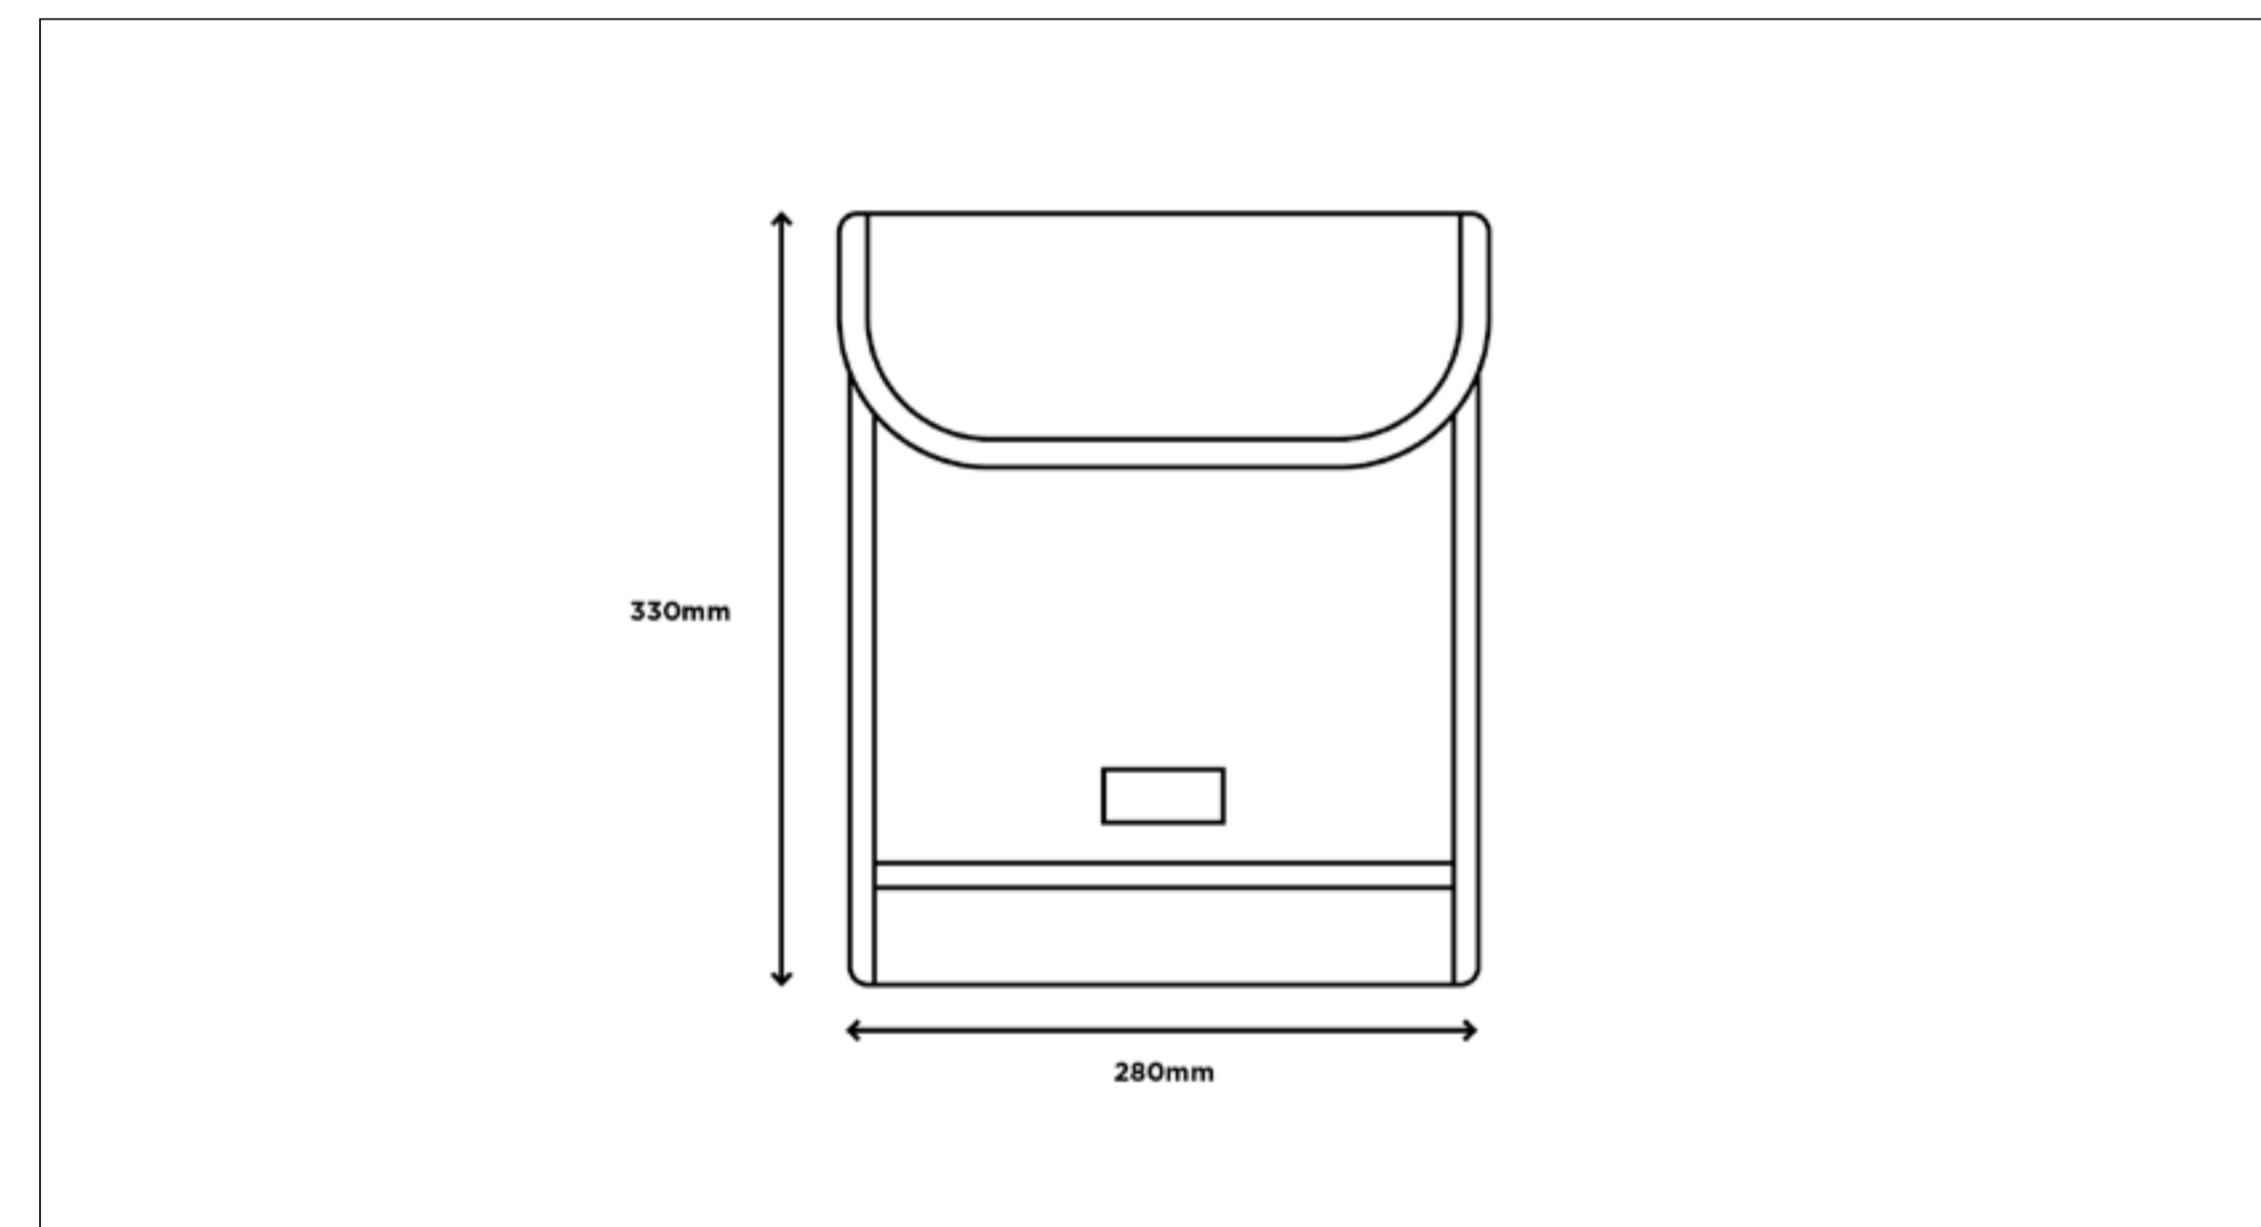

The easy-to-use clip system snaps the laptop sleeve into the back of the Large Pannier backing inside the bag. The clip system holds the padded sleeve flat against the hard back of the pannier and above the bottom of the bag so that it is protected from the ground in-case of any accidents.

This sleeve doesn't have to be used in our Large Pannier either, you can put it into any backpack that can fit it's width or simply use it as protection when carrying it by hand. Contains accessory pocket to divide your computer and charging cable/plug-ins.

Hand made in our Yorkshire workshop, all bags are finished with the classic Restrap label, made from vegan-friendly PU.

Fits up to a 13inch Macbook Pro (230mm x 320mm)

## BICYCLE PROTECTION KIT

Page 57

Bicycle Protection Kit

Vinyl pack to prevent abrasion against dirt, cables and bags. Featuring three sheets of custom cut easy-to-install heavy duty vinyl, this kit provides a variety of shapes to cover and protect areas susceptible to abrasion on any bike. Embellished with a screen printed design of the rugged contours of the Yorkshire Dales, the bicycle protection kit is sure to keep your ride looking fresh for many miles,

### Instructions:

Clean and dry the surface of your bike frame.

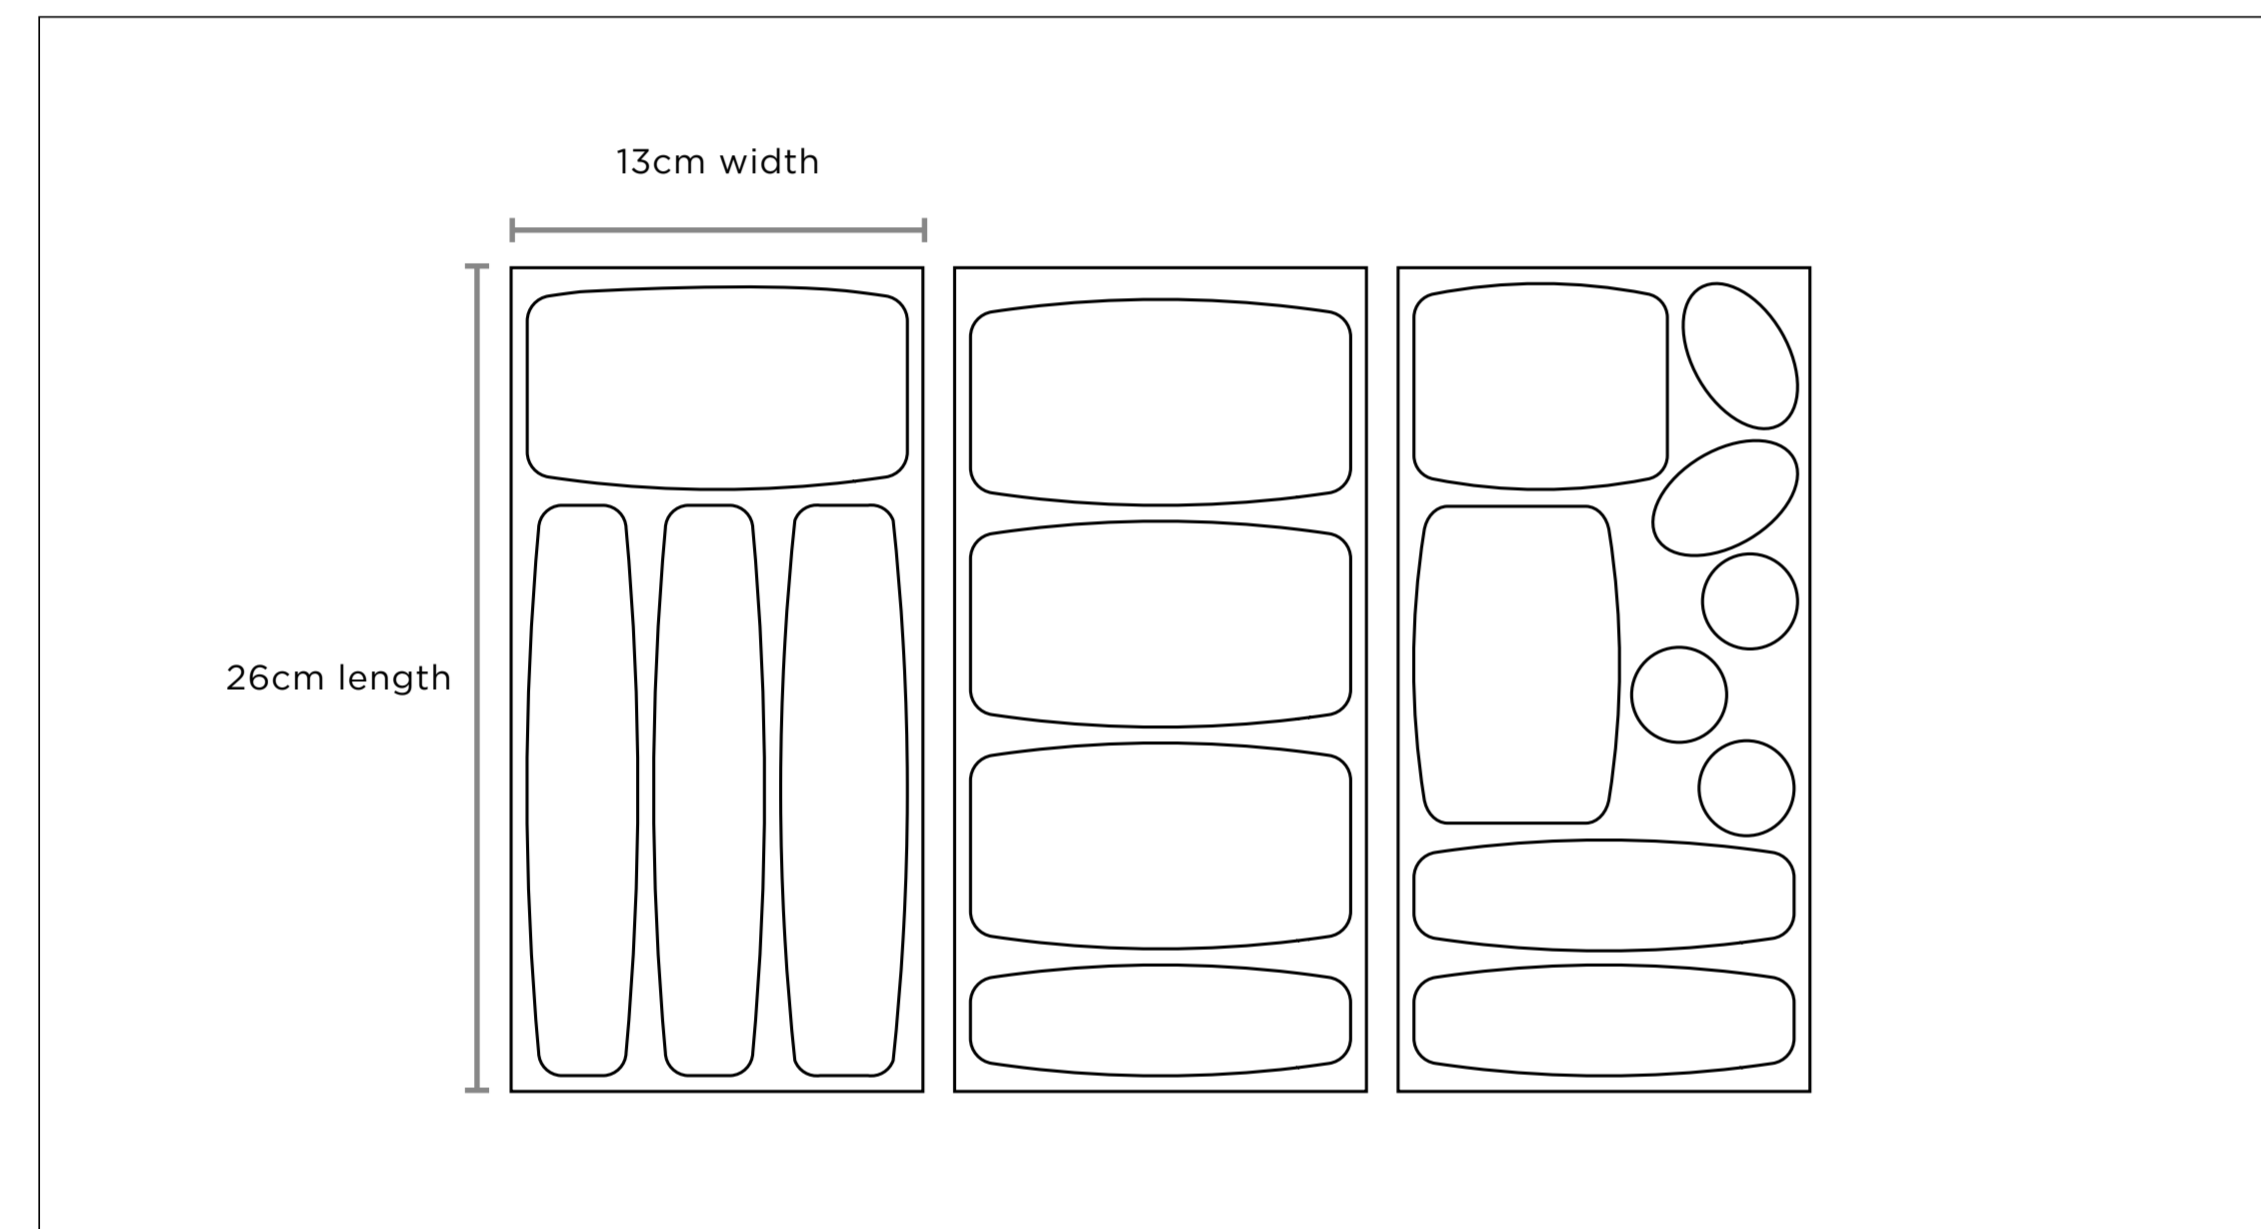

Apply vinyl to required areas.

Apply some pressure evenly from the centre pushing outwards to ensure a secure adhesion.

Ride your bike!

Available in Black or White on Clear Tape

## TYRE BOOT KIT

Page 58

The Tyre Boot Kit is a cyclist's must-have if it all goes wrong. The kit features 8 varied cuts of thin, durable and tear-resistant rubberised material, specifically designed to patch rips and tears on any tubed tyre. Think of it as tyre insurance.

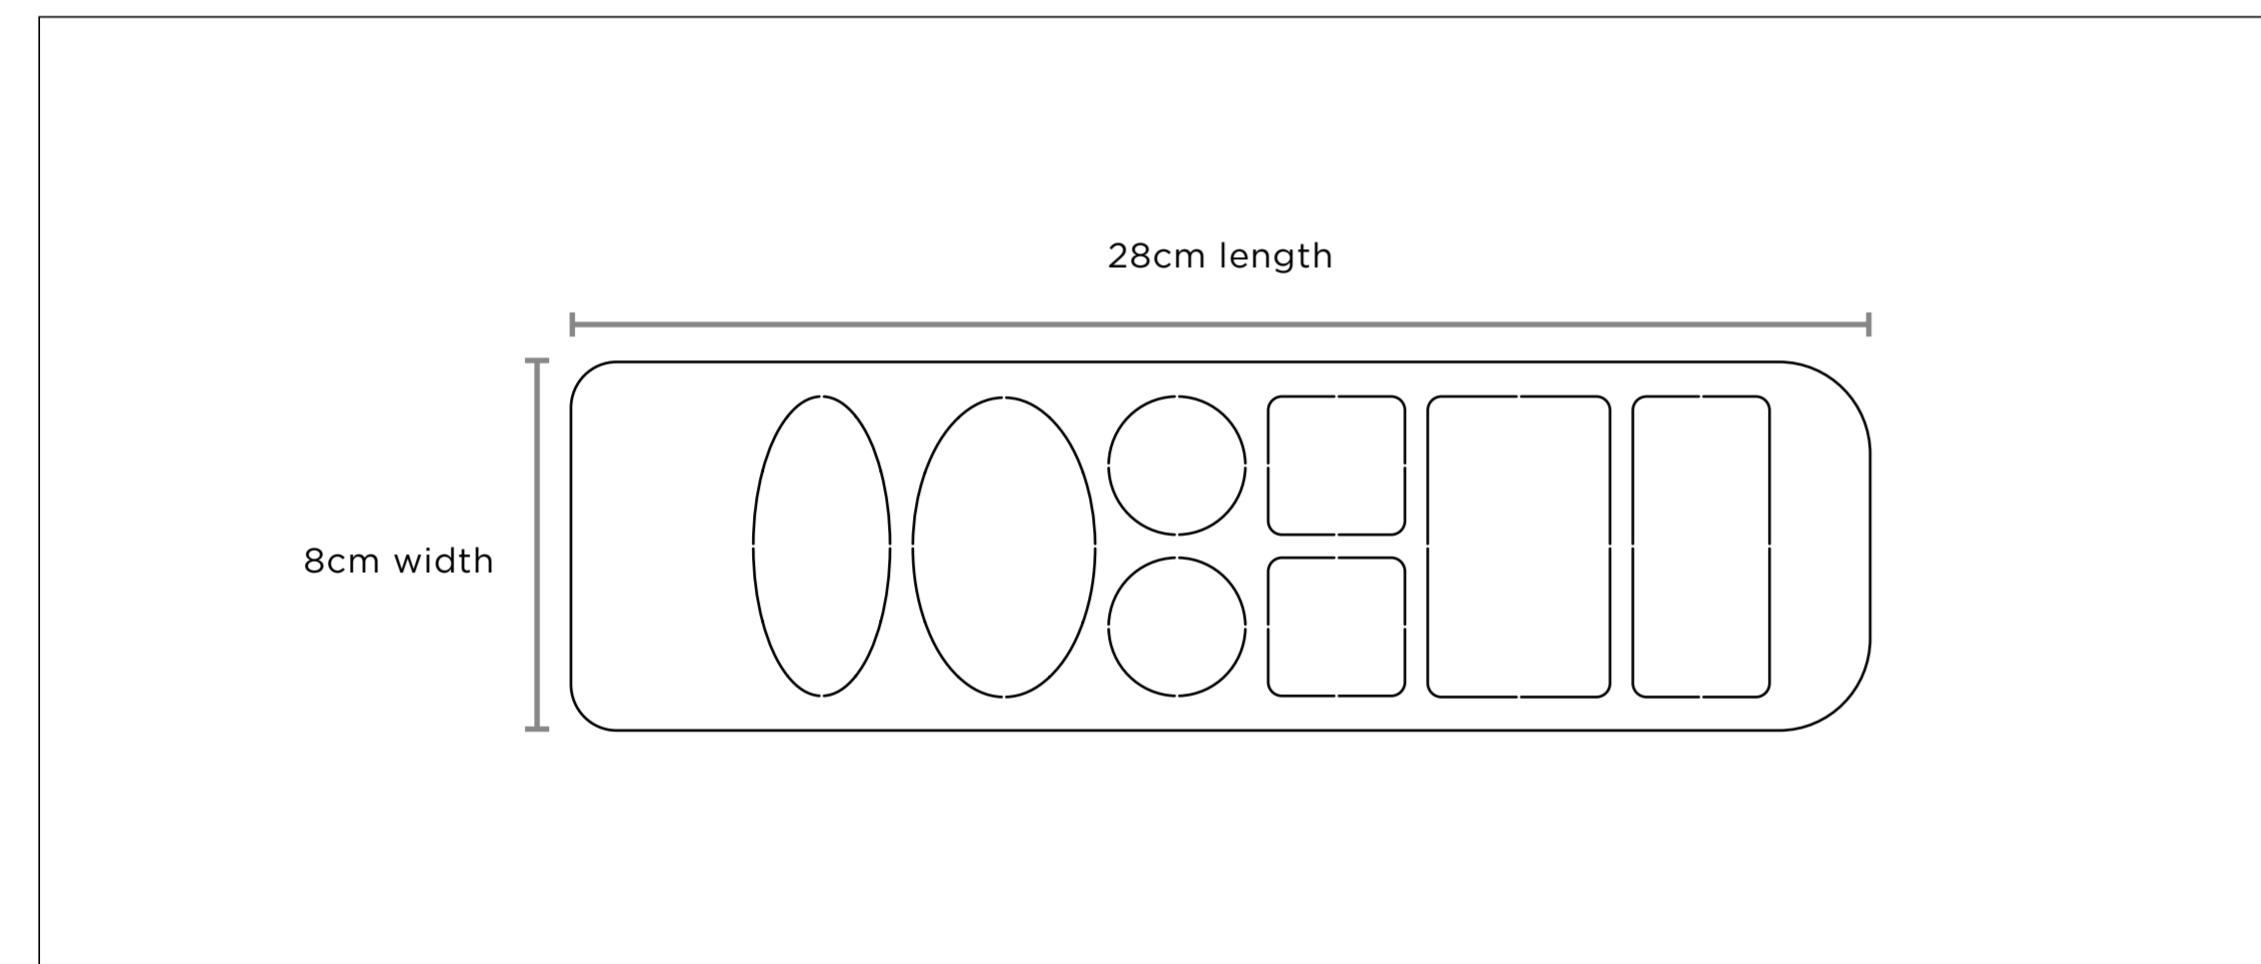

A tube of glue is included to help mend the trickiest of rips or tears in your tyre's surface. Supplied as a minimal pack-friendly design to fit in the smallest of spaces on your bike.

### Instructions:

- 1) Locate the affected area on your tyre
- 2) Make sure the area where you wish to apply the patch is as clean as possible
- 3) Apply glue to the patch
- 4) Place patch over the affected area, ensuring full coverage
- 5) Insert tube and re-inflate tyre
- 6) Breathe a sigh of relief and continue on your journey\*

\*The Tyre Boot Kit is designed to save your bacon but it isn't a permanent fix. A torn tyre should be replaced as soon as possible.

## BUMPER BAR

Page 59

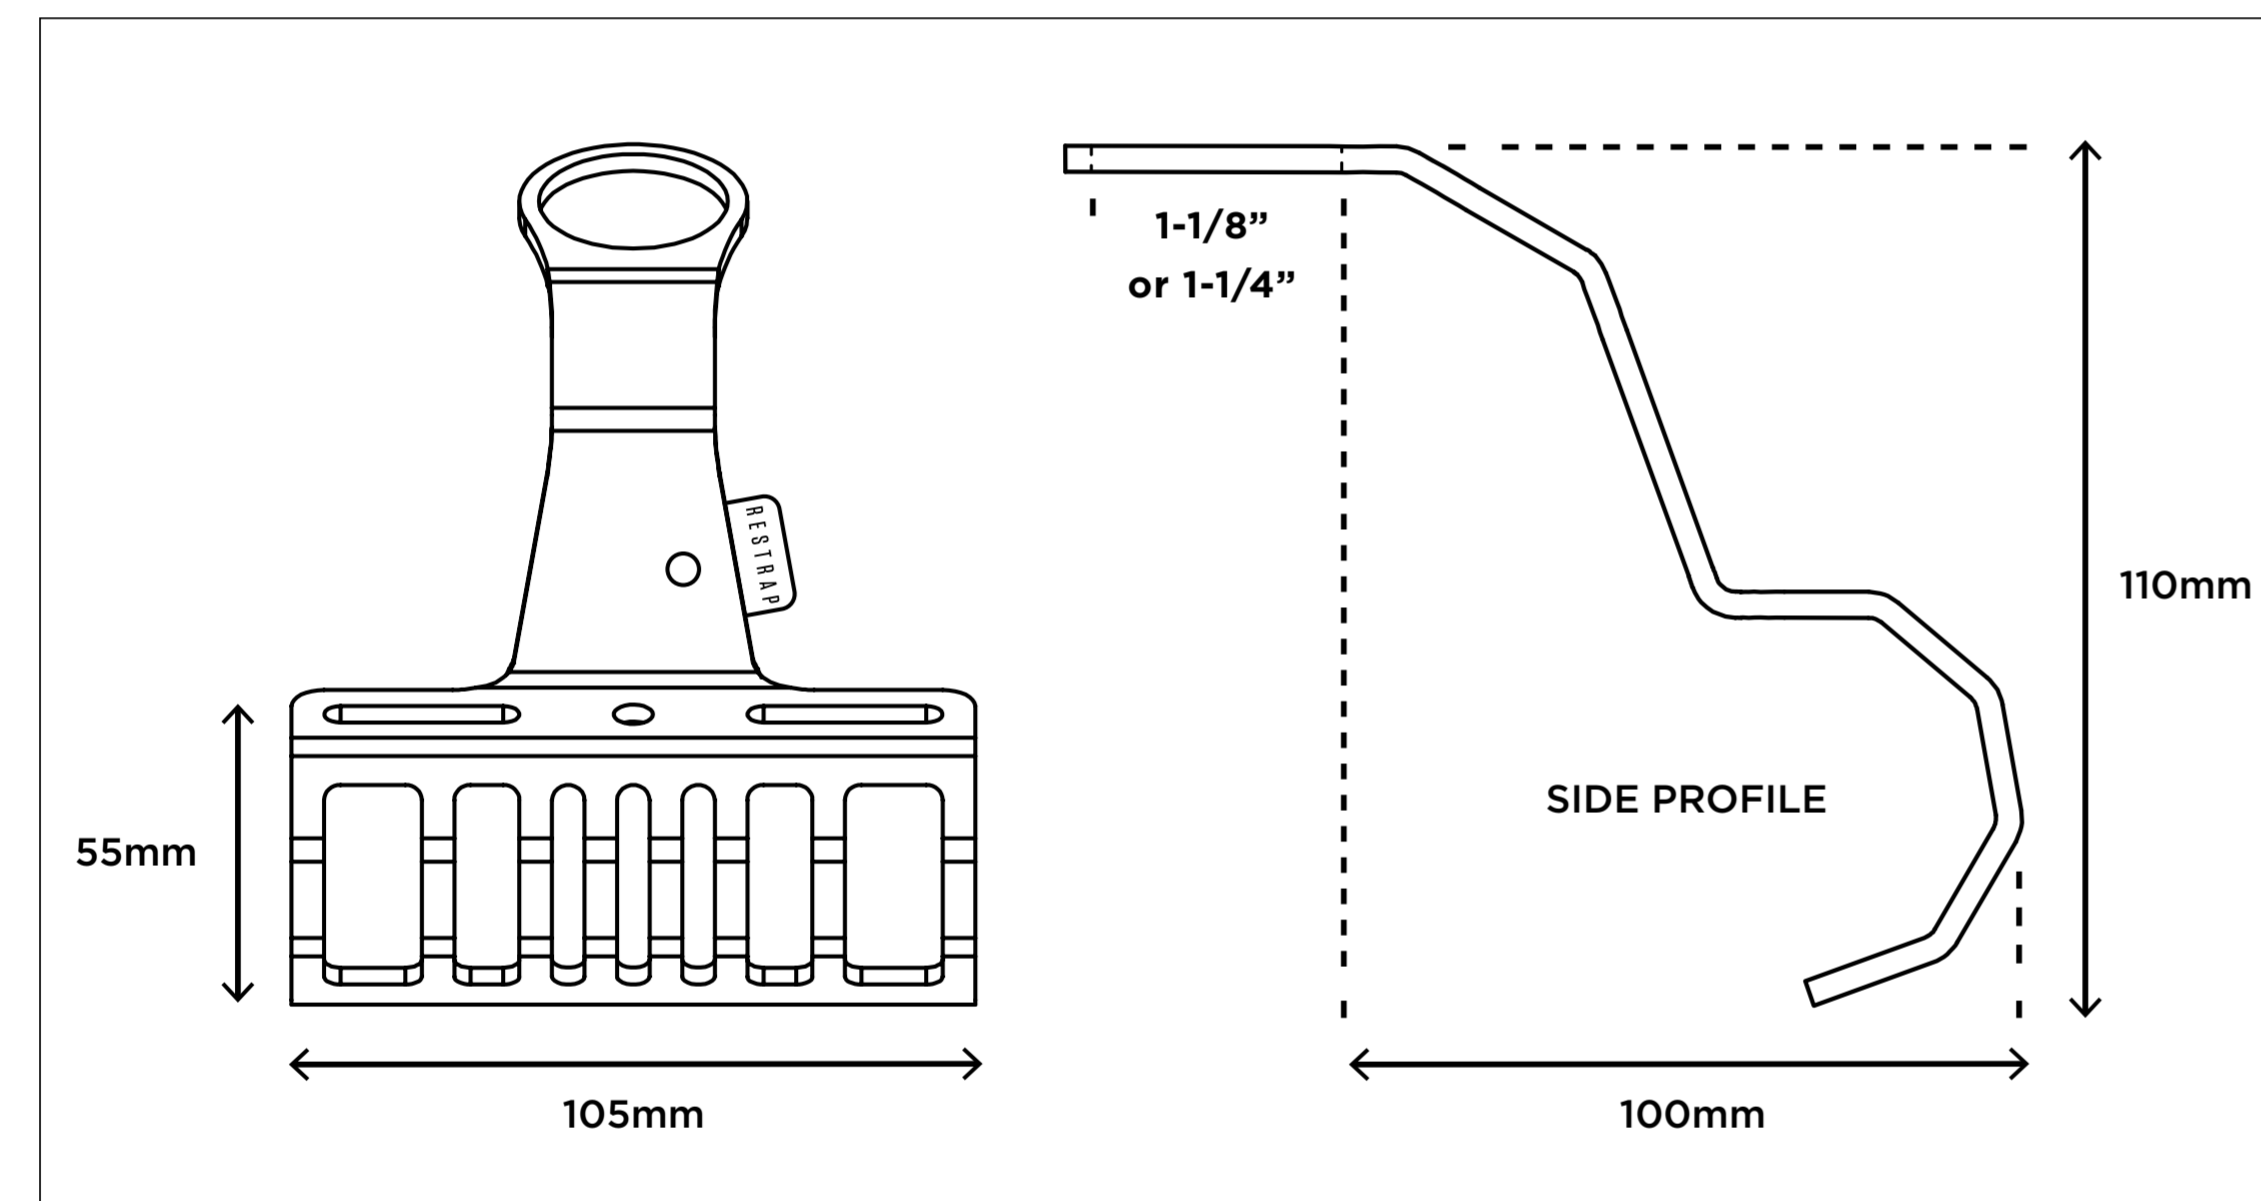

The Bumper Bar is a unique accessory that serves multiple functions; as a hard point for mounting lights, while also acting as a spacer for our range of bar bags, pushing them upwards and away from the front wheel. This is ideal for smaller bikes with a low stack height or where handlebar to tyre clearance is limited.

Made from high-strength steel with a durable powder coated finish, the Bumper Bar includes a front grille and 30mm slots on the top and bottom that work seamlessly with the retention straps of our bar bags. Also included are 5mm diameter holes on the top and bottom for additional mounting options.

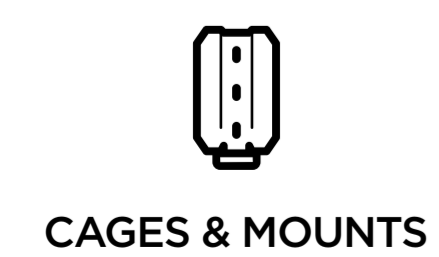

The front is curved to allow the fitting of most lights, where the position out the front of the steerer is ideal for forward visibility.

The Bumper Bar acts as a 3mm headset spacer and comes in two sizes to fit 1-1/8" or 1-1/4" steerers.

## TECHNICAL DETAILS

Materials	<b>Body:</b> High Strength Steel <b>Finish:</b> Black Powder Coating
Size	105mm W x 115mm L x 120mm D
Weight	180g
Product Codes	<b>1-1/8":</b> RS_HDW_BMP_BLK <b>1-1/4":</b> RS_HDW_BM4_BLK
HS Code	8714993000

## LOCK HOLSTER

With the Restrap lock holster you can carry any D-lock securely and discreetly. Fully elasticated, the holster loops easily on to any belt and goes subtly unnoticed when empty.

With double-layer elastic, your lock will stay firmly in place even during the roughest of rides.

## TECHNICAL DETAILS

## 200Z ENAMEL MUG

Page 63

Bike packing and camping are tough activities. Here at Restrap we provide equally tough products that can be carried and used every day without failing.

Our extra large enamel mugs provide a highly durable, easy-clean solution for eating and drinking in the wild as well as a great way to boil water and heat up food. The 80mm diameter base sits comfortably on most stoves and the 90mm internal width is large enough to fit smaller gas-canisters which can be easily secured with a Restrap Fast Strap.

This is a stylish and ideal gift for those who love the outdoors.

Size: 20oz / 568ml (That's right, a pint!)

### TECHNICAL DETAILS

Materials	Enamel Coated Tin
Product Codes	<b>20oz ENAMEL MUG</b> - RS_MUG_TECH_WHT
HS Code	7326904000

## CYCLING CAPS

Our caps feature a screen printed design on a windproof, breathable cotton and polyester blend for maximum comfort all year round. An anti-bacterial, elasticated band keeps things fresh and firmly in place. One size fits most.

### TECHNICAL DETAILS

Materials	Cotton, Polyester, Antibacterial Elastic Band
Product Codes	<b>BLACK</b> - RS_CAP_YKS_BLK <b>ORANGE</b> - RS_CAP_YKS_ORA
HS Code	6504000000
