

NOTES:

Install fixture and bulb prior to installing the glass shade.
We recommend wearing protective gloves and safety glasses for steps 2-3.

INSTALLATION INSTRUCTIONS

1. Unscrew the Cylinder Finial above the dome-shaped Shade Cap. Slide finial and cap upwards.
2. Tip the shade at an angle and carefully slide the shade opening around Bulb, Socket, and Shade Holder.
3. Gently settle Shade onto Shade Holder so that the circular part of the holder fits into the shade opening.
4. Lower the Shade Cap down so that the Threaded Stem fits through the hole in the center. Screw on the Cylinder Finial.
