BORDERLESS BLACK GLASS DOOR SERIES

GLASS DOOR WITH STAINLESS TRIM SERIES

Not all wines are created equal. KingsBottle knows that not all wine can be stored the same way. Different wines need to be served at different temperatures. Rich and full-bodied Reds should be served at 15-18°C; Light Reds at 12-14°C; Whites and Rosé at 7-14°C, and Sparkling Wines at 6-9°C. With a dual zone wine fridge you no longer have to choose between your favorites. Dual zone wine fridges can accommodate two different serving temperatures.

KingsBottle understands the need for different temperatures and the desire for convenience of being able to store them all in one wine fridge. This is why we created our dual zone wine refrigerators. The advantage of a dual zone wine fridge is that you can store both Reds and Whites at their ideal temperatures. All of the KingsBottle dual zone wine fridges come with our 100% satisfaction guarantee. We take pride in providing you with the best in refrigerated wine storage.

## Key Features:

- Long life, high quality, quiet running Embraco INVERTER compressor that provides vibration free cooling and reduce energy consumptions by 40%.
- High quality temperature control system with automatic defrosting control mode, room high/low temperature alarm system, energy-saving management.
- State of the art fan - fan circulated air-cooling system. Cool air blows and distributes throughout the cabinet to ensure temperature uniformity in the entire fridge.
- Unique front-venting heat dispersion systems that allow each fridge to be built-in to cabinetry with minimal clearance.
- Beautiful hard wood shelves are strong, even under heavy loads, and warp resistant. Optimized for maximum bottle capacity and designed with standard Bordeaux, Pinot Noir, Riesling, and Champagne/Sparkling Wine bottles in mind.
- Steel ball-bearing rollers to ensure effortless placement and extraction of bottles regardless of weight.
- Gas charged tempered safety glass door, UV double layered coated glass to protect wine from both incandescent and fluorescent light sources.
- Lock with a spare key to protect your stock.

## What's new in 2020 ?

With the move to Embraco INVERTER compressors, we have partnered with an innovator in the compressor industry. At the heart of our units is a leading edge compressor, produced by a company known for its quality and reliability. The result is a quiet fridge with quality, stability, durability and energy efficiency. Coupled with our industry respected fans create a fridge worthy of the KingsBottle name.

The interior cabinet and wood shelves are re-designed and optimized for maximum bottle capacity with standard Bordeaux, Pinot Noir, Riesling, and Champagne/Sparkling Wine bottles in mind.

Our stainless steel model has been redesigned with a sleek and modern straight rod handle.

As a testament to our confidence and quality, our manufacturer's warranty coverage is being extended to 2 years from date of purchase.

# KB50D BOTTLE STORAGE

## STANDARD SHELVES

Standard Shelves will store perfectly with most bottle diameter of 3.25" (82.5mm) and bottle height of 13.00" (330mm)

Standard Bordeaux  
(70mm x 286mm)

Standard Bordeaux

Typical Riesling  
(70mm x 330mm)

Typical Riesling

Typical Pinot Noir  
(80mm x 302mm)

Typical Pinot Noir

Champagne/Sparkling  
(82.5mm x 311mm)

Champagne/Sparkling

standard shelves

display shelves options

As an additional option, you might like the idea to have some display shelves to show your bottle label. You could refer to the instruction to remove the 1st, 3rd shelves in the upper zone (use the screws to fill the holes on the wall after shelves removed), and then change the 2nd, 4th shelves to display shelves.

**Note:** This changes will reduce the total storage capacity.

# HAPPY CUSTOMERS

## **fits perfectly under my bar**

Posted by **Paul Ramirez**

This little black wine cellar was exactly what my "man-cave" needed. I'm serious about my wine so I searched high and low for the exact thing I wanted until I stumbled on this black 50 bottle dual zone cellar. It fits perfectly under my bar, which is also black, and the blue LED lights and wooden shelves really set it apart. Everyone comments on it when they come over!

## **Good price for what it is**

Posted by **Curt Summers**

I've had this 50 bottle wine cellar for about a month and it is really good. Very quiet. Nice look and the stainless steel with wood looks great in my kitchen. Good price for what it is

## **Best value for the money!**

Posted by **Kathleen Thompson**

I love this fridge! It was part of a built-in cabinet/rack for my husband. He is a serious oenophile. I like whites, he prefers reds. I wanted the very best I could afford. I looked at several dual-zones and read many reviews. I found Kingsbottle to be the most consistently high-rated company. From the ordering, delivery, set-up and use, this is the best purchase I could have made. I like the black, protective door, the lighting, the quiet running, and the capacity. It is very well-made. We had it installed and the only modification we did was to replace the plug end with a flat plug, as we had to use a plug on the side wall. It looks great, runs great, and we absolutely recommend Kingsbottle as the best value!

## **100 Bottle Wine Fridge**

Posted by **eric l.**

Since my wine collection is growing I have decided it is better to own a few of the 100 Bottle Wine Cellars..

Owning 3 permits my collections to change in size and not worry if I have an issue with one cellar. I can always transfer the bottles to the cellars that are doing well.

It is a great model very adaptable for all shapes and sized bottles.

Easy to assemble and operate. Highly recommend for even the novice collector.

## **good looking storage**

Posted by **Annette Brown**

I bought this 100 Bottle Dual Zone Compressor Wine Fridge in black for my Italian restaurant so I could display (and have easy access to) some of our most popular bottles of wine. I picked it because I can set different temperatures for the reds and white and because it has a very contemporary, stylish look with the black paneling, wooden shelves and blue LED lights. I got more than I expected for my money - this wine refrigerator looks great and is very quiet so it doesn't disturb our customers. I would suggest this fridge to anyone who wants a good looking storage option for a decent amount of wine.

## **Highly Recommended**

Posted by **Lynne Ellis**

If you're looking for a wine cellar that will let you keep quite a few bottles of wine at different temps, I couldn't recommend this one more highly. You get a lot of value for the price. The two zones are easy to operate and perfect for keeping your whites extra crisp while just lightly cooling your reds. The black steel body and interior with classic wood shelves looks great wherever you put it and it locks up tight to keep people out - in my case, a household full of teenagers. I definitely recommend this cellar to anyone who is serious about their wine.

## **This cellar is a good deal**

Posted **Terry Campbell**

This cellar is a good deal. It's super quiet and looks fantastic - the wood and stainless steel are seriously classy. It's also really quiet - I can hardly hear it even when I'm right next to it. I'd definitely recommend this wine cellar to anyone who needs a high capacity fridge.

## HAPPY CUSTOMERS

### **WOW!**

Posted by **Teresa Sanchez**

All I can say about this 170 Bottle Two-Temp Wine Cellar is WOW! I love it! It is exactly what I was looking for - it has an up to date look and will look great for years to come. It keeps my whites super cold and my reds at the perfect just-below-room-temperature... just the way I like them. The glass front and wood shelves are easy to clean and the blue LEDs illuminate my bottles without being too bright. I probably didn't need something this big but I wanted the best when I was remodeling my kitchen - and I think I got it! This fridge will be perfect for accommodating my expanding wine collection in the years to come!

### **Very happy with the unit**

Posted by **Lawrence Hochman**

Unit arrived a little over a week ago. Delivery was easily arranged and professional. Set up was nominal and I waited overnight for the unit to settle in temperature wise. I took out a couple of shelves to accommodate some larger bottles. This took down the total storage but still plenty of room. I really like the wooden shelves and ball bearings. Unit looks nice, keeps good temp and is relatively quiet. Well Done !

### **Worked well**

Posted by **Blake Kennedy**

I got this wine cellar about six months ago and use it as a built-in. So far it has worked well. It's quiet and the dual zones work well to keep my wine cool at different temperatures. It's pretty energy efficient, too.

### **This wine fridge is downright sexy!**

Posted by **Ron Pearson**

This wine fridge is downright sexy! It holds up to 170 bottles and looks great with a black and silver finish, wood shelves and awesome blue LED lights. I bought it for the look and the dual zones so that I could keep my whites and reds at different temps... it was exactly what I was looking for.

### **Happy Wine Drinker**

Posted by **Paul Speer**

I have been using my 100 bottle fridge for one month and am very happy with this purchase. The dual zones maintain proper temperature and the wooden racks are best for storing wine. I removed the bottom three racks to accommodate open bottles and mineral water. That still leaves plenty of room for storage, at least for my needs. I sincerely recommend this high quality fridge.

### **100 Bottle Dual Zone Wine Fridge**

Posted by **Michael Dutton**

We were impressed with the appearance of the unit. It looks very well made. Our unit is a dual zone fridge. At first we were concerned that the unit temperature seemed to operate at 4 degrees higher than the setting but after speaking with a company rep, we were informed that the unit can fluctuate up to 5 degrees. The unit consistently holds the set temperature plus 4 degrees in both zones. A couple of the shelves seem a little tight with regular size bottles. Overall, we are very pleased with the unit.
