What we stand for:

We are an ethical company and that's not just a sound bite for us. We believe there is always room for improvement and every product is developed with this in mind.

Sustainability

We are constantly looking at ways to reduce our environmental impact through reduced, repurposed or recycled packaging. Our plastic bottles are recyclable and we encourage our customers to refill when empty as this saves both money and packaging. Refills are available for our hand sanitiser, surface sanitiser and wipes range.

Welfare

None of our products are tested on animals and we will never move from this position. Many of our products are vegan friendly and we will work on extending this to all of our range. We actively promote alcohol free hand sanitisers, not just because they are more effective than the alcohol based variety, but also because they are safer for you and your skin.

Quality of service

From our customer service to our products we believe in giving you the best possible experience. Our products are extensively tested to international standards the results of which are available on request. We do not deal in inferior ingredients or low quality products so you can be confident that a Serenity product will do exactly what it's supposed to.

Community

At Serenity we are proud to support various charities either close to us personally or that we feel can benefit from the properties of our products.

Our partnerships are pretty sterile - in a good way!

Schools, hospitals, airports, Government & businesses trust us to keep their communities, teams, clients & customers safe from viruses and bacteria.

It's all about the long-game for us. We are here for our partners from the second they need some sanity (sorry, we meant sanitisation) right through to supporting their evolving hygiene needs - helping to keep everyone in your world safe.

Some of the brands and organisations we have worked with are...

HM Prison & Probation Service

FlairSpray

FlairSpray bottles have the benefits of a pressurised aerosol, but are refillable, reusable and can even be used upside down for getting to those hard to reach areas.

Available with a spray head or as a refill, and suitable for use with all our surface cleaning and sanitising products.

Reusable and refillable **FlairSpray**, the future of aerosols.

FINE MIST

Fine spray gives even coverage on surfaces.

FULLY SEALED

Pressurised reservoir enables spray in any orientation.

LESS WASTE

Almost 98% evacuation before a refill is needed.

REUSABLE

Simply unscrew the top and refill.

CONTINUOUS SPRAY

Cover large areas with repeated actuation. Fine spray gives even coverage on surfaces.

PROPELLANT FREE

Air pressurisation system makes it safer for you and the environment.

Hand Sanitiser

Alcohol Free - Unscented

Available in foaming, spray or gel, our hand sanitisers are some of the most advanced formulations available. They all contain non-flammable biocides with antiviral and antibacterial qualities far beyond those of alcohol-based products, and can be used regularly without damaging your skin.

- Alcohol free, non-flammable and unscented
- BSEN 1500 - Meets NHS requirements for hand sanitiser
- BSEN 14476 - effective against enveloped viruses (including Coronavirus)
- BSEN 1276 - Kills 99.999% of germs
- Does not dry out or irritate skin.
- Food safe and ideal for food production areas
- Cruelty Free and suitable for vegans.
- Not harmful to plants or animals.
- Manufactured under ISO 9001 quality controls in a UK factory
- Used in hospitals, prisons, schools, vets, and homes around the UK

Hand Sanitiser

Alcohol Free - Scented

Here at Serenity we were getting fed up of the smell of the cheap alcohol hand sanitiser when out and about that leave you smelling like a distillery. To combat this we've introduced a range of our best selling alcohol free foaming hand sanitiser in a range of pleasant scents.

Rhubarb & Custard • Mint & Eucalyptus • White Lotus & Seagrass

These hand sanitisers meet all the same standards as our unscented sanitiser and are available in all the same sizes (5L, 500ml, 100ml and 50ml), leaving your hands smelling great as well as well as feeling great. Watch out for our special seasonal scents throughout the year!

Handwash

Scented & Unscented

Serenity Hygiene hand wash is a high quality bactericidal liquid soap with a mild but effective formulation to remove light to medium soil and protect against hand and food borne infections.

Our fast lathering soap is supplied in either pump bottles or in 5L containers for refilling wall mounted dispensers. We have both Scented and Unscented varieties to ensure we can meet your needs.

Scented: A quality perfumed blue liquid hand soap. A mild effective formulation to remove light to medium soil.

Unscented: A high quality bactericidal liquid soap which is food safe and non-tainting suitable for all uses including food preparation and medical settings.

Wipes

Patient Wipes

Serenity Patient Wipes contain an alcohol free biocide making them safe for regular use, even on sensitive skin.

Tested to kill Coronavirus (EN 14476) as well as other viruses including Norovirus. Effective against 99.999% of bacteria including resistant strains such as MRSA and C.Difficile.

Sustainability - We're very conscious of the environmental impact of wipes and go to great lengths to deliver the most eco-friendly, but practical to use wipe possible.

- Our tubs are made from recycled plastic and are recyclable.
- Our wipe refills are made from recycled plastic and are recyclable.
- We promote and encourage the use of tub/refill system.
- We continually search for alternatives with the final aim of a plastic free wipe.

Wipes

Viresist Surface Wipes

Tested to be effective on surfaces for up to 10 days against Coronavirus as well as other viruses, bacteria and fungal spores.

Tested to ASTM E 2180 for residual effect and EN 14476 for virucidal effect amongst other extensive testing. Effective against enveloped viruses on non-porous hard surfaces, **including all coronaviruses, MRSA, HIV, Hepatitis B&C, Norovirus & Ebola**. It also kills 99.999% of germs within 5 minutes (tested to EN 1276).

Surfaces

Viresist

At the cutting edge of surface sanitisation and protection. Giving peace of mind, reducing down time and improving efficiency.

Viresist has been tested to new standards and is effective for up to **10 days** against SARS-CoV-2 (CORONAVIRUS) as well as other viruses, bacteria and fungal spores.

Tested to ASTM E 2180 for residual effect and EN 14476 for virucidal effect amongst other testing. Effective against enveloped viruses on non-porous hard surfaces, including all coronaviruses, MRSA, HIV, Hepatitis B&C, Norovirus & Ebola. It also kills 99.999% of germs within 5 minutes (tested to EN 1276) and is effective against Pseudomonas aeruginosa, Staphylococcus aureus, Enterococcus hirae and Escherichia Coli.

Surfaces

Surface Sanitiser

Our new surface sanitiser has powerful bactericidal and virucidal agents for use in cleaning and sanitising many types of surface.

This product is unscented, non-tainting and food safe so ideal for hospitality and food preparation areas as well as anywhere else you need to keep your surfaces sanitised against bacteria and viruses.

Tested to BS EN 14476 standards our Surface Sanitiser is proven to be effective against enveloped viruses on non-porous hard surfaces, including all coronaviruses and SARS-CoV-2 as well as killing 99.999% of germs within 5 minutes (tested to BS EN 1276). It is also effective against *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Enterococcus hirae* and *Escherichia Coli*.

Surfaces

Heavy Duty Degreaser

Serenity Heavy Duty Degreaser is the perfect solution for a variety of deep cleaning tasks. It has been specially formulated to remove even the toughest soiling.

- Perfectly suited for degreasing and deep cleaning engines, machine parts and industrial equipment safely and effectively
- Clean Ovens, Barbecues, Tile work and floors quickly and easily
- Biodegradable, cost effective and safe to use. One amazing product multiple uses
- Excellent for clean up of heavy soiled areas, workshop floors & walls.

Surfaces

Safety Floor Cleaner

Serenity Antibacterial Safety Floor Cleaner is a bleach & alcohol free, environmentally sound product that combines an excellent floor cleaner with antibacterial action to leave a multitude of different floor surfaces clean and bacteria free.

- Complies with the European Suspension Test BSEN1276 and is effective against pseudomonas aeruginosa, Escherichia coli, staphylococcus aureus and enterococcus hirae with a contact time of 5 minutes.
- This formulation is suitable for use on flooring from major manufacturers, including: Armstrong Flooring, Jaymart, Polyflor, Tarkett and Marley.
- Serenity Safety Floor Cleaner has been specially designed for routine and “deep” cleaning of all types of safety flooring whilst at the same time disinfecting and re-odorising all in one operation.

Surfaces

Spill Absorb

Serenity Eco friendly spill absorbent granules instantly soak up liquid spills leaving a surface completely clear with no slip risk.

Quickly absorbing spills reduces the chance of cross contamination and transmission from bodily fluids, allowing for more effective containment and efficient use of disinfectants and sanitisers.

The granules are harmless to plant and animal life and will not cause harm in waterways or to marine life. Dispose of them in the same way as the material absorbed.

Essential safety product for areas where there may be a slip risk from spilled liquids. Has been found to reduce slip accidents by two thirds!
