# HOUSE

b y

# SUPER FARMERS

A safe space to engage and to be inspired; to be with family and friends and to feel at home.

# NATURAL LIGHT, TEXTURES & MOODS

HOUSE by Super Farmers is the perfect destination for a pause, a respite. Designed to receive abundant light bouncing off clean white walls, HOUSE is also easy on the eyes with its natural textures and decor that support slow living. This is a safe and conducive space for you and your guests to feel completely at ease for free expression and learning.

Moments spent in our HOUSE will recharge and rejuvenate the spirit, and uplift tired moods.

#soothing #soulhappy #recharge

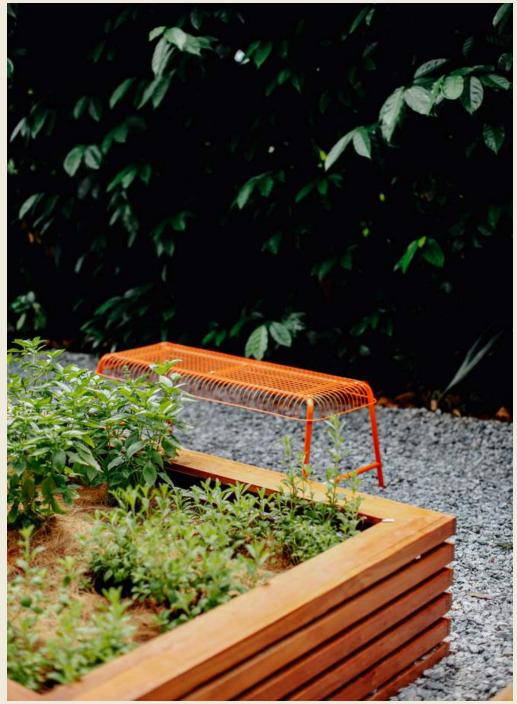

### A GARDEN OF HEALING HERBS

Get lost in our garden, a sprawling herb garden filled with herbs that are delicious and therapeutic.

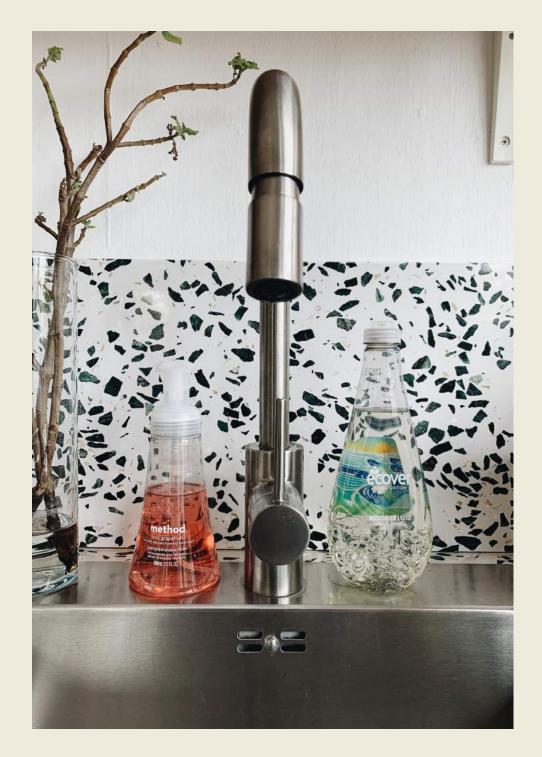

This chic outdoor hideout is not just charming in photos, its quiet surroundings and leaves rustling in the breeze and birds chirping from afar truly add to a relaxing experience.

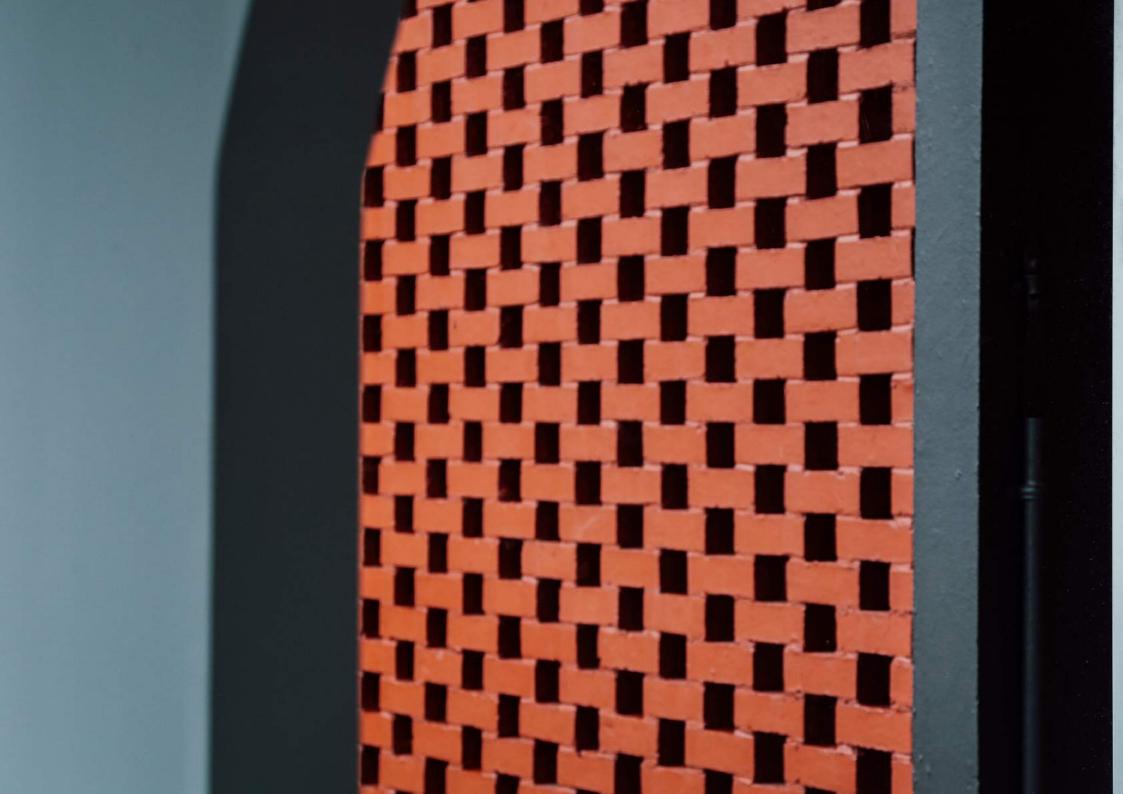

# EARTH-LOVING, INNOVATIVE PARTNERS

We love brands who breathe the same ethos and have collaborated with them to come on board to complete the Super Farmers experience.

You will be able to use the latest intelligent appliances by Ariston and Whirlpool and chemical-free washing products by Ecover and Method.

Each of these brands constantly improve their performance through innovation, ergonomics and efficient features.

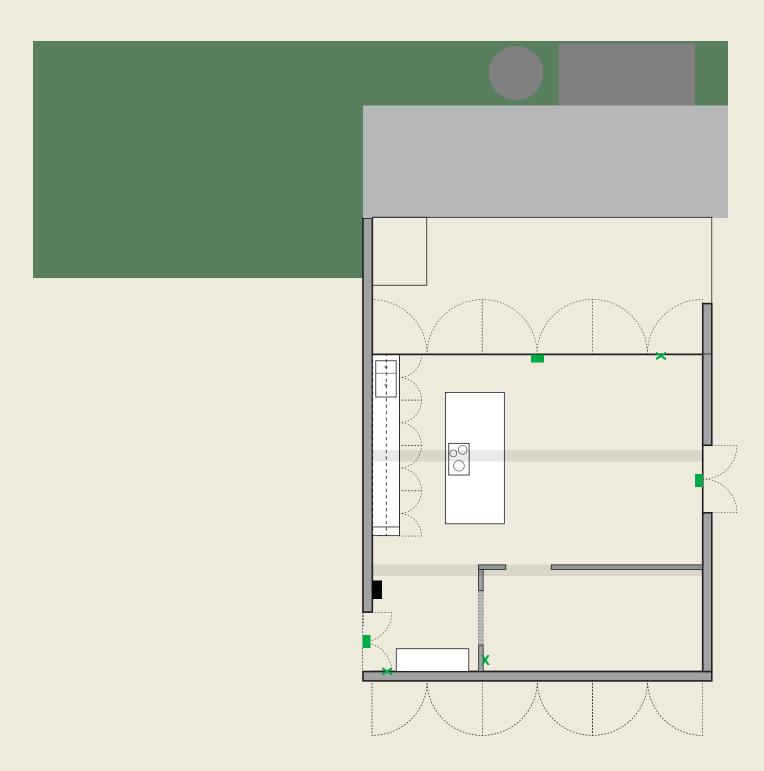

# STEEPED IN HISTORY AND RICH CULTURE

Housed in Mr. Lee Kuan Yew's former primary school premises, HOUSE is located on a piece of history that reminds us of our core value of continuous learning, of our thirst for gaining and sharing knowledge.

In Mr Lee's famous words, "I have never ceased to be a student. I have never ceased to learn". We continue to operate by this mantra.

The Joo Chiat estate is also famous for its Peranakan heritage, most evident its architecture and dining options in the area today.
