PURE POWER DRYER
USE AND CARE GUIDE
⚠️ READ ALL INSTRUCTIONS BEFORE USING THIS DEVICE.

Warning: When the hair dryer is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the hair dryer is turned off.

When using electrical devices, especially when children are present, basic safety precautions should always be followed, including the following:

READ ALL INSTRUCTIONS BEFORE USING
KEEP AWAY FROM WATER

DANGERS

As with most electrical devices, electrical parts are electrically live even when the power switch is off.

To reduce the risk of death by electric shock:

- Always unplug the device immediately after using.
- Do not place or store the device where it can fall or be pulled into a bath or sink.
- Do not use the device while bathing.
- Do not place or drop the device into water or other liquid.
- If the device falls into water, unplug it immediately. Do not reach into the water.
WARNINGS
To reduce the risk of burns, electrocution, fire, or injury to persons:

- This device should never be left unattended when plugged into a power outlet.
- This device is not intended for use by people (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the device by a person responsible for their safety. Keep the device and the power cord away from the edge of tables or countertops, and out of reach of children and people with reduced physical, sensory, or mental capabilities.
- This device is not a toy. Children should be supervised to ensure they do not play with this device.
- Use this device only for its intended use as described in this user guide. Do not use attachments not recommended by LumaBella™.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agents, or similarly qualified people, in order to avoid a hazard.
- Never block the air openings of this hair dryer or place it on a soft surface, such as a bed or couch, where the air openings may become blocked. Keep the air openings free of lint, fluff and hair.
- Do not use on people who are sleeping.
- Never drop or insert any object into any opening of this device.
- Do not use outdoors or where aerosol (spray) products are being used or where oxygen is being administered.
- Do not direct hot air toward the eyes or other heat-sensitive areas.
- Attachments may be hot during and after use. Allow them to cool before handling.
- When using the device, keep your hair away from the air inlet grille. Do not let your hair get drawn into the device.

HAIR DRYER FEATURES

1. Air Outlet
2. Removable Filter
3. Air Inlet Grille
4. 🌬️ Cold Shot Button
5. ⚡️ Turbo Boost Button
6. Heat Settings Button
   - Low Heat
   - Medium Heat
   - High Heat
7. Speed Settings Button
   - OFF
   - I Low Speed
   - II High Speed
8. Hang Loop
9. Diffuser
10. Concentrator (1/4 inch)
11. Concentrator (1/2 inch)
HAIR DRYER FEATURES

Conditioning Ionic Technology
This hair dryer emits negative ions that neutralize static and prevent flyaway hair. This allows the hair cuticle to lie flat, which reduces static and frizz, and creates a healthy shine, giving your hair a more nourished look and silky smooth finish.

Cold Shot
This hair dryer is equipped with a cold shot function, which is used to set your hairstyle. Switch button upward to rapidly cool and set your hair once it has been styled.

Turbo Boost
This hair dryer is equipped with a turbo boost function, for ultimate speed drying. Switch button downward for an extra boost of power.

HOW TO USE YOUR HAIR DRYER

For fast drying and to remove excess moisture from the hair, use dryer on medium heat or high speed.

To create smooth styles, use the concentrator and a round hair brush (not included) while drying.

Quick Drying
Select high heat and high speed settings to dry your hair. Use a brush or your hand to shake out the excess moisture while drying, and keep the hair dryer in constant motion.

Straightening
Select high heat and high speed settings to dry your hair. When the hair is nearly dry, attach the concentrator and reduce the heat and speed. Section the hair according to thickness, and begin with straightening the bottom layers first. Using a brush, follow the concentrator from above, while slowly gliding down each section of hair from roots to tips.

Once bottom layers have been straightened, straighten the mid-section, and complete by straightening the top layers.

Natural Wavy Texture
Using a low heat and low speed setting, scrunch sections of hair with your fingers into the palm of your hand while directing airflow through your fingers. Once you have reached the desired effect, use the cool shot on each section of hair to hold the style. For more volume, lean forward and dry the hair in an upside-down position.

Lift and Volume
Use the hair dryer on low heat and speed settings, working from the roots of the hair and beginning at the back of the head. Section your hair, and use a brush to dry against the natural growth pattern of your hair. This creates lift at the roots, which creates a style with volume.

Styling
Set the hair dryer to low heat and low speed settings, and attach a concentrator for precision drying. Section the hair, and style using the brush. Concentrate the airflow directly on the hair while styling in the direction you desire. If necessary, hold the airflow for 2-5 seconds on each section while curling under or over for additional hold.

HOW TO USE YOUR DIFFUSER

This hair dryer comes with a professional style diffuser. This diffuser dries hair fast without blowing out the style. This is ideal for naturally curly, permed or fine hair, or to give your hair a boost of volume.

Note: Always select the lowest heat setting when using the diffuser, as damage may occur to the diffuser if higher heat settings are used.

Dry Hair Using the Diffuser
Beginning at the roots, dry your hair using circular motions, always moving in the same direction. Use the diffuser with the hair dryer set at low heat and low speed settings. Continue drying, keeping the hair dryer at a 90-degree angle from the scalp. This will lift the roots away from the scalp, giving your hair volume. Finish by drying the ends.

Add Volume to Hair Using the Diffuser
To add volume to your hair, tilt your head upside down and dry hair so that the roots fall away from your scalp. Use the diffuser with the hair dryer set at low heat and low speed settings. Point the hair dryer at the roots to give your hair maximum volume. Continue the process to the ends of your hair.
USER INSTRUCTIONS

This hair dryer is equipped with a thermostat that will turn itself off if the temperature exceeds the comfort level due to a partially blocked air inlet or air outlet grilles. In the event that the hair dryer stops during use, turn off all switches, and allow the hair dryer to cool down. After cooling, the thermostat will automatically reset. Before using the hair dryer again, check that the air inlet and air outlet grilles are not blocked.

Unplug the hair dryer, and clean the openings if necessary. During use, do not block the air openings or let your hair be drawn into the hair dryer.

MAINTENANCE

Your hair dryer is designed for household use and is virtually maintenance free. When cleaning becomes necessary, turn off all switches and disconnect the hair dryer from the power outlet.

To maintain peak product performance, it is important to clean the air inlet grille and the filter at the back of the dryer. To remove the air inlet grille, grasp the air inlet grille retaining ring with your hand, and twist it counter-clockwise until it unlocks. Pull it away from the hair dryer. It can now be cleaned with a soft brush or a vacuum cleaner. Once clean, take the air inlet grille retaining ring and position it so the lugs on the ring are aligned with the notches on the side of the dryer.

To lock, turn the air inlet grille retaining ring clockwise. The exterior of the hair dryer can be cleaned by wiping it with a damp cloth.

Storage

When not in use, unplug the hair dryer. Allow the dryer to cool, and store out of reach of children in a safe, dry location. Never wrap the cord around the device as this will cause the cord to wear prematurely and break. Handle the cord carefully for long life, and avoid jerking, twisting, or straining, especially at the plug connections. If the cord becomes twisted in use, periodically straighten it.

You may also use the hang loop to store the hair dryer within convenient reach, ensuring that water cannot be splashed onto it when it is hung up.
FOUR-YEAR LIMITED WARRANTY

Spectrum Brands, Inc. warrants this device against any defects that are due to faulty material or workmanship for a four-year period from the original date of consumer purchase.

If the device should become defective within the warranty period, we will replace it free of charge. Return your product and sales receipt with your name, address and daytime phone number to:

Spectrum Brands Returns Center
507 Stokely Drive
P.O. Box 1
Deforest, WI 53532

For more information, call 800-736-4648 in the United States and Canada.

KEEP ORIGINAL SALES RECEIPT AS PROOF OF PURCHASE FOR WARRANTY PURPOSES.

This warranty does not cover devices damaged by the following:

- Accident, misuse, abuse or alteration of the device
- Servicing by unauthorized persons
- Use with unauthorized accessories
- Connecting it to incorrect current and voltage
- Wrapping cord around the device, causing premature wear and breakage
- Any other conditions beyond our control

No responsibility, obligation, or liability is assumed for the installation or maintenance of this device.

SPECTRUM BRANDS, INC. SHALL NOT BE RESPONSIBLE FOR ANY INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS DEVICE. ALL IMPLIED WARRANTIES, INCLUDING BUT NOT LIMITED TO IMPLIED WARRANTIES OF FITNESS AND MERCHANTABILITY, ARE LIMITED IN DURATION TO FOUR YEARS FROM DATE OF ORIGINAL PURCHASE.

This warranty gives you specific legal rights, and you may also have other rights that vary from state to state or province to province. Some states do not allow the exclusion or limitation of incidental, special, or consequential damages.

PERFORMANCE GUARANTEE

If within 60 days after you have purchased your device you are not completely satisfied and would like a refund, return it with the original dated sales receipt indicating purchase price and date of purchase to the retailer from whom it was purchased.

Spectrum Brands, Inc. will reimburse all retailers who accept the device within 60 days from the date of purchase. If you have any questions concerning the money-back guarantee, please call 800-736-4648 in the United States and Canada.

If you purchased the device directly from the LumaBella™ website and would like to return it for a full refund*, please follow these terms and conditions:

1. Refund will be in the form of a check issued in U.S. dollars and will be provided only if all terms and conditions are met.
2. The following items must be returned to Spectrum Brands and postmarked no later than 60 days after purchase of the device:
   a. The LumaBella™ device
   b. The original sales receipt indicating price and date purchased
   c. The completed 60-day money-back guarantee form (located at www.LumaBella.com)
3. In addition, Spectrum Brands, Inc., in its discretion, must determine that the returned device was used in accordance with the instruction booklet (included with the device at the time of purchase).
4. Returns should be mailed prepaid (no collect returns accepted) to:
   Spectrum Brands Returns Center
   507 Stokely Drive
   P.O. Box 1
   Deforest, WI 53532
5. Refund does not include postage costs for the return of the device, but will include applicable taxes paid by customer, if any.
6. No responsibility will be accepted for late, lost, stolen, misdirected or damaged devices.
7. Please allow 4-6 weeks to receive your refund by check.

*Applies to U.S. and Canadian returns only. Terms and conditions apply.
