bio fizzy tablets

delphis
eco

Our bio fizzy tablets are a powerful treatment to eliminate blockages from drain lines, toilets and septic tank systems.

They release millions of beneficial bacteria to speed up the biodegradation of organic waste, reducing it to water and carbonate to help eliminate blockages, smells, and reduce pumping.

benefits

- ✓ digest grease and other wastes
- ✓ keeps drain lines free flowing
- ✓ helps protect drain fields
- ✓ safe for all plumbing
- ✓ enzyme producing bacteria
- ✓ readily biodegradable
- ✓ reduced use of hazardous substances
- ✓ phosphate and phosphonate free
- ✓ not tested on animals

bacteria count

Total count:	9.80 x 10 ⁷ cfu/g
Spore count:	1.59 x 10 ⁷ cfu/g
Gram-negative count:	Not detected

The bacteria in our fizzy tablets produce amylase, cellulase, lipase and protease. These are all essential enzymes for the degradation of organic matter. They do not contain any free enzymes.

application and directions

Drain line maintenance: Dissolve one tablet into a bucket or other container with 4-5 litres of tepid water. Pour the product evenly into all drain lines. Repeat monthly.

Septic tank maintenance: Dissolve one tablet into toilet bowl, allow time to dissolve and flush. Use one tablet per month for each tank capacity of 4,500 litres.

NB: Do not use with anti-bacterial products and cleaners.
