Save up to 20-40% over retail with our discounted shipping rates! Call or email us with the following information: box dimensions, name, address, phone number and your email address. It is also helpful, but not necessary, to tell us the package weight. With this information, FedEx will email you a shipping label. You can either print it out and tape it on your box, or FedEx will scan the barcode on your phone and print a label for you at their store. We will charge you for the FedEx label when we return your item.

- 4) When we receive your package, we will contact you to discuss your order and give you a firm price. It will include the cost of services, shipping (including our FedEx label if you ordered it), and sales tax where applicable. If you decide not to place an order, we will return your item and charge you only for return shipping.
