zentosmart

..the future
at work

zentoSmart™

Bringing you a new generation of Zento, the ZentoSmart™ has been designed for a new way of working ..Smart Working

The way we all work is changing and it's time for an office chair with the flexibility and strength to reflect the future at work

...Hot-desking, home working and advances in the types of technology we use, mean that the way we're all working is changing

Smart working means:

"Increased flexibility of work patterns and locations whilst optimising the use of available technology" *

...In essence, we're working smarter!

ZentoSmart™ has been designed and built to ensure that you are supported and comfortable in whichever posture you need to adopt for your particular working style or environment

With adjustment ranges which suit up to 98% percent of people**, ZentoSmart™ is ideal for multi-user situations

...oh & long before you even discover the integral bonus features, you'll love it ..without even knowing why

“...the way we all work is changing...”
