TFAB-2

TFAB-2 20ft displays have unique stylistic features and shapes, are portable and easy to assemble. The aluminum tube frame features snap-buttons and zipper pillowcase fabric graphics. All displays come in portable, wheeled transit cases. Simply pull the pillowcase fabric graphic over the frame and zip.

features and benefits:

- Premium aluminum tube frames with spigot and snap button assembly
- Easy to store and ship
- Quick to set up
- Weighted feet for added stability

- Zipper pillowcase fabric graphic
- Kit includes: monitor kiosk featuring a medium monitor mount, can hold 32-55" monitor / max weight 40lbs
- Lifetime limited hardware warranty against manufacturer defects

dimensions:

Hardware	Graphic
Assembled unit: 228"w x 98"h x 20"d 5791.2mm(w) x 2489.2mm(h) x 508mm(d) Approximate weight with cases: 368 lbs / 166.9 kgs	Refer to related graphic template for more information. Visit: www.exhibitors-handbook.com/ graphic-templates

Connection Methods

Connection Method 1:
ES30 / ES50 / ES75

Compress the unlocked connector and slide one tube onto each end. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not overtighten.

Connection Method 2:
Snap Buttons & Swage

Swage

Snap Buttons

Locate the snap button on the connector or swage tube. Locate the hole on the corresponding tube. Press the snap button with your thumb and slide the tube and connector together so that the snap button snaps fully into the lock hole. To disassemble, press the snap button and pull apart.

Connection Method 3:
ES30-90B / ES30-I / ES30-C

ES30-90B   ES30-90B

Compress one unlocked end of the connector and slide it through one tube end. Compress the other end of the connector and slide the second tube on. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not overtighten.

Connection Method 4:
Tube Clamps

TCP   TC   TCH
Be sure to fully assemble all frames before using clamps. With the clamp unlocked, place one tube of the first frame into the mouth of the clamp. Place the second tube (if applicable) into the second mouth of the clamp. With both frame's tubes in the clamp, be sure to lock securely, but do not overtighten.

Kit Assembly

Step by Step

Step 1.

Gather the components necessary for assembling both Frame A frames and lay them flat on the floor. Assemble in the order the Labeling Diagram instructs.
Please reference Connection Method 2 for more details

Step 2.

With Frame A laying flat on the floor, locate your pillowcase A graphic. With the pillowcase unzipped, encase Frame A by covering the frame from Bottom to Top. Repeat this step with graphic E onto your second Frame A.
Zipper located to the top of Graphic A & E

Step 3.

Gather the components necessary for assembling both Frame B and lay them flat on the floor. Assemble in the order the Labeling Diagram instructs.
Please reference Connection Method 1 and 3 more details

Step 4.

With Frame B laying flat on the floor, locate your pillowcase B graphic. With the pillowcase unzipped, encase Frame B by covering the frame from Bottom to Top. Repeat this step with graphic D onto your second Frame B.

Zipper located to the top of Graphic B & D
Kit Assembly

Step by Step

Step 5.

Gather both LN114-S2-650 assemblies, and 2 LN114 screws. Attach the foot to the straight side of both Frame Bs.

Step 6.

Gather the components necessary for assembling Frame C and lay them flat on the floor. Assemble in the order the Labeling Diagram instructs.
Please reference Connection Methods 1 and 2 for more details

Step 7.

With Frame C laying flat on the floor, locate your pillowcase A graphic. With the pillowcase unzipped, encase Frame C by covering the frame from top to bottom.

Zipper located to the bottom of Graphic C

Bottom Of Frame

Step 8.

Attach your frames, making sure to tighten the clamps that connect frames.
Kit Assembly

Step by Step

Step 9.

Position your PM3S2-MK monitor kiosk behind both Frame B. Push the arms of the kiosk through the holes of the graphic. Attach your monitor bracket to the protruding arms on the front side of the graphic.

Monitor Kiosk

Kiosk displays are portable and easy to assemble. The aluminum extrusion frame features cam locks, tension glide connections and medium or large monitor mounts. This kiosk comes in a expandable shipping case.

features and benefits:

- Premium aluminum extrusion frames with cam lock and tension glide assembly
- Easy to store and ship
- Quick to set up
- Weighted feet for added stability

- Kiosk Kit includes a medium or large monitor mount
- Lifetime limited hardware warranty against manufacturer defects

dimensions:

| Hardware	Shipping
Assembled unit: Medium or Large 25.59"w x 70.87"h x 25.59"d 650mm(w) x 1800mm(h) x 650mm(d) Approximate weight: (excludes cases & monitor mount) Medium or Large 40 lbs / 19 kgs	Packing case(s): Medium or Large 1 OCE Case Shipping dimensions: OCE: Expandable case length (l) may vary 40" - 66"l x 18"w x 18"h 1016mm-1677mm(l) x 458mm(w) x 458mm(h) Approximate total shipping weight: (includes cases & monitor mount) Medium 83 lbs / 38 kgs Large 85 lbs / 39 kgs

additional information:

-Medium monitor mount can hold 32-55" monitor/ max weight 40lbs

-Large monitor mount can hold 40"-65" monitor/ max weight 40lbs

-Monitor not included

-If shipping with backwall kit cases may vary

Kit Assembly

Step by Step

Step 1.

Reference the image to the right. Locate the coded extrusions. Slide the PH2-300-TG connector into one end of the PM4S3-1200-A165-A165 so that it goes as deep as the internal pins. Connect the PM4S3-600-A165-A165 by sliding it over the PH2-300-TG. Repeat for this step for the second vertical.

PM4S3-600-A165-A165

PH2-300-TG

PM4S3-1200-A165-A165
Step 2.

Collect your PH-350-L-L and both PH2-350-L-L extrusions. Using the provided handtool, lock the extrusions into the back channel of the three channel PM4S3 faces as shown in the image below. Be sure the locks face toward the back of the assembly and do not over tighten.

PH-350-L-L

PH2-350-L-L

PH2-350-L-L
Step 3.

Locate the M5 thumbscrews, LN100s, and the PM4S3-MM stabilizing bases. Slide the LN100s into the middle channel of the PM4S3. Hand screw the M5 thumbscrews through the base holes and into the LN100 holes. Use the handtool to securely fasten the M5 Thumbscrews. Do not over tighten.

M5 Thumbscrew

LN100
Step 4.

Measure from the ground to the center of the hole in your main kit's graphic. Lock the center of your PH5-100-L-L into the PM4S3 stacks at the dimension height of the graphic hole. Do not over tighten.
PH5-100-L-L

Kit Assembly

Step by Step

Step 5.

NOTE: Your main backwall assembly must be completed with graphics before completing this step of the monitor kit.

Lock your PM4S4-150 to the ends of the PH5-100-L-L. Do not over tighten.

PM4S4-150

Step 6.

Set your monitor stand so that the extrusion arms fit through the graphic hole. Use the provided fastening hardware to complete your monitor stand. Slide the Square Head Bolt into the center channel of the PM4S4-150. Apply the monitor bracket and spacer washer before fastening with the wingnut. Monitor mount may vary depending on size. Monitor not included.

MM-M / MM-LG

PM4S4-150
