

our mini guide to using... anti-bacterial sanitiser

cleaning method

General cleaning:

Apply directly to surface and wipe clean. For food preparation and storage surfaces rinse with clean water after application. For larger surface areas such as floors, use a mop and bucket.

Pressure washing:

Use via dilution system on machine with steam if possible.

dilution guide

Tested and effective, through certain applications, at a dilution ratio of up to 1:150. Dilute through 30ml dispensing unit for medium soiling.

Proper dosage saves cost and minimises environmental impact:

General cleaning:

1 part concentrate to up to 25 parts water.

Light cleaning:

1 part concentrate to up to 50 parts water.

Heavy cleaning:

1 part concentrate to up to 10 parts water.

main use

COSHH
