About Muc-Off:

Back in 1991 Rex and Marilyn Trimnell got things started with X-Lite UK. After designing and manufacturing the world's first twin crown bicycle fork, Rex created a perfectly pink spray to clean his kit. To make a long story short, Rex's cleaner was the best thing since sliced bread, and it wasn't long before word got out and Muc-Off was born. Fast-forward to now and Muc-Off is now the go-to brand for top riders. And, in case you haven't noticed, they do a bit more than our original pink cleaner these days.
